Regulations Governing Fees for Commodity Inspection

[Chronicles of Promulgation and Amendments]
Adopted and promulgated by Ministerial Order on 9 January 2002.
Amended and promulgated by Ministerial Order on 11 September 2002.
Articles 7-9, 11, 16-18, 19-1 and 19-2 amended and promulgated by Ministerial Order on 2 February 2005.
Articles 10 and 16 amended, Articles 10-1 and 19-3 added, Articles 13 and 23 deleted, and promulgated by Ministerial Order on 7 January 2008.
Articles 10-1 and 16 amended and promulgated by Ministerial Order on 13 September 2010.
Articles 19-2 and 19-4 amended and promulgated by Ministerial Order on 30 September 2011.
Annex III amended and promulgated by Ministerial Order on 17 December 2013.
Article 20 and Annex III amended, Article 20-1 added, and promulgated by Ministerial Order on 3 March 2015.
Articles 7, 19-2 and Annex III amended, Article 19-4 deleted, and promulgated by Ministerial Order on 1 August 2016.
Annex III amended and promulgated by Ministerial Order on 22 February 2017.
Articles 16, 24 and Annex III amended and promulgated by Ministerial Order on 14 November 2017；Article 16 shall take effect on 1 January 2018.
Annex III amended and promulgated by Ministerial Order on 10 September 2018.
Articles 22, 24 and Annex III amended; Articles 19-5 and 21- 1 added; Article 19-3 deleted, and promulgated by Ministerial Order on 3 January 2020. The implementation date of Article 19-5 shall be determined by the competent authority.
Amended and promulgated by Ministerial Order on 11 December 2020.
Annex III amended and promulgated by Ministerial Order on 9 July 2021
Annex III amended and promulgated by Ministerial Order on 5 November 2021
Annex III amended and promulgated by Ministerial Order on 7 July 2022
Annex III amended and promulgated by Ministerial Order on 7 November 2022
Annex III amended and promulgated by Ministerial Order on 6 July 2023
Articles 9, 14, 21, 23, Annex I and Annex III amended and promulgated by Ministerial Order on 10 January 2025
Annex III amended and promulgated by Ministerial Order on 8 July 2025
Articles 21, 23 and Annex III amended and promulgated by Ministerial Order on 10 February 2026
Articles 20 and Annex III amended and promulgated by Ministerial Order on 13 July 2026

Chapter I General Principles

Article 1

These Regulations are based on the provisions of Article 56 of the Commodity Inspection Act (the Act).

Article 2

The inspection authority mentioned in these Regulations refers to the Bureau of Standards, Metrology and Inspection (the BSMI) of the Ministry of Economic Affairs, its branches, or agencies entrusted, legal entities or organizations.

Article 3

The Inspection fees mentioned under these regulations are as follows :

1. Inspection fees;
2. Examination fees;
3. Assessment fees;
4. Registration fees;
5. Certificate fees;
6. On-site fees;
7. Testing fees; and

8. Service fees.

Fees shall be counted & collected in New Taiwan Dollars. The amount of mantissa less than one NT dollar will not be counted.

Article 4

The fees mentioned in the subparagraphs 1) to 6) of the first paragraph of the preceding Article shall not be collected for the following commodities:

1. Commodities that are to be used for rescue purpose, accompanied with proper documentation from government authorities; or
2. Commodities that are to be used for salvaging purpose, accompanied with proper documentation from government authorities.

Article 5

Where the inspection fees are collected based on foreign currencies, the foreign exchange rates will follow those announced by the Customs Administration, Ministry of Finance every ten days for purpose of customs clearance (buying for export and selling for import).

Article 6

An applicant shall submit foreign currency exchange certificates or other evidence along with the inspection application in order for the inspection authority to calculate the relevant inspection fees and rates. If such documents are not submitted along with the inspection application, an applicant is required to do so within one month.

Article 7

Assessment fees shall be charged based on the actual on-site or remote assessment days.

Article 8

The statutory fees shall be paid to the state exchequer designated by the inspection authority or the BSMI.

If the statutory fees are overpaid or paid in error due to computing mistakes or other reasons, an application for a refund of overpayment can be made to the inspection authority. The application procedures shall be prescribed by the BSMI.

Article 9

The on-site fees shall be collected in accordance with the following rules for on-site activities performed by personnel of the inspection authority, such as inspection, sampling, supervision of improvement, supervision of destruction, verification of markings, on-site verification, re-exportation, sealing of commodities, escorting of commodities, and other inspection-related business:

1. An NT$500 on-site fee for each person each time, for activities conducted domestically. If the inspector cannot commute to the place of inspection and back within the same day or has to commute between different branches, the on-site fees shall be collected in accordance with the costs and expenses set forth in the “Operating Guidelines Governing Domestic Business Travel Expenses;”

2. The on-site fee for one inspector shall be collected for each batch of commodity being inspected;
3. The on-site fee for one inspector shall be collected from the same obligatory inspection applicant (applicant) if multiple batches of commodities are declared for inspection simultaneously, stored at the same place, and the on-site inspection is conducted at the same time;
4. The on-site fees shall be collected separately from the same applicant if the commodities are stored in different places;
5. The on-site fees shall be collected separately for the same applicant if commodities are stored at the same place but covered by different inspection applications. If on-site inspection is conducted at the same time for these commodities, the on-site fees shall be collected for one inspector after a declaration is made; or
6. The on-site fees shall be collected separately for different obligatory inspection applicants regardless of whether the commodities are stored in the same place.

The inspection authority shall collect on-site fees based on the number of inspectors dispatched, if there are large quantities of commodities and one inspector cannot complete the task in one day, or if multiple batches of commodities under Subparagraphs 3 and 5 of the preceding paragraph involve different commodity categories.

The inspection authority may not collect on-site fees for any personnel not related to the inspection.

If the inspection authority approves withdrawal of the on-site inspection application made by an applicant, it shall return the on-site fees.

On-site fees shall not be collected if the inspection authority has offices stationed in port warehousing facilities to accept inspection applications and conduct inspection-related activities within those facilities.

Article 10

Upon request by an applicant, the inspection authority shall add up the collection of fees in accordance with the following rules, if relevant activities are conducted over an extended time. This does not apply to the acceptance of documents or those services announced by the BSMI to have 24-hour service available.

1. The extended operational hours during a weekday are from 6:00 AM to 8:30 AM or from 5:30 PM to 10:00 PM. An NT$400 fee for each batch of commodities shall be collected.
2. The extended operational hours during weekends and statutory holidays shall be from 6:00 a.m. to 10:00 p.m. An NT$1,000 fee for each batch of commodities shall be collected.
3. A fee of NT$2,000 shall be collected for activities taking place outside the special operational hours mentioned in the preceding items 1) and 2).

If the inspection authority approves withdrawal of applications for extended operation made by an applicant, it shall return the extended operation fees.

If the same applicant applies for inspection of several batches of commodities and the related inspection activities can be conducted at the same time, the inspection fees for the extended-time operation shall be collected for one batch of commodities.

Article 11

The examination fee of applications for exemption from inspection shall be NT$200 per application.

The examination fee of business enterprises approved by the competent authority for application for an extended exemption of designated commodities shall be NT$3,000 per application.

Article 12

A fee at NT$100 shall be charged for actions concerning certificates, certificates of conformity and notices, such as issuance of replacement certificates, copies of certificates or separation of certificates, except for those specified otherwise in these Regulations.

A fee at NT$100 shall be charged each time for updating information upon request by the applicant from on-line application, except for updating not attributable to the applicant.

Chapter II Fees for Batch-by-Batch Inspection and Monitoring Inspection

Article 13

The market price mentioned in Paragraph Two of Article 53 of the Act shall be prescribed by the following methods:

1. For commodities to be imported or exported, the BSMI shall determine the market price by referring to the declared import or export prices, the export prices certified by a designated foreign exchange bank and the wholesale market prices;
2. For domestically manufactured commodities, the BSMI shall suggest proposed market prices by referring to their wholesale market prices and obtain approval from the competent authority before announcement. When prices are to be adjusted, the same procedure shall apply.

If a market price is not decided in accordance with the preceding paragraph to determine the inspection fee, the inspection fee shall be calculated based on the following prices:

1. The FOB of commodities to be exported;
2. The CIF or prices without customs duties of commodities to be imported; or
3. The retail prices of domestically manufactured commodities, before tax.

The inspection fees for batch-by-batch inspection and monitoring inspection shall be collected in accordance with the inspection fee rates and the minimum inspection fees as prescribed in Annex I, based on the prices mentioned in the preceding two paragraphs.

Commodities that are to be imported in bulk, under the same shipment, item name, and with the same specifications, that are not easily separated for sampling will be treated as one batch and the fees will be collected accordingly.

Article 14

The certificate fee for the commodity inspection mark labels printed by the BSMI shall be NT$0.2 per label.

Article 15

The fees for type approval shall be collected as follows:

1. Examination fee:

(1) NT$3,500 for each type and NT$2,000 for each type in a series; and

(2) NT$2,000 for extension of each type approval certificate.

2. Certificate fee: NT$500 shall be collected for each new or replacement certificate.

Article 16

Manufacturers applying to the BSMI for assessment of their management system under monitoring inspection in accordance with Article 33 of the Act shall be charged an assessment fee of NT$8,000 per day for each assessor. NT$4,000 will be charged for assessment conducted in less than four hours.

Chapter III Fees for Registration of Product Certification and Declaration of Conformity

Article 17.

