NOTES FOR THE COMPLETION OF MODEL ANIMAL HEALTH CERTIFICATES, OFFICIAL CERTIFICATES AND ANIMAL HEALTH/OFFICIAL CERTIFICATES FOR MOVEMENTS OF ANIMALS AND PRODUCTS BETWEEN MEMBER STATES OR WITHIN THE UNION

General

To positively select any option, please tick or mark the relevant box with a cross (x).

Unless otherwise specified or established by Union legislation, all entries or boxes apply to the model animal health certificate, official certificate and animal health/official certificate in Chapter 1.

Paper copies of an electronic certificate shall bear a unique machine-readable optical label which hyperlinks to the electronic version.

Only one of the options may be selected in boxes I.18 and I.20.

Where a box allows one or more options to be selected, only the selected option(s) will be displayed in the electronic version of the certificate.

Where a box is not compulsory, its content shall be strike-through.

PART I – DESCRIPTION OF CONSIGNMENT

Box	Description
I.1	Consignor
	Indicate the name and address, country and ISO country code (1) of the natural or legal person dispatching the consignment.
I.2	IMSOC reference
	This is the unique alphanumeric code assigned by the IMSOC. Repeated in boxes II.a and III.2
I. 2a	Local reference
	Indicate the unique alphanumeric code the competent authority may assign. Repeated in boxes II.b and III.2a
1.3	Central competent authority
	Indicate the name of the central competent authority in the country issuing the certificate.
I.4	Local competent authority
	Indicate the name of the local competent authority in the country issuing the certificate.
1.5	Consignee
	Indicate the name and address, country and ISO country code of the natural or legal person to whom the consignment is intended in the country of destination.

1.6	Operator conducting assembly operations independently of an establishment
	Concerns operators conducting assembly operations for kept ungulates and poultry, independently of an establishment, as referred to in Article 90 of Regulation (EU) 2016/429 of the European Parliament and of the Council (²).
	Indicate the registration number and name of the registered operator.
I.7	Country of origin
	Indicate the name and ISO country code of the country from which the animals or products (germinal products, products of animal origin and animal by-products) originate.
I.8	Region of origin
	Where relevant, for the movement of animals or products that are affected by regionalisation measures in accordance with Union legis- lation, indicate the code of the approved regions or zones as indicated in the Official Journal of the European Union, or the name of compartments for aquatic animal diseases as listed on http://ec. europa.eu/food/animal/liveanimals/aquaculture/index_en.htm
I.9	Country of destination
	Indicate the name and ISO country code of the country to which the animals or products are destined.
I.10	Region of destination
	See box I.8
I.11	Place of dispatch
	Indicate the name and address, country and ISO country code of the establishment(s), or where relevant other place(s), from where the animals or the products come from. Where applicable, also indicate the registration or approval number of the establishment(s).
	For animals: indicate the establishment where animals are regularly kept or where they are assembled.
	For semen, oocytes or embryos intended for artificial reproduction: indicate as appropriate semen collection centre, embryo collection or production team, germinal product processing establishment, germinal product storage centre or confined establishment. In the case of semen of ovine and caprine animals, the place of dispatch may be the estab- lishment keeping donor animals.
	For other products: any unit of a company in the food or animal by-product sector. Only the establishment shipping the products is to be named.
I.12	Place of destination
	Indicate the name and address, country and ISO country code of the establishment, or where relevant another place, where animals or products are being delivered for final unloading. Where applicable, also indicate the registration or approval number of the establishment of destination.

Place of loading					
For animals only: indicate the name and address of the place where the animals are loaded in the means of transport, and in the case they are assembled beforehand, the name and address of the establishment approved for assembly operations and its approval number.					
For products: indicate the name, address and category (for example, establishment, port or airport) of the final place where the products are to be loaded in the means of transport.					
Date and time of departure					
Indicate the date and, when required, time, when animals or products are scheduled to leave the place of loading.					
Means of transport					
Select one or more of the following means of transport for animals or products leaving the country of dispatch, and indicate its (their) identi- fication(s):					
- aircraft (indicate the flight number);					
 vessel (indicate the vessel name and number. In the case of livestock vessels, indicate the unique number of the certificate of approval); 					
- railway (indicate the train identity and wagon number);					
 road vehicle (indicate the registration number plate with trailer number plate, if applicable. In the case of road vehicle used for long journeys, indicate also the unique number of the certificate of approval). 					
 other (means of transport other than those mentioned in point (n) of Article 2 of Council Regulation (EC) No 1/2005 (³)) 					
In the case of a ferry, tick 'vessel' and identify the road vehicle(s) with registration number (with trailer number, if applicable), in addition to the name and number of the scheduled ferry.					
Transporter					
This box applies only to animals and products where this is required by Union legislation.					
Indicate the name, address, country and ISO country code of the natural or legal person(s) in charge of the transport.					
Indicate the registration or authorisation number where applicable.					
Accompanying documents					
Indicate the type of document: for example CITES permit in accordance with Article 9 of Council Regulation (EC) No 338/ 97 (⁴), permit for invasive alien species (IAS) in accordance with Article 8(1) and (2) of Regulation (EU) No 1143/2014 of the European Parliament and of the Council (⁵), declarations or other documents including of a commercial nature.					
Indicate the unique code of accompanying documents and country of issue.					

