TAIWAN COMMODITY INSPECTION SCHEMES

1 PREFACE

This information booklet serves as a guide to the definitions (Appendix A) and scope of Regulated commodities and other requirements related to the Taiwan Commodity Inspection Schemes (hereafter referred to as the TCI Schemes).

The TCI Schemes for electrical and electronic products in this booklet includes two schemes, namely: registration of product certification, and declaration of conformity. The TCI Schemes can be found at the website www.bsmi.gov.tw.

The Competent Authority reserves the right to amend and introduce new requirements to the aforementioned schemes without reference to the holder of this booklet and encourages feedback from readers to ensure that improvements to this booklet could be made from time to time.

Our address is:

Bureau of Standards, Metrology and Inspection (BSMI)
No. 4, Sec. 1, Jinan Rd.,
Taipei 10051
Taiwan, Republic of China

Telephone: 886 2 2343-1700
Facsimile: 886 2 2393-2324
Website: <http://www.bsmi.gov.tw>

The Competent Authority also conducts training course for manufacturers, suppliers and consumers of regulated commodities, even conformity assessment bodies in Taiwan. The training is for them to familiarise with the TCI Schemes and the requirements. Anyone who is interested in attending the course can register with the Competent Authority via telephone, facsimile or website. The Competent Authority will consolidate all requests and inform them of the course date.

TAIWAN COMMODITY INSPECTION SCHEMES

2 INTRODUCTION

The Taiwan Commodity Inspection Schemes (TCI Schemes) are administered by BSMI as the Competent Authority by Ministry of Economic Affairs (MOEA) under the Commodity Inspection Act. In order to protect the rights and interests of consumers and to facilitate economic activities, agricultural, industrial and mining commodities domestically produced or to be imported must comply with inspection requirements before they are shipped out of the manufacturing premises, are imported or placed on the market. Inspection of Electrical and Electronic (EE) commodities is conducted according to three Schemes, namely: batch-by-batch inspection, registration of product certification, and declaration of conformity.

Instead of going through the complicated and time-consuming batch-by-batch inspection procedures, the local suppliers are encouraged to adopt the registration of product certification (RPC) scheme in this Booklet. Regarding the registration of product certification scheme (Appendix B), all regulated commodities for entering into Taiwan market must first be registered with the Competent Authority as Registered regulated commodities.

One of the roles of the Competent Authority under the Act is to ensure compliance by industry on the registration of **252** categories of announced Electrical and Electronic Equipment (EEE). The definitions and applicable standards of the regulated commodities are provided in Appendix C-1 and Appendix C-2.

Local Suppliers are required to register each model of regulated commodities with the Competent Authority. Registration of regulated commodities under the Commodity Inspection Act and the related Regulations is based on Certificate of RPC Scheme issued by designated / recognized third party Conformity Assessment Bodies (**CABs**) or on Type-test report issued by designated / recognized testing laboratories.

We would like to draw your attention to **Article 60** of the Commodity Inspection Act, where it is stipulated that no commodity subject to inspection shall be released from the production premises, nor be exported or imported, if it does not conform to the inspection requirements. Under having violated the above circumstance, the obligatory inspection applicant of a commodity subject to inspection **shall be imposed with a fine in an amount of not less than New Taiwan Dollar Two Hundred Thousand (NTD 200,000), but not more than New Taiwan Dollar Two Million (NTD 2,000,000).**

TAIWAN COMMODITY INSPECTION SCHEMES

3 WHO SHOULD BE CONCERNED WITH THESE SCHEMES

Consumers

To safeguard consumers' interest, consumers are strongly advised to purchase regulated commodities that are certified / registered with the Competent Authority and are affixed with the Commodity Inspection Mark. Registered regulated commodities met the specified requirements help to prevent hazards that could result in injuries or deaths to humans and/or damages to private properties.

To assist in identifying the registered regulated commodities, consumers can use the website http://civil.bsmi.gov.tw/bsmi_pqn/index.jsp (in Chinese) to guide them when making purchases.