The fees involved in registration of product certification are as follows:

1. Examination fee:

(1) Application fee: NT$5,000 for each type and NT$3,000 for each type in a series;

(2) Authorization of certificate: NT$500 for each certificate;

(3) Extension of certificate: NT$3,000 for each certificate;

(4) Application fee for certificate of conformity: NT$5,000 for each application.

2. Assessment fee: production premises inspection, NT$8,000 per day for each assessor. NT$4,000 will be charged for an assessment conducted in less than four hours..

3. Registration fee: An annual fee shall be collected in accordance with Annex II.

4. Certificate fee:

(1) NT$10 for every inspection mark label for commodities subject to registration of product certification scheme; and

(2) NT$500 for each new or replacement certificate and certificate of conformity, and NT$200 for each new or replacement of authorized release notice, except for those not attibutable to the application.

5. Inspection fee: NT$ 2,000 for the inspection of each batch of sampled commodities for prior-released commodities.

Article 18

An NT$1,000 registration fee shall be charged for applying for designated codes for declaration of conformity.

Chapter IV Fees for Related Commodity Inspection Bodies

Article 19

The fees for designating product certification bodies shall be collected as follows:

1. Examination fee: NT$25,000 for each application for designation, extension of designation or expansion of the designated scope.
2. Assessment fee: NT$8,000 per day for each assessor. NT$4,000 will be charged for an assessment conducted in less than four hours.
3. Certificate fee: NT$500 for each replacement certificate.

Article 20

The fees for recognizing designated testing laboratories shall be charged as follows:

1. Examination fee: NT$15,000 for each application for recognition, extension of recognition, or addition of testing sites or test items.
2. Assessment fee: NT$8,000 per assessor per day for assessment, reassessment, routine surveillance, or re-surveillance. NT$4,000 will be charged for an assessment conducted in less than four hours.
3. Certificate fee: NT$500 for each reissuance, replacement, or additional issuance of a certificate.

The fees for registering a National Certification Body (NCB) and its associated CB Testing Laboratories (CBTLs) under the IECEE CB Scheme (Certification Bodies' Scheme of the IEC System of Conformity Assessment Schemes for Electrotechnical Equipment and Components) shall be charged as follows:

1. NT$32,000 for each NCB.
2. NT$12,000 for each CBTL.

Article 21

The fees for recognizing quality management system certification bodies, factory inspection bodies and renewable energy certificate site inspection bodies shall be collected as follows:

1. Examination fee: NT$12,000 per application for initial recognition, extension recognition or expansion of scope.
2. Assessment fee: NT$8,000 per person per day for assessment activities. Where the assessment time is less than four hours, the fee shall be charged at half the amount.
3. Certificate fee: NT$2,000 for each certificate issued and NT$500 for each reissued or replaced certificate.

Chapter V Other Inspection Statutory Fees

Article 22

The fees involved in voluntary product certification shall be collected as follows, except for those otherwise specified in these Regulations.

1. Examination fee:

(1) Application fee: NT$5,000 for each type and NT$3,000 for each type in a series;

(2) Extension of certificate: NT$3000 for each renewed certificate;

2. Assessment fee: NT$8,000 per day for each assessor. NT$4,000 will be charged for an assessment conducted in less than four hours.

3. Registration fee: an annual fee shall be collected in accordance with Annex II.

4. Certificate fee: NT$500 for each new or replacement certificate.

Article 23

The fees for renewable energy certificate (REC) verification shall be collected as follows:

1. Examination fees:

(1) REC application: NT$3 per certificate.

(2) Document review for renewable energy certificate applications: NT$200 per case.

2. Assessment fees: NT$8,000 per day for each assessor for assessment. NT$4,000 will be charged for an assessment conducted in less than four hours.

3. Service fees: NT$0.5 per certificate for each REC transferring.

Article 24

The fees for management systems certification shall be collected as follows:

1. Examination fee: NT$10,000 for each application.
2. Assessment fee: NT$8,000 per day for each assessor for assessment, second assessment, or surveillance. NT$4,000 will be charged for assessment conducted in less than four hours.
3. Registration fee: An annual fee of NT$12,000 shall be collected from each application.
4. Certificate fee: NT$2,000 for each new certificate and NT$500 for each replacement certificate.

Assessment fees shall not be collected for applications made via certification bodies that have cooperative agreements on co-registration with the BSMI, and have been granted registration by the BSMI.

Article 25

The assessment fee for factory inspection under the Registration of Product Certification and the Voluntary Product Certification schemes is NT$8,000 per day for each assessor. NT$4,000 will be charged for an assessment conducted in less than four hours.

Article 26

The inspection fees for contracted inspection shall be charged based on the FOB price in accordance with the following fee rates, unless other regulations apply:

1. FOB under US$10,000: a fee rate of 0.3%.
2. FOB more than US$10,000 and up to US$100,000: a fee rate of 0.1% for the amount over US$10,000.
3. FOB more than US$100,000: a rate of 0.05% for the amount over US$100,000.

The inspection fees for each batch of commodities mentioned in the preceding items 1) to 3) shall be charged at a minimum of NT$200.

The on-site fees shall be collected in accordance with Article 9 of these Regulations.

Article 27

The fees for contracted inspection of fishery products for export shall be collected as followings:

1. Examination fee: NT$600 for each application.

2. The on-site fees: charged in accordance with Article 9 of these Regulations.

Article 28

The fees for other testing or technical services shall be collected in accordance with the following rules:

1. The fees for other testing or technical services shall be collected in accordance with the fee rates set forth in Annex III. If the fee rate for a specific item is not available, the rate for similar items shall apply.
2. If the testing requires a special pharmaceutical facility or large volumes of material, such as water, electricity, gasoline or coal, additional fees shall be charged on a case-by-case basis according the expenses for testing.
3. An extra 40% of the testing fee shall be collected to expedite an application.
4. If on-site sampling by an inspector is required, the on-site fees shall be collected in accordance with Article 9 of these Regulations.
5. NT$100 shall be charged for each new or replacement testing report or technical service report.
6. A service fee of NT$50 shall be charged for each application.

If testing is unable to be conducted due to special circumstances, the fees set forth in the subparagraphs 1 to 4 of the preceding paragraph shall be returned. If no testing is conducted, an application for the return of the fees set forth in the preceding subparagraphs 1 to 4 of the preceding paragraph may be submitted to the inspection authority. However, the service fee mentioned in subparagraph 6 of the preceding paragraph are not refundable.

Article 29

For the application for importing undenatured ethyl alcohol for testing purposes, the examination fee of NT$600 shall be collected for each application.

Article 30

The BSMI shall charge a business operator for related inspection, assessment, examination or technical services to be conducted abroad in accordance with these Regulations. The fees shall be collected based on the rates stipulated in the “Guidelines Governing Fees for Travelling Abroad”.

Article 31

These Regulations shall take effect from the date of promulgation.

Annex I

Inspection Fee Rates and Minimum Fees for Batch-by-Batch Inspection and Monitoring Inspection

Types of Inspection and Inspection Models	Import/Export and Domestic Production	Commodity Categories	Inspection Fee Rates and Minimum Fees	Remarks
Batch-by-Batch Inspection and Monitoring Inspection	Export, Import, Domestic Production	1. Petroleum Products	1. Inspection fee rate: 0.1%, minimum fee per batch: NT$500. 2. If the inspection fee exceeds NT$100,000 per batch, the portion exceeding this amount shall be collected at half the rate.	
		2. Rubber Tires, Indoor Fire-resistant Decoration Materials	1. Inspection fee rate: 0.3%, minimum fee per batch: NT$1,000. 2. If the inspection fee exceeds NT$100,000 per batch, the portion exceeding this amount shall be collected at half the rate.	
		3. Air Conditioners	1. Inspection fee rate: 0.27%, minimum fee per batch: NT$1,000. 2. If the inspection fee exceeds NT$100,000 per batch, the portion exceeding this amount shall be collected at half the rate.	
		4. Textile Products (garments, underwear, sweaters, swimwear, towels, hosiery, bedding, hats, scarves, gloves, curtains, protective gear), Ceramic Tiles, Bags and Cases, and Footwear Products	1. Inspection fee rate: 0.1%, minimum fee per batch: NT$200. 2. If the inspection fee exceeds NT$100,000 per batch, the portion exceeding this amount shall be collected at half the rate. 3. For annual declaration with random inspection, the inspection fee rate is 0.1%, minimum annual fee is NT$3,000. If the annual inspection fee exceeds NT$100,000, the portion exceeding this amount shall be collected at half the rate.	
		5. Products Other Than	1. Inspection fee rate: 0.25%, minimum fee per batch: NT$500.	

		the Above Four Categories	2. If the inspection fee exceeds NT$100,000 per batch, the portion exceeding this amount shall be collected at half the rate. 3. For annual declaration with random inspection, the inspection fee rate is 0.25%, minimum annual fee is NT$3,000. If the annual inspection fee exceeds NT$100,000, the portion exceeding this amount shall be collected at half the rate.	
Management System Monitoring Inspection	Export, Import, Domestic Production	Products Subject to Management System Inspection	1. Inspection fee rate: 0.02%, minimum fee per batch: NT$100. 2. If the inspection fee exceeds NT$100,000 per batch, the portion exceeding this amount shall be collected at half the rate.	