	Commercial document references: indicate for example the airway bill number, the bill of lading number or the commercial number of the train or road vehicle.
	For products (products of animal origin and animal by-products): indicate the commercial document reference where this is required by Union legislation.
	For semen, oocytes or embryos intended for artificial reproduction dispatched from germinal product processing establishments and germinal products storage centres: indicate the reference of the initial official document(s) or certificate(s) that accompanied semen, oocytes and/or embryos of this consignment to those germinal product processing establishments and germinal products storage centres from:
	- the semen collection centre where the semen was collected and/or
	 the embryo collection or production team collecting or producing the oocytes or embryos, and/or
	 the germinal product processing establishment where semen, oocytes or embryos were processed and stored, and/or
	 the germinal product storage centre where the semen, oocytes or embryos were stored.
	For dogs, cats and ferrets, and where applicable for equidae: indicate the passport number.
	For animals of protected species: indicate the CITES permit number.
	For kept ungulates dispatched from an establishment approved for assembly operations: indicate the serial number(s) of the official document(s) and/or the certificate(s) based on which the certificate for this consignment is issued.
I.18	Transport conditions
	Indicate the category of required temperature during the transport of products (ambient, chilled, frozen).
1.19	products (ambient, chilled, frozen).
I.19	products (ambient, chilled, frozen). This box does not apply to animals.

Т

Organic fertilisers and soil improvers: concerns certain animal by-products or derived products as referred to in Regulation (EC) No 1069/2009 of the European Parliament and of the Council (⁶).

Technical use: animal by-products or derived products unfit for human or animal consumption, as referred to in Article 36 of Regulation (EC) No 1069/2009.

Exhibition: concerns animals intended for an exhibition and sporting, cultural or similar events in accordance with Union legislation.

Products for human consumption: concerns only products of animal origin intended for human consumption for which a certificate is required by Union legislation.

Further processing: concerns products that have to be further processed before being placed on the market as well as live aquatic animals and products of animal origin from aquatic animals other than live aquatic animals, which are destined for a disease control aquatic food establishment as defined in Article 4(52) of Regulation (EU) 2016/429.

Live aquatic animals for human consumption: aquatic animals intended for direct human consumption i.e. aquatic animals, which are delivered to the final consumer live or consumed live.

Confined establishment: as defined in Article 4(48) of Regulation (EU) 2016/429.

Quarantine or similar establishment: as provided for in Article 14 of Commission Delegated Regulation (EU) 2019/2035 (⁷) as regards terrestrial animals and in Article 15 or Article 16 of Commission Delegated Regulation (EU) 2020/691 (⁸) as regards aquaculture animals.

Travelling circus/Animal acts: as defined in respectively Article 2(34) and (35) of Delegated Regulation (EU) 2019/2035.

Release into the wild: concerns only live animals, which are to be released into the wild at the place of destination.

Registered equine animal: as defined in Article 2(30) of Delegated Regulation (EU) 2019/2035.

Further keeping: animals intended for establishments keeping live animals including for research purposes or for pet keepers, unless a more specific purpose or category from I.20 applies to them (e.g. quarantine, confined establishments etc.). It also includes animals, which are intended to restock game supplies or to be released into the wild, if those are intended to pass through an establishment before being released.

Purification centre: as defined in Article 2(2) of Delegated Regulation (EU) 2020/691.

Dispatch centre: as defined in Article 2(3) of Delegated Regulation (EU) 2020/691.

Relaying area: as defined in Article 2(4) of Delegated Regulation (EU) 2020/691.

Ornamental aquaculture establishment: as provided for in Article 17 or Article 18 of Delegated Regulation (EU) 2020/691.

Slaughter: for animals destined for a slaughterhouse, either directly or via an establishment approved for assembly operations.