Suppliers

Manufacturers, importers (including parallel importers), agencies, retailers and traders who are involved in supplying the regulated commodities must ensure that their obligations under the Commodity Inspection Act and the related regulations are fulfilled.

This Information Booklet is to assist suppliers in understanding the requirements and procedures when they apply for registration of regulated commodities. The Competent Authority will only accept applications from **Local Suppliers**.

TAIWAN COMMODITY INSPECTION SCHEMES

5 COMPETENT AUTHORITY'S REQUIREMENTS

The Competent Authority monitors the safety of the regulated commodities sold in Taiwan by investigating all complaints, incidents and accidents reported to the authority. However, the technical division of the Competent Authority has held a technical meeting monthly. They also require the designated / recognized testing laboratories to follow the requirements concluded by the meetings. The minutes in Chinese could be found at the web site <http://www.bsmi.gov.tw/wSite/lp?ctNode=4134&CtUnit=330&BaseDSD=7&mp=1>. The Competent Authority will, as soon as possible, complete the English translation of the parts necessary for conducting the certification procedures in the foreign lands.

Experiences and meeting conclusions gained are translated into the Competent Authority's Requirements. These requirements that have been issued, but not only, as the following items are to be fulfilled in addition to the applicable standards.

No	Items	Requirements
Applicable to all products		
1	Test certificate / Test report	Test certificate / Test report more than three (3) years old shall be rejected.
Applicable to all electrical and electronic equipment		
2	All appliances	All appliances must be tested to 110 / 220 VAC, 60 Hz.
3	All regulated Information Technology Equipment (ITE), multimedia equipment (which is tested as ITE) and similar products (HS: Chapter 84 & 85)	All specified appliances must perform the measurement of radiated disturbance above 1GHz, and conduct the disturbance at telecommunication ports of CNS 13438.

In addition, Competent Authority requires that the national differences for 10 IEC 60335 part 2 standards must be adopted from August 14, 2014.

No	IEC standards	Contents of national differences
1	IEC 60335-2-2	Subclause 25.7: Equivalent supply cords that comply with CNS 3199, CNS 546, CNS 6556 or CNS 10741 are allowed.
2	IEC 60335-2-4	Clause 6: Class 0I is allowed for appliances having a rated voltage not exceeding 130V.
3	IEC 60335-2-5	- Clause 6: Class 0I is allowed for appliances having a rated voltage not exceeding 130V. - Subclause 23.101: Equivalent supply cords that comply with CNS 3199 or CNS 6556 are allowed.
4	IEC 60335-2-6	Clause 6: Class 0I is allowed for appliances having a rated voltage not exceeding 130V.

TAIWAN COMMODITY INSPECTION SCHEMES

5 COMPETENT AUTHORITY'S REQUIREMENTS

No	IEC standards	Contents of national differences
5	IEC 60335-2-7	Clause 6: Class 0I is allowed for appliances having a rated voltage not exceeding 130V.
6	IEC 60335-2-9	<ul style="list-style-type: none"> - Subclause 25.1: Appliance couplers complying with CNS 6797 are allowed. - Subclause 25.7: Chloroprene-sheathed cable cords complying with CNS 546 are allowed.
7	IEC 60335-2-15	Clause 6: Drinking water dispensers shall be at least IPX1 (water resistance).
8	IEC 60335-2-24	Subclause 25.7: Equivalent supply cords that comply with CNS 3199, CNS 546, CNS 6556 or CNS 10741 are allowed.
9	IEC 60335-2-25	Clause 6: Class 0I is allowed for appliances having a rated voltage not exceeding 130V.
10	IEC 60335-2-55	Subclause 25.7: Chloroprene-sheathed cable cords complying with CNS 546 are allowed.