Annex II

Annual Fees for Registration of Product Certification

Category of Commodity	Fees per Type
Safety Helmets, Safety Belts, Safety Shoes	NT$3,000
Eye Shields, Safety Gloves, PVC Pipes、Article Of Stationery、Children’s Products	NT$2,000
Toys, Plastic Erasers	NT$200
Others	NT$5,000

Annex III

Schedule of Fees for Commissioned Tests and Technical Services

08-13-X	Portable immersion heater
08-13-Y	Hair care
08-13-Z	Electricity warm device
08-14	Dehumidifier
08-15	Portable electric drill
08-16	Portable electric grinder & disc grinder
08-17	Portable electric circular saw
08-18-A	Water dispenser
08-18-B	Electric storage tank drinking water dispensers
08-18-C	Electric instantaneous water heaters
08-18-D	Air conditioner
08-18-E	Cloth dryer
08-19	Residual current protective devices(CNS 5422)
08-20	The fixed switches for household use
08-21	Plug and socket-outlets for household use
08-22	Connectors for appliances use
08-23	Electric switches for appliances
08-24	Circuit breakers for equipments
08-25	Temperature sensing controls
08-26	Thermal fuse
08-27	Cord sets

08-28	Components
08-29	Residual current operated circuit-breakers(IEC 61008-1、IEC 61009-1)
08-30	Timer
08-31	Automatic transfer switches
08-32-A	ITE
08-32-B	Word processing machine
08-32-C	Electric typewriter
08-32-D	(deleted)
08-32-E	Printing or copying machines
08-32-F	(deleted)
08-32-G	Cash register
08-32-H	Automatic data processing machine
08-32-I	Monitors for automatic data processing system
08-32-J	(deleted)
08-32-K	(deleted)
08-32-L	Image scanner
08-32-M	Other output or input units
08-32-N	Computers controlled by special programs and word processing machines with memory storages
08-32-O	Magnetic or optical reader
08-32-P	Data transcribing machines for inputting into data processing machines
08-32-Q	Other automatic data processing machine
08-32-R	Automatic teller machine
08-32-S	UPS
08-32-T	Electric machines with translation or dictionary functions
08-32-U	Erafting machines with data processing system
08-32-V	Pencil sharpener

08-33-A	Sound and televsion broadcast equipments
08-33-B	Single loudspeaker,mounted in their enclosures
08-33-C	Mutiple loudspeakers,mounted in their enclosures
08-33-D	Other audio-frequency electric amplifiers
08-33-E	Electric sound amplifier set
08-33-F	Coin-or-disc operated record player
08-33-G	Other record-player with loudspeakers
08-33-H	Turntables with automatic record-changing mechanism
08-33-I	Cassette player
08-33-J	Audio disc player
08-33-K	Optical audio disc player
08-33-L	Other sound reproducing apparatus
08-33-M	Digital audio type recorder/player
08-33-N	Other cassette type recording apparatus
08-33-O	Open-reel tape recorder
08-33-P	Cartridge tape recorder
08-33-Q	Other magnetic tape recorder
08-33-R	Other sound recording or reproducing apparatus
08-33-S	Magnetic tape-type video tape recorder/player beyond professional specifications
08-33-T	Radio-broadcast receivers
08-33-U	(deleted)
08-33-V	(deleted)
08-33-W	Monitor
08-33-X	(deleted)
08-33-Y	Projector
08-33-Z	Television

08-34-A	Laser optical disk-type video tape player
08-34-B	Digital magnetic disk-type video tape recorder/player
08-34-C	Other video tape recorder/player
08-35	(deleted)
08-36	Secondary lithium cells and batteries for portable applications
08-37	Secondary lithium batteries for electric motorcycles
08-38	Photobiological Safety of Lamps and Lamp Systems
09-1	(deleted)
10-1	EMC test (rental of lab/equipment)
10-2	EMC test
10-3	(deleted)
10-4	(deleted)
10-5	Low-voltage switchgear (rental of lab/equipment)
10-6	Lithium battery modules (rental of lab/equipment)
10-7	Performance Testing of Major Household Appliances (rental of laboratory/equipment) – Use of Refrigerator Testing Laboratory Equipment
11-1	Other type tests
12-1	Technical service fee table（technical authentication, assessment, training or other technical services）
13-1	Sample test class with the methods or equipment
14	Faucets
15	(deleted)
16	Bags, Cases and Trunks
17	Test for children’s bedguards
18	(deleted)
19	Polymer test (rental of lab/equipment)

Classification：Safety belt
No. 06-10

Test items	Test fee（NT$）	Remark
1. Strength of waistband	800	
2. Strength of suspension rope	800	
3. Strength of hook or belt ring	800	
4. Strength of rope clip	800	
5. Strength of rings	800	
6. Strength of installation part of D-shape ring	800	
7. Strength of connection part of buckle	800	
8. Strength of shock absorber	800	
9. Strength and holding power of rope clip attached to the vertical mother rope	800	
10. Strength of adjusting implement	800	
11. Strength of U-shaped suspension	800	
12. Shock absorption capability and and strength of safety belt	2000	

Classification：Full body harness
No. 06-11

Test items	Test fee（NT$）	Remark
1. Textile requirements	2000	
2. Corrosion test	5000	
3. Buckle uncoupling and slippage	2000	
4. Static strength (Two-way)	4000	
5. Dynamic performance (Two-way)	4000	
6. Marking	600	
7. Energy-absorbing lanyard or other lanyard-energy absorber combination(EAL)+full-body harnesses(FBH)(Class A)personal fall arrest system test	3000	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Sunglasses

No. 06-12

Test items	Test fee（NT$）	Remark
1.Transmittance test	800	
2.Ignition test	800	
3.Recognition of signal lights	800	
4.Plane angle of polarization	800	
5.Astigmatic power	800	
6.Degree of polarization	800	
7.Uniformity of luminous transmittance	2000	

Classification：Ceramic material (Tiles, Sanitary ceramic ware, Glasses, Refractory Bricks) (rental of lab/equipment)

No. 06-14

Test items	Test fee（NT$）	Remark
1.Apparatus for the measurement of dimensions	80	
2.Apparatus for the measurement of warp	80	
3.Apparatus for the measurement of rectangularity	60	
4.Profile projector	110	
5.Constant temperature water bath	100	
6.Breaking strength testing machine	100	
7.Abrasion apparatus for unglazed tiles	110	
8.Abrasion apparatus for glazed tiles	150	
9.Drying oven	100	
10.Crazing resistance equipment	120	
11.Tile cleaning device	100	
12.Slip tester	130	
13. Loading resistance device	90	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Valves for LPG cylinder

No. 07-3-B

Test items	Test fee（NT$）	Remark
1. Structure	13400	1.Testing rod tens:strength test to collect fees 1600NT. 2.Packing test: N-Hexane 72 hrs. collect fees 2200NT and pressurize air ageing 96 hrs. collect fees 9600NT.
2. Shape and dimension	4200	
3. Appearance	600	
4. Function	900	
5. Hydraulic pressure test	1500	
6. Air-tightness test	1800	
7. Safety valve action test	1800	
8. Vibration test	4000	
9. Parts	600	
10. O ring wear resisting test	6000	
11. Exhaust volume test	6000

Classification：Seamless steel gas cylinders

No. 07-3-F

Test items	Test fee（NT$）	Remark
1. Appearance(Outer surface)	900	1.Self-restraint the Material physical Property test specimen
2. Shape and dimension	1200	
3. Design thickness	1200	
4. Attached structure inspection	3300	
5. Pressure test	1500	
6. Mark	700	
7. (deleted)		
8. Material chemical property test	1800	
9. (deleted)		

Classification：Valves for high pressure gas cylinder

No. 07-3-G

Test items	Test fee（NT$）	Remark
1. Function	6000	
2. Structure and dimension	3600	
3. Appearance	600	
4. Material	1800	
5. Mark	700	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Valves for liquefied petroleum gas cylinder (rental of lab/equipment)
No. 07-3-H

Test items	Test fee （NT$）	Remark
1. Water pressure test equipment	100/hr	
2. Test equipment for discharge amount of safety device	190/hr	
3. Vibration resistance test equipment	110/hr	

Classification：Valves for liquefied petroleum gas cylinder (rental of lab/equipment)
No. 07-3-H

Test items	Test fee （NT$）	Remark
4. O-ring wear resistance test equipment	110/hr	
5. Self-closing device durability test equipment	120/hr	
6. Anti-static device test equipment	130/hr	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Gas burning cooking appliances for domestic use
No. 07-4-A

Test items	Test fee（NT$）	Remark
1. Structure	2000	test all item 6-11,13-15 collect fees 2800NT
2. Gas tightness	1400	
3. Gas consumption (total to indication)	700	
4. Gas consumption (single to indication)	700	
5. Gas consumption (total to sum)	700	
6. Combustion condition (moving)	700	
7. Combustion condition (floating)	700	
8. Combustion condition (exhausting)	700	
9. Combustion condition (tempering)	700	
10. Combustion condition (uniform)	700	
11. Combustion condition (exhausting noise)	700	
12. Combustion condition (co concentration)	1100	
13. Combustion condition (smoke)	700	
14. Combustion condition (electrode spot)	700	
15. Combustion condition (female fire burner)	700	
16. Combustion condition (continuous noise)	900	
17. Cross the cauldron	700	
18. Cabinet door open & close (only for stack)	700	
19. Elevation of temperature	2500	
20. Heat-resisting impact	700	

Classification：Gas burning cooking appliances for domestic use
No. 07-4-A

Test items	Test fee（NT$）	Remark
21. Ignition	700	Salt water spray test volume under 250 cm3, 4 in 1 valuation
22. Exhaustred safety device	700	
23. Vibration test	4000	
24. Efficiency	1000	
25. Heat tolerance test	1400	
26. Corrosion resistance	2160