	Germinal products: as defined in Article 4(28) of Regulation (EU) 2016/429.
	Event or activity near borders: concerns movements of kept terrestrial animals between Member States in accordance with Article 139 of Regulation (EU) 2016/429 where such movements are for:
	- recreational use near borders;
	 exhibitions, and sporting, cultural and similar events organised near borders;
	 grazing of kept terrestrial animals in grazing areas shared between Member States;
	- work done by kept terrestrial animals near borders of Member States.
	Other: intended for purposes not listed elsewhere in this classification, including aquatic animals intended for fishing baits.
I.21	For transit through a third country
	Indicate the name and ISO country code of the transited third country in the case of road transport.
	Select the border control post of exit or indicate the name of the local authority of the place in which the exit point is situated.
	Select the border control post of entry into the Union.
I.22	For transit through Member States
	Indicate the name and ISO country code of the transited Member State(s) in the case of road transport.
I.23	For export
	Indicate the name and ISO country code of the third country of desti- nation and select the border control post of exit or indicate the name of the local authority of the place in which the exit point is situated.
I.24	Estimated journey time
	This box only applies to animals falling within the scope of Regulation (EC) No $1/2005$ and refers to the expected duration of the intended journey declared by the transporter in the transport documentation in accordance with Article $4(1)(e)$ thereof.
	The information entered in this box shall correspond to the total expected duration declared in Section 1 of the planning of the journey log set out in Annex II to that Regulation, in the case of domestic equidae other than registered equidae and domestic animals of bovine, ovine, caprine and porcine species subject to long journeys between Member States and with third countries (as defined in

1.25	Journey log
	This box only applies to domestic equidae other than registered equidae and domestic animals of bovine, ovine, caprine and porcine species subject to long journeys between Member States and with third countries, as defined in point (m) of Article 2 of Regulation (EC) No 1/2005.
	By ticking 'yes', the IMSOC will automatically generate the journey log to be completed and submitted by the organizer of the journey in accordance with Annex II to that Regulation.
I.26	Total number of packages
	Indicate the total number and type of packages in the consignment, where appropriate.
	For animals: the number of boxes, cages, containers, tanks, hives or stalls, in which the animals are being transported.
	For semen, oocytes and embryos intended for artificial reproductions the number of containers.
	For products: the number of packages.
	In the case of bulk consignments, this box is optional.
1.27	Total quantity
	For terrestrial animals or germinal products: indicate as appropriate the total number of heads, hatching eggs or straws expressed as units.
	For aquatic animals: indicate as appropriate, the total number of animals, eggs or larvae expressed as units.
I.28	Total net weight/gross weight (kg)
	The total net weight is the mass of the animals or goods themselves, without immediate containers or any packaging. It is automatically calculated by the IMSOC on the basis of the information entered in box I.30.
	The declared net weight of glazed food shall be exclusive of the glaze.
	Indicate the total gross weight, i.e. the aggregate mass of the animals or goods, plus immediate containers and all their packaging, but excluding transport containers and other transport equipment.
I.29	Total space foreseen for the consignment (in m ²)
	This box applies only to animals falling within the scope of Regulation (EC) No 1/2005.
	Space allowances during transport shall at least comply with the figures laid down, in respect of the animals and the means of transport referred to, in Chapter VII of Annex I to Regulation (EC) No 1/2005.
	The information entered in this box shall correspond to the total space foreseen for the consignment declared in Section 1 of the planning of the journey log set out in Annex II to Regulation (EC) No 1/2005, in the case of domestic equidae other than registered equidae and domestic animals of bovine, ovine, caprine and porcine species subject to long journeys between Member States and with third countries (as defined in point (m) of Article 2 of that Regulation).

I.30 Description of consignment

State any specific requirements relating to the animals or to the nature/ processing of the products as defined in the relevant Union legislation.
For animals: indicate the species, category, identification method, identification number, age, sex, quantity or net weight, and test. For honeybees and bumble bees, indicate either of the following: queens with maximum 20 attendants, colonies with brood or other. For aquatic animals, indicate the number, volume or net weight, as appropriate to their life stage.
For semen, oocytes or embryos intended for artificial reproduction: indicate
 the type (semen, <i>in vivo</i> derived embryos, <i>in vivo</i> derived oocytes, <i>in vitro</i> produced embryos or micro manipulated embryos);
- the collection or production date;
— the approval number of the establishment of collection or production (semen collection centre, embryo collection or production team, germinal product processing establishment, germinal product storage centre or confined establishment). In the case of semen of ovine and caprine animals collected at their establishment of origin, indicate the registration number of that establishment;
- identification mark on the straw or other package;
— the quantity;
 the species, the subspecies (for animals from confined estab- lishments, if needed) and identification number of the donor animal(s).
For products: indicate the species, types of products, type of treatment, approval or registration number of establishments together with ISO country code (slaughterhouse, processing plant, cold store, collection centre), number of packages, type of packaging, batch number, net weight.
Species: indicate the scientific name or as defined in accordance with Union legislation.
Type of packaging: identify the type of packaging according to the definition given in Recommendation No 21 (⁹) of UN/CEFACT (United Nations Centre for Trade Facilitation and Electronic Business).