TAIWAN COMMODITY INSPECTION SCHEMES

6 REGISTRATION OF REGULATED COMMODITIES

The commodity approval processes under RPC Scheme

When the **parties (local or foreign)** decide to supply the regulated commodities subject to the RPC Scheme, they shall submit them to a **Designated Testing Laboratories (Local or Foreign)** or **Recognized Testing Laboratories (MRA)** (Appendix P & R) for type-testing. After the regulated commodities have been successfully type-tested, the Designated Testing Laboratories (Local or Foreign) or Recognized Testing Laboratories (MRA) shall issue **Test Reports** to the parties.

The Local Suppliers shall submit the reports and the specified documents to a **Designated Commodity Certification Bodies** (Appendix O) for certification. The Designated Commodity Certification Bodies shall, upon receipt of the applications, issue **identification numbers** to the Applicants to assist them in preparation of the Commodity Inspection Mark. After the regulated commodities have been successfully certified, the Designated Commodity Certification Bodies shall issue **Certificates of Registration of Product Certification (RPC)** (Appendix I-1) to the Applicants.

The Competent Authority shall then register the certified regulated commodities in their Database. Accordingly, the Local Suppliers can affix the **Commodity Inspection Mark** (Chapter 10) on the registered regulated commodities and commence supply.

The Designated Commodity Certification Bodies shall certify the regulated commodities without re-testing unless the test reports are found not to be in full compliance to the requirements specified in this booklet.

In cases where there are modifications to the registered regulated commodities, the Local Suppliers are required to inform the Designated Commodity Certification Bodies depending on the type of modifications described in Chapter 9.

The Local Suppliers are required to maintain a technical file on the registered regulated commodities as specified in Chapter 11. A flow-chart for registration of regulated commodities is found in Appendix D. To register the certified regulated commodities, the Local Suppliers shall submit the following to the Designated Commodity Certification Body:

- a) The application forms and specified documents (Chapter 11).
 - Application Form for the Registration of Product Certification (Appendix H-2), and
 - List of Factories which produce the Regulated commodities under RPC Scheme (Appendix H-3).
- b) The registration fee per model made payable to Designated Commodity Certification Body.
- c) List of Attachments to the Application for Registration of Product Certification (Appendix H-1). That includes:
 - The conformity assessment document indicated in the list, and
 - Declaration of Conformity to Type (Appendix H-2).

The commodity approval processes under MRA

When the **foreign parties** decide to supply the regulated commodities subject to the RPC Scheme, they shall submit them to a **Designated Testing Laboratories (Local or Foreign)** or **Recognized Testing Laboratories (MRA)** (Appendix P & R) for type-testing. After the regulated commodities have been successfully type-tested, the Designated Testing Laboratories (Local or Foreign) or Recognized Testing Laboratories (MRA) shall issue **Test Reports** to the Applicants.

TAIWAN COMMODITY INSPECTION SCHEMES

6 REGISTRATION OF REGULATED COMMODITIES

The Applicants may submit the reports and the specified documents to a **Recognized Commodity Certification Bodies (MRA)** (Appendix Q) for certification. After the regulated commodities have been successfully certified, the Recognized Commodity Certification Bodies (MRA) shall issue **Certificates of Conformity** to the Applicants. The text of certificate shall include all items in the Certificate of RPC (Appendix I-1). The Recognized Commodity Certification Bodies (MRA) shall also certify the regulated commodities without re-testing unless the test reports are found not to be in full compliance to the requirements specified in this booklet.

The Local Suppliers can then submit the Certificates to the Competent Authority to apply for Certificate of RPC and register the certified regulated commodities in the Database. The Competent Authority shall, upon receipt of the Certificates, issue **Certificates of RPC** and **identification numbers** to the Local Suppliers. Accordingly, the Local Suppliers can then affix the **Commodity Inspection Mark** (Chapter 10) on the registered regulated commodities and commence supply.

In accordance with the Commodity Inspection Act and the related Regulations, registration with Certificates from a Designated Commodity Certification Bodies as well as registration with Certificates from a Recognized Commodity Certification Bodies (MRA) will be automatic and effected immediately. However, additional requirements may be imposed under the terms and conditions of a particular MRA.