Test items	Test fee（NT$）	Remark	Test items	Test fee（NT$）	Remark
1. Static temperature test	1460/ hr	For tests No. 1 to No. 8, all items include the error test, except for test No. 4 “Vibration and shocks test” and Test No. 7 “Durability test,” which do not include the error test.	6. Repeatability test	700/ hr	
2. Damp heat, steady-state (non condensing)	1100/ hr		7. Durability test (Excluding Error)	34/ hr	
3. Damp heat, cyclic (condensing)	1750/ hr		8. Overload flow test	450/ hr	
4. Vibration and shocks test(Excluding Error)	2500/ hr		9. Safety performance test for diaphragm gas meter with micro computers	450/ hr	
5. Error test	860/ hr		10. Temperature and humidity cycling test	100/ hr	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Other machine part (hardwareand hand tools)
No. 07-7-A

Test items	Test fee（NT$）	Remark
1. Hydrostatic test	1500	Salt water spray test, volume under 250 cm3, 4 in 1 valuation
2. Tightness	1500	
3. Parts accuracy	700	
4. Salt water spray test	90	
5. Steel shovel strength test	1200	
6. Dimension	500	
7. Structure inspection	700	
8. Torsion test	1000	
9. Spring test	1200	
10. Surface roughness	1100	
11. Static load test	1000	
12. Fire hose length and weight	600	CNS 13578

Classification：Cradles
No. 07-8

Test items	Test fee（NT$）	Remark
1. Dimensions	1200	
2. Appearance & construction	2000	
3. Torsion test and tension test for protruded article	1200	
4. Loading test for cradle bed	800	
5. Strength test for flame rod	1200	
6. Sway angle	700	
7. Surface coating materials(8 elements)	9600	
8. (deleted)		
9.Label	500	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Baby walker
No. 07-9

Test items	Test fee（NT$）	Remark
1. Accessibility test	800	
2. Small parts test	700	
3. Sharp edge test	800	
4. Sharp point test	700	
5. Test for locking device on the folding mechanism	1100	
6. Spring gap requirement	700	
7. Hole requirement	700	
8. Torsion test and tension test for protruded article	1200	
9. Flammability	1200	
10. Surface coating materials(8 elements)	9600	
11. Rigidity test	1000	
12. Wheel test	1000	
13. Dynamic loading test	1500	
14. Static loading test	1000	
15. Static stability test	1000	
16. Impact test	1200	
17. Seat design	1000	
18. Label	500	

Classification：Strollers & Carriages
No. 07-10

Test items	Test fee（NT$）	Remark
1. Dimensions	170	
2. Safety requirement for flammability	1300	
3. Construction test	1000	
4. Projection test	500	
5. Parking device test	1200	
6. Safety restraints	1000	
7. Stability of vehicles	800	
8. Security of wheel	700	
9. Locking devices	1500	
10. Static durability	2400	
11. Dynamic durability	19800	
12. Kerb mounting durability	3500	
13. Label	500	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Pressure cookers for domestic use
No. 07-11

Test items	Test fee（NT$）	Remark
1.Capacity	600	
2.Maintenance and surface finish	1700	
3.Tests and measurements relating to materials	600	
4.Deviation of the bottom −Concavity	600	
5.Deviation of the bottom -Ageing of the bottom	1000	
6.Tests and measurements relating to lifting grips（fatigue test）	1500	
7.Tests and measurements relating to lifting grips（temperatures measurement）	800	
8.Opening test	2500	
9.Tests relating to opening and closing devices-Closing of the pressure cooker	600	
10.Verification of pressure indicator	600	
11.Verification of pressure control device	1000	

Classification：Pressure cookers for domestic use
No. 07-11

Test items	Test fee（NT$）	Remark
12.Verifications of safety device	1000	
13.Verification of decompression device	600	
14.Test of resistance to deformation of the body and the lid	600	
15.Test of resistance to destruction of the body and the lid	800	
16.Material test（gasket） -lead,cadmium,2-mercaptoimidazoline	5600	
17.Leaching test（gasket） -phenol,formaldehyde,residue after evaporation	4800	
18.Leaching test（gasket） -zinc,heavy metals	3600	
19.Marking,labelling and handbook	700	
20.Leaching test relating to coatings-lead,cadmium	3600	Only for cookers with coating.
21.Gasket ageing test	3600	When the gasket is part of the cooker's safety device.
22.Mechaical resistance test to safe opening systems	600	Only applicable to pressure cookers with a manual safety opening system.

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Portable Screw Jacks for Automobiles

No.07-12-A

Test items	Test fee（NT$）	Remark
1. Appearance inspection	500	
2. Structure and dimension inspection	2000	
3. Load operating inspection	1000	
4. Load test	1000	
5. Slanting load test	1000	
6. Mark	500	

Classification：Hydraulic Trolley Jacks for Automobiles

No.07-12-B

Test items	Test fee（NT$）	Remark
1. Structure	1300	
2. Up action	2500	
3. Safety load test	1500	
4. Strength	2000	
5. Endurance test	1500	
6. Final operating test	500	
7. Surface treatment	500	
8. Mark	500	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Portable hydraulic Jacks for Automobiles
No.07-12-C

Test items	Test fee（NT$）	Remark
1. Visual inspection	500	
2. Construction and dimension inspection	2000	
3. (deleted)		
4. Load operation test	1000	
5. Proof load test	1000	
6. Leakage test	1000	
7. Inclined load test	1000	
8. Marking	500	

Classification：Rigid Steel Conduit
No. 07-13

Test items	Test fee（NT$）	Remark
1. Length and weight	500	The total amount by does not surpass 5000NT to receive
2. Dimension（inner ＆outer diameter and length）	500	
3. Effective thread length	500	
4. Chemical composition	1800	
5. Appearance	500	
6. Bending	800	
7. Press flat	800	
8. Antirust epithelium performance	600	
9. Mark	500	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Electric sterage tank water heater
No.08-1

Test items	Test fee （NT$）	Remark
1. Label	600	
2. Protection against access to live parts	1200	
3. Starting of motor-operated appliances	1200	
4. Power input and current	3800	
5. Heating	3900	
6. Leakage current and electric strength at operating temperature	1200	
7. Moisture resistance	3400	
8. Leakage current and electric strength	1200	
9. Overload protection of transformers and associated circuits	2500	
10. Endurance	4200	
11. Abnormal operation	6200	
12.Stability and mechanical hazards	1200	
13. Mechanical strength	1200	
14. Construction	4800	
15. Internal wiring	1200	
16.Components(depend on IEC standards)		
17 Supply connection and external flexible cords	1800	
18 Terminals for external conductors	1800	

Classification：Electric sterage tank water heater
No.08-1

Test items	Test fee （NT$）	Remark
19.Provision for earthing	1200	
20. Screws and connections	1800	
21.Clearances, creepage distances and solid insulation	3500	
22. Resistance to heat and fire and Proof tracking test	4800	
23. Resistance to rusting	1800	
24. Radiation, toxicity and similar hazards	1800	
25. pressure-resistant test for inner tank body	2400	
26. test of safety valve	2400	
27. Leakage of valve seat	2400	
28. test of voltage veriation	800	
29. test of automactic temperature regulation	2100	
30. test of over-temperature open circuit performance	1300	
31. test of temperature sensor performance	1300	
32. test of heating performance	1300	
33.Test of Use performance	1300	
34. test of overload performance in heating tube	2100	
3Flame-resistant test for thermal insulating material	2100	
36Test of inner tank capacity	1300	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Plugs and receptacles for domestic and similar general use

No.08-2-A

Test items	Test fee（NT$）	Remark
1. Classification, number of poles, pole arrangement and rating	600	
2. Checking the dimensions	1600	
3. Protection against electric shock	1700	
4. Provision for earthing	2000	
5. Terminals and terminations	15600	
6. Construction of fixed socket-outlets	9100	
7. Construction of plugs and portable socket-outlets	5500	
8. Interlocked socket-outlets	1500	8 of 08-21
9-1. Resistance to ageing and resistance to humidity	10600	
9-2. Protection provided by enclosures	9900	2 of 08-13-U
10. Insulation resistance and electric strength	1600	
11.Operation of earthing contacts	1000	
12. Temperature rise	5600	
13.Breaking capacity	7000	
14. Normal operation	9400	
15.Force necessary to withdraw the plug	2000	
16. Flexible cables and their connection	3200	
17. Mechanical strength	6300	
18. Resistance to heat	4000	
19. Screws, current-carrying parts and connections	1400	
20. Creepage distances, clearances and distances through sealing compound	1500	
21. Resistance of insulating material to abnormal heat, to fire and to tracking	9500	
22. Resistance to rusting	1700	
23. Additional tests on pins provided with insulating sleeves	10000	
24. Marking	800	

Classification：Nondetachable Cord Sets

No.08-2-B

Test items	Test fee（NT$）	Remark
1. Checking the dimensions	1600	
2. Protection against electric shock	1700	
3. Provision for earthing	2000	
4. Construction of plugs and portable socket-outlets	5500	
5-1. Resistance to ageing and resistance to humidity	10600	
5-2. Protection provided by enclosures	9900	2 of 08-13-U
6. Insulation resistance and electric strength	1600	
7.Operation of earthing contacts	1000	
8. Temperature rise	5600	
9. Flexible cables and their connection	3200	
10. Mechanical strength	6300	
11. Resistance to heat	4000	
12. Screws, current-carrying parts and connections	1400	
13. Creepage distances, clearances and distances through sealing compound	1500	
14. Resistance of insulating material to abnormal heat, to fire and to tracking	9500	
15. Resistance to rusting	1700	
16. Additional tests on pins provided with insulating sleeves	10000	
17. Marking	800	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Cord extension set
No. 08-2-C