PART II – CERTIFICATION

Box	Description
	European Union
	This box refers to the issuing countries.
	Certificate model
	This box refers to the specific title of each model of certificate.

II.	Health information		
	This box refers to the specific Union health requirements applicable to the animal species or to the nature of the products moved between Member States or within the Union.		
II.a	IMSOC reference		
	This is the unique alphanumeric code indicated in box I.2.		
II.b	Local reference		
	This is the unique alphanumeric code indicated in box I.2a.

I.21	For transit
	Tick this box for the transit of animals or products through the European Union from one third country to another third country or from one part of a third country to another part of the same third country.
	Indicate the name and ISO country code of the third country of destination.
I.22	For internal market
	Tick this box where consignments are intended to be placed on the Union market.
1.23	For re-entry
	Tick this box in the case of registered equine animals intended for competition or races, or invited for specific cultural events, and auth- orised for re-entering the European Union after their temporary export.

I.24	Total number of packages				
	Indicate the total number of packages in the consignment, where appropriate:				
	For animals: indicate the number of boxes, cages, containers, hives or stalls, in which the animals are being transported.				
	For semen, oocytes and embryos intended for artificial reproduction: indicate the number of containers.				
	In the case of bulk consignments, this box is optional.				
1.25	Total quantity				
	For terrestrial animals or germinal products: indicate as appropriate the total number of heads, hatching eggs or straws expressed as units.				
	For aquatic animals: indicate as appropriate, the total number of animals, eggs or larvae expressed as units.				
1.26	Total net weight/gross weight (kg)				
	The total net weight is the mass of the animals or goods themselves, without immediate containers or any packaging. It is automatically calculated by the IMSOC on the basis of the information entered in box I.27. The declared net weight of glazed food shall be exclusive of the glaze.				
	Indicate the total gross weight, i.e. the aggregate mass of the animals or goods, plus immediate containers and all their packaging, but excluding transport containers and other transport equipment.				
1.27	Description of consignment				
	Indicate the relevant Harmonised System (HS) code and the title defined by the World Customs Organisation as referred to in Council Regulation (EEC) No 2658/87 (⁸). This customs description shall be supplemented, if necessary, by additional information required to classify the animals or the products in veterinary terms. In addition, state any specific requirements relating to the animals or to the nature/ processing of the products as defined in the relevant Union legislation.				
	For animals: indicate the species, category, identification method, identification number, age, sex, quantity or net weight, and test. For honeybees and bumble bees, indicate either of the following: queens with maximum 20 attendants, colonies with brood or other.				
	For semen, oocytes or embryos intended for artificial reproduction: indicate				
	 the type (semen, <i>in vivo</i> derived embryos, <i>in vivo</i> derived oocytes, <i>in vitro</i> produced embryos or micromanipulated embryos); 				
	— the collection or production date;				
	 the approval number of the establishment of collection or production (semen collection centre, embryo collection or production team, germinal product processing establishment, germinal product storage centre or confined establishment); 				

- the identification mark on the straw or other package;

— the quantity;

 the species, the subspecies (for animals from confined establishments, if needed) and identification number of the donor animal(s).

For products: indicate the species, type of products, type of treatment, identification mark and approval number of establishments when applicable together with ISO country code (such as slaughterhouse, processing plant, cold store), number of packages, type of packaging, batch number, net weight and the (oldest) date of collection/ production. Tick 'final consumer' where products are packaged for final consumers.

For animal by-products or derived products: indicate the species, type of products, type of treatment, approval or registration number of the manufacturing or production establishment together with ISO country code, number of packages, type of packaging, batch number, net weight.

Species: indicate the scientific name or as defined in accordance with Union legislation.

Type of packaging: identify the type of packaging according to the definition given in Recommendation No 21 (21) of UN/CEFACT (United Nations Centre for Trade Facilitation and Electronic Business).