In cases where there are modifications to the registered regulated commodities, the Applicants and Local Suppliers are required to inform the Recognized Commodity Certification Bodies (MRA) and the Competent Authority depending on the type of modifications described in Chapter 9.

The Local Suppliers are required to maintain a technical file on the registered regulated commodities as specified in Chapter 11. A flow-chart for registration of regulated commodities is found in Appendix E. To register the certified regulated commodities, the Local Suppliers shall submit the following to the Competent Authority:

- a) The application forms:
 - Application Form for the Registration of Product Certification (Appendix H-2), and
 - List of Factories which produce the Regulated commodities under RPC Scheme (Appendix H-3).
- b) The registration fee per model made payable to “Bureau of Standards, Metrology and Inspection”.
- c) The Certificate issued by the Recognized Commodity Certification Bodies (MRA).
- d) List of Attachments to the Application for Registration of Product Certification (Appendix H-1). That includes:
 - Declaration of Conformity to Type (Appendix H-4).

TAIWAN COMMODITY INSPECTION SCHEMES

7 CERTIFICATE OF RPC

The **Certificate of Registration of Product Certification (RPC)** is valid for **three (3) years**. Local Suppliers who wish to continue supplying their registered regulated commodities beyond three (3) years shall approach the Designated Commodity Certification Bodies or Recognized Commodity Certification Bodies (MRA) for re-certification before their Certificates expire regardless of whether there are changes to the registered regulated commodities or not (please refer to **6. REGISTRATION OF REGULATED COMMODITIES**) . The Local Suppliers shall submit the new Certificates to the Competent Authority for renewal of the registered regulated commodities. A flow-chart for renewal of registered regulated commodities is found in Appendix G.

Local Suppliers who own Certificates without registering with the Competent Authority are not allowed to supply the certified regulated commodities to the domestic market as their commodities will be deemed as '**non-registered regulated commodities**'. Any suppliers who supply non-registered regulated commodities shall be imposed with a fine under **Article 60 of the Commodity Inspection Act**.

To renew the registered regulated commodities, the Local Suppliers shall submit the following to the Designated Commodity Certification Bodies or the Competent Authority:

- a) Non-refundable renewal fee per model made payable to Designated Commodity Certification Body or "Bureau of Standards, Metrology and Inspection".
- b) In case of the new Certificate issued by the Recognized Commodity Certification Bodies (MRA), the new Certificate is necessary for applying to Competent Authority for registration.

TAIWAN COMMODITY INSPECTION SCHEMES

8 DOC OF REGULATED COMMODITIES

The regulated commodities under DoC Scheme

When the parties decide to supply the regulated commodities subject to the DoC Scheme, they shall submit them to a **Designated Testing Laboratories (Local or Foreign)** or **Recognized Testing Laboratories (MRA)** (Appendix P & R) for type-testing. After the regulated commodities have been successfully type-tested, the Designated Testing Laboratories (Local or Foreign) or Recognized Testing Laboratories (MRA) shall issue **Test Reports** to the Applicants.

The Local Suppliers shall submit the applications to the Competent Authority to register themselves. The Competent Authority shall, upon receipt of the applications, issue **identification numbers** which shall be born with the Commodity Inspection Mark to the Local Suppliers. Accordingly, the Local Suppliers can then affix the **Commodity Inspection Mark** (Chapter 10) on the registered regulated commodities and commence supply.

The Local Suppliers are required to maintain a technical file on the registered regulated commodities as specified in Chapter 11. A flow-chart for registration of regulated commodities is found in Appendix F.

In cases where there are modifications to the registered regulated commodities, the Local Suppliers are required to inform the Designated Testing Laboratories (Local or Foreign) or Recognized Testing Laboratories (MRA), or the Competent Authority depending on the type of modifications described in Chapter 9.