Test items	Test fee（NT$）	Remark
1. Checking the dimensions	1600	
2. Protection against electric shock	1700	
3. Provision for earthing	2000	
4. Construction of plugs and portable socket-outlets	5500	
5-1. Resistance to ageing and resistance to humidity	10600	
5-2. Protection provided by enclosures	9900	2 of 08-13-U
6. Insulation resistance and electric strength	1600	
7.Operation of earthing contacts	1000	
8. Temperature rise	5600	
9.Breaking capacity	7000	
10. Normal operation	9400	
11.Force necessary to withdraw the plug	2000	
12. Flexible cables and their connection	3200	
13. Mechanical strength	6300	
14. Resistance to heat	4000	
15. Screws, current-carrying parts and connections	1400	
16. Creepage distances, clearances and distances through sealing compound	1500	
17. Resistance of insulating material to abnormal heat, to fire and to tracking	9500	
18. Resistance to rusting	1700	
19. Marking	800	

Classification：Cable reel
No. 08-3

Test items	Test fee（NT$）	Remark
1.Marking	800	
2.Protection against electric shock	1700	
3.Provision for earthing	2000	
4.Terminals and terminations	4500	
5.Flexible cables and their connection	3000	
6.Construction	7500	
7.Components	5000	12 of 8-25
8.Resistance to ageing	5200	
9.Resistance to harmful ingress of water	9900	2 of 8-13-U
10.Resistance to humidity	4900	
11.Insulation resistance and electric strength	1600	
12.Normal operation	8300	
13.Temperature rise in normal use	5600	
14.Temperature rise under overload condition	6000	
15.Mechanical strength	5500	
16.Resistance to heat	4000	
17.Screws, current-carrying parts and connections	1400	
18.Creepage distances, clearances and distances through sealing compound	2100	
19.Resistance of insulating material to abnormal heat, to fire and to tracking	7900	
20.Resistance to rusting	1700	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Small switches for indoor use

No. 08-4

Test items	Test fee（NT$）	Remark
1.Checking of Construction	1500	
2.Insulation Resistance	600	
3.Temperature Rise Test	2500	
4.Making and Breaking Test	5000	
5.Insulation Resistance Test	600	
6.Dielectric Withstand Voltage Test	600	
7.Resistance to Heat Test	2000	
8.Strength of Terminal Part Test	600	
9.Strength Test of Screwless Test	1500	
10.Bending Test of Screwless Terminal Test	1500	
11.Heat Cycle Test of Screwless Terminal Test	4000	
12.Withstand Overcurrent Test	4000	
13.Endurance to Ammonia Gas Test	1500	
14.Waterproof Test	4000	
15.Checking of Marking	600	

Classification：Miniature fuses and fuse link

No. 08-5

Test items	Test fee（NT$）	Remark
1.Marking	600	
2.Test of indelibility of marking	600	
3.Construction	1500	
4.Voltage drop	1200	
5.Time/current characteristic	2000	
6.Breaking capacity	3500	
7.Endurance tests	4000	
8.Maximum sustained Dissipation	1200	
9.Pulse tests	1200	
10.Fuse-link temperature	2500	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Refrigerator
No. 08-6

Test items	Test fee （NT$）	Remark
1. Label	600	
2. Protection against access to live parts	1200	
3. Starting of motor-operated appliances	1200	
4. Power input and current	3800	
5. Heating	3900	
6.Leakage current and electric strength at operating temperature	1200	
7. Moisture resistance	3400	
8. Leakage current and electric strength	1200	
9. Overload protection of transformers and associated circuits	2500	
10. Endurance	4200	
11. Abnormal operation	6200	
12. Stability and mechanical hazards	1200	
13. Mechanical strength	1200	
14. Construction	4800	
15 Internal wiring	1200	
16. Components(depend on IEC standards)		
17. Supply connection and external flexible cords	1800	

Classification：Refrigerator
No. 08-6

Test items	Test fee （NT$）	Remark
18.Terminals for external conductors	1800	
19. Provision for earthing	1200	
20. Screws and connections	1800	
21.Clearances, creepage distances and solid insulation	3500	
22 .Resistance to heat and fire and Proof tracking test	4800	
23. Resistance to rusting	1800	
24.Radiation, toxicity and similar hazards	1800	
25. Cooling performances test	3900	
26. Cooling rate test	3900	
27. Efficiency of energy	9200	
28. Temperature distribution of fresh food compartment	1800	
29.Defrosting performance test	1800	
30. thermal insulation test	1800	
31. Voltage fluctuation test	800	
32. Door opening force test	2600	
33. Freezer compartment door retaining force	2600	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Wires and cords
No. 08-8

Test items	Test fee（NT$）	Remark
1.Conducting resistance test	1200	
2.Insulation resistance	600	
3.Electric conductivity	1800	
4.Electrostatic capacity	2400	
5.Not balanced capacity	2400	
6.High temperature coiling	3000	
7.Low temperature bending curvature	4200	
8.Heating deformation	3000	
9.Burning endurance	1200	
10.Attenuation test	1800	
11.Water proof test	1800	
12.Sheath needle test	1200	
13.Anti-friction test	1800	
14.Bending test	1800	
15.Drug-resistant test	1200	
16.Electric strength	700	
17.Spark test	1200	
18.Oil resistance	3600	

Classification：Wires and cords
No. 08-8

Test items	Test fee（NT$）	Remark
19.Tensile strength test	2400	
20.Elongation test	2400	
21.Construction inspection	1200	
22.Construction inspection	1800	
23.Low temperature impact	5000	
24.Tihgtness test	1200	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Insulating capability of material
No. 08-9

Test items	Test fee（NT$）	Remark
1.Leakage character withstand hight temperature test for dry cell	4000	
2.Leakage character withstand excess discharge test for dry cell	1000	
3.Initial intermittent noncontinuous discharge test for dry cell(final voltage measure)	5000	
4.Initial intermittent continuous discharge test for dry cell(final voltage measure)	2000	
5.Volt test for dry cell opening	600	
6.Pinprick test for rubber condoms	2200	
7.Anti-electrostatic capability test(first methor for food wears with safety)	5000	
8.Anti-electrostatic capability test(second methor for food wears with safety)	1500	
9.45~95%humidity ambient	200	
10.-20~100℃temperature ambient	100	

Classification：Insulating capability of material
No. 08-9

Test items	Test fee（NT$）	Remark
11.Resistance test	1800	
12.Charge current test for insulating material safeguard wear	1500	
13.Dielectrical hipot test for solid electrical insulating material and safeguard wear	1600	
14.Dielectrical breakdown voltage test for solid electrical insulating material	2000	
15.Surface risistivity or the volume resistance multipliecl test	2200	
16.Insulating resistance for insulating material	1500	
17.The other test		a fee contingent on test

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Molded case circuit breakers

No. 08-10-A

Test items	Test fee（NT$）	Remark
1.Construction	2400	
2.Manual operation	600	
3.Electric power operation	2500	
4.Under-voltage trip	2500	
5.Overcurrent tripping test	2500 (for each)	
6. (deleted)		
7. (deleted)		
8.Make and break of overload	4500	
9.Instantaneous current	4000	
10.Temperature rise	2500	
11.Closing and opening endurance	9800	
12.Insulation resistance	600	
13.Withstand voltage	600	
14. Short circuit test(220V，Short circuit capacity≦10kA)	7000	
15. Short circuit test(220V，10kA＜Short circuit capacity≦25kA)	9000	
16. Short circuit test(220V，25kA＜Short circuit capacity≦50kA)	12000	

Classification：Low voltage single-phase induction motor

No. 08-11-A

Test items	Test fee（NT$）	Remark
1.Marking	600	
2.Scale check	600	
3. Construction	2400	
4.Source Voltage Variation Test	800	
5.High Potential Test	1200	
6.Noise-Level Test	1000	
7.Maximum Starting current Test	800	
8.Break-Down Torque Test	800	
9.Minimum Starting Torque Test	800	
10.No-Load Current Test	800	
11.Full-Load current Test	800	
12.Power Factor of Full-Load Test	1000	
13.Efficiency of Full-Load Test	1000	
14.Temperature Rise Test	3400	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Low voltage three-phase squirrel-cage induction motor
No. 08-11-B

Test items	Test fee（NT$）	Remark
1.Marking	600	
2.Scale check	600	
3.Construction	2400	
4.Source Voltage Variation Test	800	
5.Imbalance of Three Phase No-Load Current Test	1000	
6.High Potential Test	1200	
7.Noise-Level Test	1000	
8.Starting input characteristics	800	
9.Break-Down Torque Test	800	
10.Minimum Starting Torque Test	800	
11.Full-Load Slip Test	800	
12.Full-Load current Test	800	
13.Power Factor of Full-Load Test	1000	
14.Efficiency of Full-Load Test	1000	
15.Temperature Rise Test	3400	

Classification：Low voltage three-phase induction motor
No. 08-11-C

Test items	Test fee（NT$）	Remark
1.Marking	600	
2.Scale check	600	
3.Construction	2400	
4.Source Voltage Variation Test	800	
5.High Potential Test	1200	
6.Maximum Output Power Test	1000	
7.Imbalance of Three Phase No-Load Current Test	1000	
8.No-Load Current Test	800	
9.Maximum Starting Current Test	800	
10.Minimum Starting Torque Test	800	
11.Full-Load Slip Test	800	
12.Full-Load current Test	800	
13.Power Factor of Full-Load Test	1000	
14.Efficiency of Full-Load Test	1000	
15.Temperature Rise	3400	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Home appliance
No. 08-13-A

Test items	Test fee （NT$）	Remark
1. Label	600	
2. Protection against access to live part	1200

9. Heating	2500	
10. Endurance	5000	
11. Mechanical strength	1500	
12. Screws, current-carrying parts and connections	1800	
13. Creepage distances, clearances, solid insulation and coatings	1000	
14. fire hazard	2400	
15. Resistance to rusting	1500	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Circuit breakers for equipments
No. 08-24

Test items	Test fee（NT$）	Remark
1. Marking	600	
2. Construction	1500	
3. Test of indelibility of marking	600	
4. Test of reliability of terminals, current-carrying parts and connections	1200	
5. Test of reliability of terminals for ecternal conductors	1000	
6. Test of protection against electric shock	1200	
7. Test of resistance to heat	1200	
8. Test of resistance to abnormal heat and to fire	2400	
9. Test of resistance to rusting	1500	
10. humidity	2000	
11. insulation resistance	600	
12. Electric strength	600	
13. Temperature rise	2500	
14. 28-day test	13500	
15. Verification of electrical operational capability	5000	
16. Test of tripping characteristics	4200	
17. Test of resistance to mechanical shock and impact	1200	
18. Conditional short-circuit tests	7500	

Classification：Temperature sensing controls
No. 08-25

Test items	Test fee（NT$）	Remark
1. Marking	600	
2. Protection against electric shock	1200	
3. Provision for protective earthing	1200	
4. Test of reliability of screw-type terminals for external copper conductors	1000	
5. Constructional requirements	1000	
6. Moisture and dust resistance	2000	
7. Electric strength and insulation resistance	1200	
8. Heating	2500	
9. Humidity	2000	
10.Manufacturing deviation and drift	2000	
11. Environmental stress	2000	
12. Endurance	5000	
13. Mechanical strength	1500	
14. Threaded parts and connections	1200	
15. Creepage distances, clearances and distances through solid insulation	1000	
16. Resistance to heat, fire and tracking	2400	
17. Resistance to corrosion	1500	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Thermal fuse
No. 08-26

Test items	Test fee（NT$）	Remark
1. Marking	600	
2. Mechanical requirements	1000	
3. Creepage distances and clearances	1000	
4. Humidity	1500	
5. Electric strength	600	
6. Insulation resistance	600	
7. Resistance to tracking	1500	
8. Loimited short-circuit test capacity	1500	
9. Instantaneous over current	1500	
10. Rating operation temperature check	1500	
11. The max temperature limit check	1500	
12. Heat ageing test	5000	
13. Soldering test	600	
14. Resistance to rusting	600	

Classification：Cord sets
No. 08-27

Test items	Test fee（NT$）	Remark
1. Plug tests according to IEC884-1		
2. Appliance inlet tests according to IEC320-1		
3. Equipment classification	600	
4. Rating voltage and rating current	600	
5. Marking	600	
6. The classification of wire	600	
7. The length of wire	600	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Components
No. 08-28

Test items	Test fee（NT$）	Remark
1. Marking	1000	
2. Dimensions and compatibility	2000	
3. Test of indelibility of marking	600	
4. Test of reliability of screws, current-carrying parts and connections	1000	
5. Test of reliability of screw-type terminals for external copper conductors	1200	
6. Protection against electric shock	600	
7.Resistance to heat	1200	
8. Resistance to heating of appliance couplers for hot conditions or very hot conditions	2400	
9.Resistance rusting	1250	
10. Humidity	4200	
11. Insulation resistance	600	
12. Electric strength	600	
13.Temperature rise	2500	
14. 28-day tests	27000	
15. Test of mechanical and electrical endurance	5000	
16. Limited short circuit tests	3800	
17. Trip characteristic tests	7500	
18. Mechanical stresse	1200	
19. 1500A short circuit tests	10000	
20.Ics short circuit tests	12000	
21.Icn short circuit tests	12000	
22.Short circuit tests（220V，short circuit capacity≤10kA）	7000	
23.Short circuit tests（220V，short circuit capacity>10kA，<25kA）	9000	
24.Short circuit tests（220V，short circuit capacity>25kA，<50kA）	12000	

Classification：Components
No. 08-28

Test items	Test fee（NT$）	Remark
25. Force necessary to withdraw the plug	1500	
26. Contact resistance tests	600	
27. Endurance test	5000	
28. Endurance to ammonia gas	1200	
29. Tensile load	1500	
30. Able to bear the intensity	1200	
31. Voltage drop	2000	
32. Time/current characteristic	2500	
33. Maximum sustained Dissipation	2000	
34. Pulse tests	1500	
35. 28-days tests	13500	
36. Instantaneous over current	1500	
37. Temperature ageing tests	5000	
38.Soldering test	600	
39. The operation of the test device at the limits of rated voltage	6000	
40. Verification of behaviour of in case of current surges caused by impulse vlotages	1500	
41. The correct operation at residual currents with d.c components	2500	
42. Reliability	3500	
43. Aging of electric components	4800	
44. Creepage and clearance distant	1000	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Residual current operated circuit-breakers(IEC 61008-1、IEC 61009-1)

No. 08-29

Test items	Test fee（NT$）	Remark
1. Indelibility of Marking	600	
2. Reliability of Screws, Current-Carrying Parts and Connections Test	1000	
3. Reliability of Screw-Type Terminals for External Conductors Test	1200	
4. Protection Against Electric Shock Test	600	
5. Dielectric Properties Test	1200	
6. Temperature-Rise Test	2500	
7. Mechanical Operation and Operational Performance Capability Test	7800	
8. Trip-Free Mechanism Test	7500	
9. Short-Circuit Test	12000	
10. Verify the Behaviour of The RCCBs Under Short-Circuit Conditions	4000	
11. Resistance to Mechanical Shock and Impact Test	1200	
12. Resistance to Heat Test	1200	
13. Resistance to Abnormal Heat and To Fire Test	1200	
14. Protection Against Electric Shock Test	700	
15. Verification of The Operation of The Test Device at The Limits of Rated Voltage	6000	
16. Behaviour of RCCBs In Case of Failure of The Line Voltage For RCCBs Classified According to 4.1.2.1.	2500	

Classification：Residual current operated circuit-breakers(IEC 61008-1、IEC 61009-1)

No. 08-29

Test items	Test fee（NT$）	Remark
17. Limiting Values of The Non-Operating Current Under Overcurrent Conditions	2500	
18. Verification of Behaviour of RCCBs In Case of Current Surges Caused By Impulse Voltages Test	1500	
19. Behaviour of RCCBs In Case of An Earth Fault Current Comprising A D.C. Component Test	2500	
20. Reliability (climatic tests) Test	3500	
21. Ageing of Electronic Components Test	4800	
22. Verification of The Behaviour of The RCCB Under Short-Circuit Conditions Test: 220V，≦10kA	7000	
23. Verification of The Behaviour of The RCCB Under Short-Circuit Conditions Test: 220V，>10kA,≦25kA	9000	
24. Test of Instantaneous Tripping and of Correct Opening of The Contacts	2000	
25. Conventional tripping current test	2000	
26. Conventional no-tripping current test	2000	
27. Off-Load Tests With Residual Sinusoidual Alternating Currents	600	
28. Residual Operating Characteristics	600	
29. Rated short-time over-current test	4000	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Timer
No. 08-30

Test items	Test fee（NT$）	Remark
1. Marking	600	
2. Protection against electric shock	1200	
3. Provision for protective earthing	1200	
4. Test of reliability of screw-type terminals for external copper conductors	1000	
5. Constructional requirements	1000	
6. Moisture and dust resistance	2000	
7. Electric strength and insulation resistance	1200	
8. Heating	2500	
9. Humidity	2000	
10. Manufacturing deviation and drift	2000	
11. Environmental stress	2000	
12. Endurance	5000	
13. Mechanical strength	1500	
14. Threaded parts and connections	1200	
15. Creepage distances, clearances and distances through solid insulation	1000	
16. Resistance to heat, fire and tracking	2400	
17. Resistance to corrosion	1500	

Classification：Automatic transfer switches
No. 08-31

Test items	Test fee（NT$）	Remark
1. Construction	600	
2. Use condition	600

Classification：Magnetic or optical reader

No. 08-32-O

Test items	Test fee（NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Power interface	1600	
3. Marking & instructions	1200	
4. Protection from electric shock and energy hazards	2100	
5. Insulation	3200	
6. SELV circuits	2200	
7. Limited current circuits	2200	
8. Protective earthing	2100	
9. Disconnection from primary mains supply	1800	
10. Earth fault protection and overcurrent in primary circuits	1800	
11. Safety interlocks	2800	
12. Clearances、creepage distances and distances through insulation	3000	
13. Interconnection of equipment	1600	
14. Limited power sources	2200	
15. Wiring、connections and supply	3400	
16. Stability and mechanical hazards	2600	
17. Mechanical strength and stress relief	3200	
18. Details of construction	3600	
19. Resistance to fire	2100	
20. Temperature rise	5100	
21. Earthing leakage current	2200	
22. Insulation electric strength	3500	
23. Abnormal operating and fault conditions	6200	
24. Connection to telecommunication networks	7000	

Classification：Data transcribing machines for inputting into data processing machines