To complete the inspection requirements of the type-tested regulated commodities, the Local Suppliers shall declare the conformity and maintain the **Declaration of Conformity** (Appendix K-1). To apply for the supplier identification number, the Local Supplier shall submit the following to the Competent Authority:

- a) The **Application Form for the Identification Number for Declaration of Conformity** (Appendix L).
- b) The registration fee made payable to “Bureau of Standards, Metrology and Inspection”.

TAIWAN COMMODITY INSPECTION SCHEMES

9 MODIFICATION TO REGISTERED REGULATED COMMODITIES

Modification (including technical and non-technical changes) refers to any change made to the registered regulated commodities. Non-technical changes are (i) color change; (ii) change relating only to factory location but without change in the manufacturing process (including testing facilities) or a change of the manufacturer; and (iii) change in the year of production.

The Local Suppliers may approach the Competent Authority to determine whether re-certification of the registered regulated commodities is required as a result of modification.

The Local Suppliers shall update their technical file on the registered regulated commodities with details of the change.

In a case where there is modification to the registered regulated commodities, the following **scenarios** shall apply:

- a) If the modification results in a change in the model number whether or not the change is a technical one:
 - i) The regulated commodities have to be re-registered (registration of serial commodity) with the Designated Commodity Certification Bodies or the Competent Authority as per procedure indicated in Chapter 6.
 - ii) The regulated commodities have to be re-certified with the Designated Commodity Certification Bodies or Recognized Commodity Certification Bodies (MRA) as per procedure indicated in Chapter 6.
 - iii) A new Certificate bearing a new serial number in addition to the original certification number is required.
 - iv) The Local Supplier needs to add relevant documents to the original technical file.
- b) If the modification does not result in a change in the model number but the change is a technical one or the registered information as listed in the certificate of RPC is affected, provided the basic design remains the same:
 - i) The Local Supplier shall submit test report and relevant documents to the Designated Commodity Certification Bodies or the Competent Authority to apply for permission.
 - ii) In case of the new Certificate issued by the Recognized Commodity Certification Bodies (MRA), the new Certificate is necessary for applying to Competent Authority for permission.
- c) If the modification does not result in a change in the model number and the change is a non-technical one, which does not affect registered information as listed in the certificate of RPC and the safety, EMC or other regulated aspects of the regulated commodities:
 - i) The regulated commodities do not have to be re-registered with the Competent Authority.
 - ii) The regulated commodities do not have to be re-certified with the Designated Commodity Certification Bodies or Recognized Commodity Certification Bodies (MRA).
 - iii) The Local Supplier only needs to update the technical file with the modification, e.g. merely change(s) in the aesthetics that does (do) not affect the safety, EMC or other regulated aspects of the regulated commodities.

TAIWAN COMMODITY INSPECTION SCHEMES

9 MODIFICATION TO REGISTERED REGULATED COMMODITIES

- iv) The Local Supplier shall be responsible for ensuring that the modification does not compromise the safety, EMC or other regulated aspects of the regulated commodities.

For DoC Scheme, in case the regulated commodity is modified technically, the Local Supplier shall execute and issue a new declaration to ensure the conformity as per procedures indicated in Chapter 8.

10 COMMODITY INSPECTION MARK

Objective and rationale

Marking of registered regulated commodities will enable consumers to differentiate between the registered and non-registered regulated commodities and to participate in the enforcement. It also serves as a deterrent and a means to check for non-registered regulated commodities in the market. For industrial products announced in accordance with the Commodity Inspection Act to be subject to mandatory inspection, after inspection, commodities shall have the commodity inspection marks affixed to them. Below is the pattern of the commodity inspection marks:

Applicable to general commodities that are subject to Batch-by-Batch Inspection and Monitoring.

Authorized by the Competent Authority that can be printed by the manufacturer in accordance with relevant regulations.

R30001

For commodities subject to Registration of Product Certification Scheme, e.g. electrical appliances, fire equipment, electronics, information technology equipment, construction products, gas appliances, baby products, electrically operated hand tools, personnel protective equipment, etc.