No. 08-32-P

Test items	Test fee（NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Power interface	1600	
3. Marking & instructions	1200	
4. Protection from electric shock and energy hazards	2100	
5. Insulation	3200	
6. ELV circuits	2200	
7. imited current circuits	2200	
8. Protective earthing	2100	
9. Disconnection from primary mains supply	1800	
10. Earth fault protection and overcurrent in primary circuits	1800	
11. Safety interlocks	2800	
12. Clearances、creepage distances and distances through insulation	3000	
13. Interconnection of equipment	1600	
14. Limited power sources	2200	
15. Wiring、connections and supply	3400	
16. Stability and mechanical hazards	2600	
17. Mechanical strength and stress relief	3200	
18. Details of construction	3600	
19. Resistance to fire	2100	
20. Temperature rise	5100	
21. Earthing leakage current	2200	
22. Insulation electric strength	3500	
23. Abnormal operating and fault conditions	6200	
24. Connection to telecommunication networks	7000	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Other automatic data processing machine

No. 08-32-Q

Test items	Test fee（NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Power interface	1600	
3. Marking & instructions	1200	
4. Protection from electric shock and energy hazards	2100	
5. Insulation	3200	
6. SELV circuits	2200	
7. Limited current circuits	2200	
8. Protective earthing	2100	
9. Disconnection from primary mains supply	1800	
10. Earth fault protection and overcurrent in primary circuits	1800	
11. Safety interlocks	2800	
12. Clearances、creepage distances and distances through insulation	3000	
13. Interconnection of equipment	1600	
14. Limited power sources	2200	
15. Wiring、connections and supply	3400	
16. Stability and mechanical hazards	2600	
17. Mechanical strength and stress relief	3200	
18. Details of construction	3600	
19. Resistance to fire	2100	
20. Temperature rise	5100	
21. Earthing leakage current	2200	
22. Insulation electric strength	3500	
23. Abnormal operating and fault conditions	6200	
24. Connection to telecommunication networks	7000	

Classification：Automatic teller machine

No. 08-32-R

Test items	Test fee（NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Power interface	2100	
3. Marking & instructions	1500	
4. Protection from electric shock and energy hazards	3200	
5. Insulation	4800	
6. SELV circuits	3400	
7. Limited current circuits	3400	
8. Protective earthing	3900	
9. Disconnection from primary mains supply	2600	
10. Earth fault protection and overcurrent in primary circuits	2600	
11. Safety interlocks	5200	
12. Clearances、creepage distances and distances through insulation	5600	
13. Interconnection of equipment	3000	
14. Limited power sources	2800	
15. Wiring、connections and supply	6500	
16. Stability and mechanical hazards	4200	
17. Mechanical strength and stress relief	6100	
18. Details of construction	6500	
19. Resistance to fire	3800	
20. Temperature rise	12000	
21. Earthing leakage current	4200	
22. Insulation electric strength	4900	
23. Abnormal operating and fault conditions	14000	
24. Connection to telecommunication networks	15000	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：UPS

No. 08-32-S

Test items	Test fee（NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Power interface	1600	
3. Marking & instructions	1200	
4. Protection from electric shock and energy hazards	2100	
5. Insulation	3200	
6. SELV circuits	2200

17. Mechanical strength and stress relief	1200	
18. Details of construction	1800	
19. Resistance to fire	1200	
20. Temperature rise	2100	
21. Earthing leakage current	1200	
22. Insulation electric strength	1800	
23. Abnormal operating and fault conditions	2600	
24. Connection to telecommunication networks	3000	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Sound and televsion broadcast equipments
No. 08-33-A

Test items	Test fee （NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	2800	
6. Accessible hazards in normal operating condition	2800	
7. Requirements of insulation	5800	
8. Fault conditions	7600	
9. Mechanical strength	3000	
10. Clearance、creepage distances	4800	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4000	
16. Resistance to fire	3600	

Classification：Single loudspeaker,mounted in their enclousures
No. 08-33-B

Test items	Test fee （NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	4700	
5. Requirements of construction for protection from electric shock	2000	
6. Accessible hazards in normal operating condition	2000	
7. Requirements of insulation	4800	
8. Fault conditions	5200	
9. Mechanical strength	2100	
10. Clearance、creepage distances	3500	
11. Terminals	1800	
12. External flexible power supply cords	1800	
13. Electric connection and mechanical security	1800	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	2800	
16. Resistance to fire	2400	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Mutiple loudspeaker,mounted in their enclosures
No. 08-33-C

Test items	Test fee （NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	4900	
5. Requirements of construction for protection from electric shock	2000	
6. Accessible hazards in normal operating condition	2000	
7. Requirements of insulation	4800	
8. Fault conditions	5400	
9. Mechanical strength	2100	
10. Clearance、creepage distances	3800	
11. Terminals	2000	
12. External flexible power supply cords	1800	
13. lectric connection and mechanical security	2000	
14.echanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	2800	
16. Resistance to fire	2400	

Classification：Other audio-frequency electric amplifiers
No. 08-33-D

Test items	Test fee （NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6400	
5. Requirements of construction for protection from electric shock	2600	
6. Accessible hazards in normal operating condition	2600	
7. Requirements of insulation	5600	
8. Fault conditions	7200	
9. Mechanical strength	2800	
10. Clearance、creepage distances	4600	
11. Terminals	2400	
12. External flexible power supply cords	1800	
13. Electric connection and mechanical security	2400	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	3600	
16. Resistance to fire	3400	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Electric sound amplifier set

No. 08-33-E

Test items	Test fee（NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	2800	
6. Accessible hazards in normal operating condition	2800	
7. Requirements of insulation	5800	
8. Fault conditions	7600	
9. Mechanical strength	3000	
10. Clearance、creepage distances	4800	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4000	
16. Resistance to fire	3600	

Classification：Coin-or-disc operated record player

No. 08-33-F

Test items	Test fee（NT$）	Remark
1. Components(Charged -respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	3200	
6. Accessible hazards in normal operating condition	3200	
7. Requirements of insulation	5800	
8. Fault conditions	8600	
9. Mechanical strength	3800	
10. Clearance、creepage distances	4800	
11. Terminals	2600	
12. External flexible power supply cords	2200	
13. Electric connection and mechanical security	3600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4800	
16. Resistance to fire	3800	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Other record-player with loudspeakers
No. 08-33-G

Test items	Test fee （NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	7000	
5. Requirements of construction for protection from electric shock	2800	
6. Accessible hazards in normal operating condition	2800	
7. Requirements of insulation	5800	
8. Fault conditions	7800	
9. Mechanical strength	3000	
10. Clearance、creepage distances	5200	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	3100	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4600	
16. Resistance to fire	3900	

Classification：Turntables with automatic record-changing mechanism
No. 08-33-H

Test items	Test fee （NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	7000	
5. Requirements of construction for protection from electric shock	2800	
6. Accessible hazards in normal operating condition	2800	
7. Requirements of insulation	5800	
8. Fault conditions	7800	
9. Mechanical strength	3000	
10. Clearance、creepage distances	5200	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	3100	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4600	
16. Resistance to fire	3900	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Cassette player

No.08-33-I

Classification：Cassette player

No. 08-33-I

Test items	Test fee（NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	2800	
6. Accessible hazards in normal operating condition	2800	
7. Requirements of insulation	5800	
8. Fault conditions	7600	
9. Mechanical strength	3000	
10. Clearance、creepage distances	4800	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4000	
16. Resistance to fire	3600	

Classification：Audio disc player

No. 08-33-J

Test items	Test fee（NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	2800	
6. Accessible hazards in normal operating condition	2800	
7. Requirements of insulation	5800	
8. Fault conditions	7600	
9. Mechanical strength	3000	
10. Clearance、creepage distances	4800	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4000	
16. Resistance to fire	3600	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Optical audio disc player

No. 08-33-K

Test items	Test fee（NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	2800	
6. Accessible hazards in normal operating condition	2800	
7. Requirements of insulation	5800	
8. Fault conditions	7600	
9. Mechanical strength	3000	
10. Clearance、creepage distances	4800	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4000	
16. Resistance to fire	3600	

Classification：Other sound reproducing apparatus

No. 08-33-L

Test items	Test fee（NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	2800	
6. Accessible hazards in normal operating condition	2800	
7. Requirements of insulation	5800	
8. Fault conditions	7600	
9. Mechanical strength	3000	
10. Clearance、creepage distances	4800	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4000	
16. Resistance to fire	3600	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Digital audio type recorder/player
No. 08-33-M

Test items	Test fee （NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	2800	
6. Accessible hazards in normal operating condition	2800	
7. Requirements of insulation	5800	
8. Fault conditions	7600	
9. Mechanical strength	3000	
10. Clearance、creepage distances	4800	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4000	
16. Resistance to fire	3600	

Classification：Other cassette type recording apparatus
No. 08-33-N

Test items	Test fee （NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	2800	
6. Accessible hazards in normal operating condition	2800	
7. Requirements of insulation	5800	
8. Fault conditions	7600	
9. Mechanical strength	3000	
10. Clearance、creepage distances	4800	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4000	
16. Resistance to fire	3600	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Open-reel tape recorder
No. 08-33-O

Test items	Test fee（NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	2800	
6. Accessible hazards in normal operating condition	2800	
7. Requirements of insulation	5800

11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4000	
16. Resistance to fire	3600	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Other magnetic tape recorder