D30001

For commodities subject to Declaration of Conformity Scheme, e.g. computer products, mainboards, inserts cards, etc.

T30001

For commodities subject to type-approved Batch Inspection, e.g. gas canisters, cigarette lighters, etc.

Q30001

For commodities subject to registration of management systems under the Monitoring Inspection Scheme, e.g. cement, fire-resistant coating, etc.

M30001

Authorized to be printed by manufacturers under the Monitoring Inspection Scheme, e.g. toys.

TAIWAN COMMODITY INSPECTION SCHEMES

10 COMMODITY INSPECTION MARK

Marking

All regulated commodities must bear the Commodity Inspection Mark before they can be supplied to the Taiwan market. Local Suppliers are responsible for ensuring that their regulated commodities are affixed with the Commodity Inspection Mark in accordance to the regulations stipulated by the Competent Authority as provided for in Appendices M & N. The Competent Authority will conduct spot-checks on manufacturers' / importers' / traders' warehouses when it is deemed necessary.

Where to apply the Commodity Inspection Mark

The Commodity Inspection Mark in general shall be affixed on the regulated commodities. In case the regulated commodity is too small to bear the mark, it shall be affixed in accordance with Article 9 of the "Regulations Governing the Use of Commodity Inspection" (Appendix N)

For RPC Scheme

Certification Number for RPC Scheme

The Certificate of the Registration of Product Certification is numbered in fourteen digits. (The certificate number will be identical to the application number in the application form.) One example for coding of the certificate number is shown below:

CI 3 A 1 06 001 001 7
(a) (b) (c) (d) (e) (f) (g) (h)

Code (a): official electronic document exchanging code agreed by the customs.

Code (b): Jurisdiction area code, 3 representing the Sixth Division, 1 representing Hualien Branch Office, 2 representing Keelung Branch Office, 4 representing Hsinchu Branch Office, 5 representing Taichung Branch Office, 6 representing Tainan Branch Office, and 7 representing Kaohsiung Branch Office.

Code (b) (c) (f): applicant identification code.

Code (d): the year of 2002

Code (e): 06 represents products certified and registered under the revised Regulations Governing Registration of Product Certification, promulgated on December 5, 2001. (Note: In the agreement with the Customs on the transmission of EDI information, code 01 represents products or commodities exempted from import inspection; code 02 represents domestically-manufactured products transported back to Taiwan after they are exported; and code 03 represents products certified and registered under the Registration of Product Certification Scheme prior to the revision.). Certificates issued to products certified by recognized certification bodies shall be given the code "16, 26, 36 etc." depending on the code assigned to each certification body respectively by the BSMI.

S6 representing products certified under SPRING-BSMI EEMRA and registered under the revised Regulations Governing Registration of Product Certification.

N6 representing products certified under New Zealand-Taiwan EEMRA and registered under the revised Regulations Governing Registration of Product Certification.

J6 representing products certified under Japan-Taiwan EEMRA and registered under the revised Regulations Governing Registration of Product Certification.

TAIWAN COMMODITY INSPECTION SCHEMES

Code (g): Product type code. -

Code (h): Customs check code.

10 COMMODITY INSPECTION MARK

Identification number of product certification for RPC Scheme

Identification number of product certification is made in 6 digits, a combination of the alphabet R and the codes (b), (c), (f) of the certificate number. One example of the identification number is shown below:

R 3 A 001
(b) (c) (f)

As for those commodities subject to marking requirements stipulated in CNS 15663, Section 5 "Marking of presence" under the RPC Scheme, the identification number of which shall be included "the presence conditions of the restricted substance" (i.e., RoHS or RoHS(XX,XX)).

Examples of the Commodity Inspection Mark for RPC Scheme are shown as follows:

"RoHS" of the identification number: indicating that "the content of restricted substance(s) other than exemption" of the commodities does not exceed the reference percentage value of presence condition.