No. 08-33-Q

Test items	Test fee （NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	2800	
6. Accessible hazards in normal operating condition	2800	
7. Requirements of insulation	5800	
8. Fault conditions	7600	
9. Mechanical strength	3000	
10. Clearance、creepage distances	4800	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4000	
16. Resistance to fire	3600	

Classification：Other sound recording or reproducing apparatus

No. 08-33-R

Test items	Test fee （NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	2800	
6. Accessible hazards in normal operating condition	2800	
7. Requirements of insulation	5800	
8. Fault conditions	7600	
9. Mechanical strength	3000	
10. Clearance、creepage distances	4800	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4000	
16. Resistance to fire	3600	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Magnetic tape-type video tape recorder/player beyond professional specifications

No. 08-33-S

Test items	Test fee（NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	3200	
6. Accessible hazards in normal operating condition	3200	
7. Requirements of insulation	5800	
8. Fault conditions	7900	
9. Mechanical strength	3100	
10. Clearance、creepage distances	4800	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4000	
16. Resistance to fire	3600	

Classification：Radio-broadcast receivers

No. 08-33-T

Test items	Test fee（NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6800	
5. Requirements of construction for protection from electric shock	3200	
6. Accessible hazards in normal operating condition	3200	
7. Requirements of insulation	5800	
8. Fault conditions	7900	
9. Mechanical strength	3100	
10. Clearance、creepage distances	4800	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4000	
16. Resistance to fire	3600	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Monitor
No. 08-33-W

Test items	Test fee （NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1200	
3. Radiation hazards	2800	
4. Temperature rise measurements in nomal operating condition	6200	
5. Requirements of construction for protection from electric shock	3200	
6. Accessible hazards in normal operating condition	3200	
7. Requirements of insulation	5800	
8. Fault conditions	7900	
9. Mechanical strength	3100	
10. Clearance、creepage distances	4200	
11. Terminals	2600	
12. External flexible power supply cords	2000	
13. Electric connection and mechanical security	2600	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	3800	
16. Resistance to fire	3600	

Classification：Projector
No. 08-33-Y

Test items	Test fee （NT$）	Remark
1. Components(Charged respectively according to IEC standard)		
2. Marking & instructions	1500	
3. Radiation hazards	3400	
4. Temperature rise measurements in nomal operating condition	7300	
5. Requirements of construction for protection from electric shock	3600	
6. Accessible hazards in normal operating condition	3600	
7. Requirements of insulation	6300	
8. Fault conditions	8800	
9. Mechanical strength	3800	
10. Clearance、creepage distances	4900	
11. Terminals	3000	
12. External flexible power supply cords	2600	
13. Electric connection and mechanical security	3400	
14. Mechanical strength of CRT and resistance to implosion	5800	
15. Stability and mechanical hazards	4500	
16. Resistance to fire	4600

15.Magnetic field test	3000NTD/hr.	
16.Others	3500NTD/hr.	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Low-voltage switchgear（rental of lab/equipment）

No. 10-5

Test items	Test fee（NT$）	Remark
1.Short-Circuit Test Equipment(65kA or 25kA)	700/ Set-H	
2.Temperature-Rise & Over- Current Tripping Test Equipment (Temperature-rise & Over-current tripping & Instantaneous tripping & Heat cycling & 28-day test)	200/ Set-half-a-day	
3.Residual Current Operating Test Equipment	1200/ half-a-day	
4.Electrical Endurance Test Equipment (600% Over-load & Mechanical and electrical endurance Test & 1500A Test)	400/ set-half-a-day	

Classification：Lithium battery modules（rental of lab/equipment）

No. 10-6

Test items	Test fee（NT$）	Remark
1. Performance Test Equipment	2200/ half-a-day	
2. Electrical and Crush Test Equipment	4400/ half-a-day	
3. Mechanical Test Equipment	2400/ half-a-day	
4. Environmental Test Equipment	1600/ half-a-day	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Performance Testing of Major Household Appliances (rental of laboratory/equipment) – Use of Refrigerator Testing Laboratory Equipment

No. 10-7

Classification：Performance Testing of Major Household Appliances (rental of laboratory/equipment) – Use of Refrigerator Testing Laboratory Equipment

No. 10-7

Test items	Test fee （NT$）	Remark	Test items	Test fee （NT$）	Remark
1.Performance test equipment	130/hr				

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Other type tests

No. 11-1

Test items	Test fee（NT$）	Remark
1. Other chemical industrial product type tests	accord- ing to announc-ed test fees	
2. Other mechanical product type tests	accord- ing to announc- ed test fees	
3. Other product type tests	accord- ing to announc-ed test fees	

Classification：Technical authentication、audit、training or other technical services

No. 12-1

Test items	Test fee（NT$）	Remark
1. authentication work	Be extraly charged depending on conditions	1. Authenticatin work will be charged depending on manpower-da y、equipment and materials. 2. Course-related materials will be extraly charged for training. 3. Ability or comparison tests will be charged depending on manpower-da y、equipment and materials.
2. lab. audit、surveillance operation fees	8000/ per manpower per day	
3. training fees for general training courses	1500/ per manpower per day	
4. on-site or witness tests	8000/ per manpower per day	
5. ability or comparison test	extraly charged depending on conditions	
6. training fees for contracted training courses	extraly charged depending on conditions	
7. English test report fee	700/ per thousand words	1. Charge for CNS and foreign standards with English version will be reduced to a half. 2. Free of charge below 500(incl.) words; charged by 1000 words between 500 and 1500(incl.) words; charged by 2000 words between 1500 and 2000(incl.) words; similarly for others.

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Sample test class with the methods or equipment

No. 13-1

Test items	Test fee（NT$）	Remark
1.Induced Couple Plasma Atomic Emission Spectrometer First to the fourth element of each element	1800	
2.Induced Couple Plasma Atomic Emission Spectrometer Each element from the fifth element	500	
3.Spark Optical Emission Spectrometer First to the fourth element of each element	1800	
4.Spark Optical Emission Spectrometer Each element from the fifth element	500	
5.X-Ray Fluorescence Spectrometer First to the fourth element (component) of each element(component)	1800	
6 .X-Ray Fluorescence Spectrometer Each element (component) from the fifth element (component)	500	
7.Ion Chromatography First to the fourth component of each component	2000	
8.Ion Chromatography Each component from the fifth component	500	
9.Gas Chromatography First to the fourth component of each component	2000	
10.Gas Chromatography each component from the fifth component	500	
11.High performance liquid chromatography First to the fourth component of each component	2000	

Classification：Sample test class with the methods or equipment

No. 13-1

Test items	Test fee（NT$）	Remark
12.High performance liquid chromatography Each element from the fifth element	500	
13.Atomic absorption spectrometer First to the fourth element of each element	1800	
14.Atomic absorption spectrometer Each element from the fifth element	500	
15.Capillary Electrophoresis First to the fourth component of each component	2000	
16.Capillary Electrophoresis Each component from the fifth component	500	
17.Gas Chromatography-Mass Spectrophotometer First to the fourth component of each component	3000	
18.Gas Chromatography-Mass Spectrophotometer Each component from the fifth component	1000	
19.Liquid Chromatography - Mass Spectrophotometer First to the fourth component of each component	3000	
20.Liquid Chromatography - Mass Spectrophotometer Each component from the fifth component	1000	
21.Induced Couple Plasma Atomic Mass Spectrometer First to the fourth element of each element	2200	
22.Induced Couple Plasma Atomic Mass Spectrometer Each element from the fifth element	500	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Faucets
No. 14

Test items	Test fee（NT$）	Remark
1. Dissolution performance (full items)	64720	item
2. Material	1800	
3. Insulation performance tests：(1)Insulation resistance tests	740	
4. Insulation performance tests：(2)Moisture resistance and Insulation resistance tests	4000	
5. Insulation performance tests：(3)Electric strength tests	740	
6. Label	500	

Classification：Bags, Cases and Trunks
No. 16

Test items	Test fee（NT$）	Remark
1.Loading test	2000	
2.Expand and contract pull-handle functioning test	2000	
3.Walking test	5000	
4.Falling test	4200	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Test for children’s bedguards No.17

Test items	Test fee （NT$）	Remark
1. General construction	5000	
2. Detachable components	700	
3. Mesh strength test	650	
4. Security tests	3000	
5. Security and strength test of folding and locking mechanisms	1800	
6. Setting-up or folding away	1800	
7. Durability	3600	

Classification：Test for children’s bedguards No.17

Test items	Test fee （NT$）	Remark
8. Decals, labels and decorative effects	1000	Reference to No.05-3-10、05-3-16 and 05-3-17 for total prices
9. Marking	500	
10. Instructions for use	500	
11. Non-detachable componets	1400	
12. (deleted)		
13. Migration of the elements (8 elements)	14400	
14. Phthalate plasticizers (8 kinds)	16000	

Schedule of Fees for Commissioned Tests and Technical Services

Classification：Polymer test (rental of lab/equipment)
No. 19

Test items	Test fee （NT$）	Remark
1. The Pressurized Air Aging Test Equipment	90/hr	
2. The Expansion Resistance and Corrosion Resistance Test Equipment	30/hr	
3. Vertical-Side Reciprocating Impact Tester for Children's Cots	200/hr	

Classification：Polymer test (rental of lab/equipment)
No. 19

Test items	Test fee （NT$）	Remark
4. Side Reciprocating Impact Tester and Rattle Push-Pull Tester for Safety Barriers	1600/hr	
5. Children’s bedguards for Domestic Use Test Equipment	1300/hr	
6. Precision Instruments Room and Precision Instruments (Including Constant Temperature and Humidity Equipment and icp-ms)	840/hr