"RoHS(XX,XX)" of the identification number: indicating that "the content of restricted substance(s) (element XX, element XX, ...) other than exemption" of the commodities exceeds the reference percentage value of presence condition.

The restricted substances: indicating Pb, Cd, Hg, Cr+6, PBB, PBDE.

Examples:

RoHS(Pb): indicating that the Pb percentage content in certain parts of the commodity exceeds the reference percentage value of presence condition.

RoHS(Cd,Cr+6,PBB): indicating that the Cd, Cr+6, and PBB percentage content in certain parts of the commodity exceed the reference percentage value of presence condition respectively.

TAIWAN COMMODITY INSPECTION SCHEMES

10 COMMODITY INSPECTION MARK

Identification number of supplier for DoC Scheme

Identification number of supplier is made in 6 digits, a combination of the alphabet D and the codes (a), (b) of the assigned number. One example of the registration number is shown below:

D 3 A001
(a) (b)

Code (a): Jurisdiction area code, 3 representing the Sixth Division, 1 representing Hualien Branch Office, 2 representing Keelung Branch Office, 4 representing Hsinchu Branch Office, 5 representing Taichung Branch Office, 6 representing Tainan Branch Office, and 7 representing Kaohsiung Branch Office.

Code (b): Serial Number

Codes (a) and (b) will be identical to the applicant designation code issued to the same supplier under the RPC Scheme.

As for those commodities subject to marking requirements stipulated in CNS 15663, Section 5 "Marking of presence" under the DoC Scheme, the identification number of which shall be included "the presence conditions of the restricted substance" (i.e., RoHS or RoHS(XX,XX)).

Examples of the Commodity Inspection Mark for DoC Scheme are shown as follows:

"RoHS" of the identification number: indicating that "the content of restricted substance(s) other than exemption" of the commodities does not exceed the reference percentage value of presence condition.

"RoHS(XX,XX)" of the identification number: indicating that "the content of restricted substance(s) (element XX, element XX, ...) other than exemption" of the commodities exceeds the reference percentage value of presence condition.

The restricted substances: indicating Pb, Cd, Hg, Cr+6, PBB, PBDE.

Examples:

RoHS(Pb): indicating that the Pb percentage content in certain parts of the commodity exceeds the reference percentage value of presence condition.

RoHS(Cd,Cr+6,PBB): indicating that the Cd, Cr+6, and PBB percentage content in certain parts of the commodity exceed the reference percentage value of presence condition respectively.

TAIWAN COMMODITY INSPECTION SCHEMES

11 TECHNICAL FILE

For the RPC Scheme

Every CAB is required to maintain technical files of all their certified regulated commodities as required in Article 15 of Regulations Governing Recognition of Designated Testing Laboratory for Commodity Inspection, and Article 16 of Regulations Governing Commission of Commodity Inspection Operations. The contents of the technical files are specified in the table below. These files are to be maintained by the Designated / Recognized CABs for **at least eight (8) years** from the date of expiry of the Certificate of RPC Scheme or the last renewed Certificate.

In addition, the Local Suppliers shall be responsible for the regular updating of the technical files especially if there have been modifications made to the registered regulated commodities. Supplementary testing and certification are required if there are modifications with safety and/or EMC implications.

For the DoC Scheme

Every Local Supplier in Taiwan is required to maintain technical files of all their declared regulated commodities as required in Article 46 of Commodity Inspection Act. The contents of the technical files are specified in the table below. These files are to be maintained by the Local Suppliers for **at least five (5) years** following the date of the last unit produced or imported.

The maintenance of the technical files is necessary to enable the Competent Authority to carry out its investigation duties in the event of a complaint, incident or accident. Upon receiving request made by the Competent Authority, the Local Suppliers must provide the Declaration of Conformity to Competent Authority within **24 hours**, and relevant technical files to the Competent Authority within **10 working days**.

In addition, the Local Suppliers shall be responsible for the regular updating of the technical files especially if there have been **modifications** made to the declared regulated commodities. Supplementary testing and declaration are required if there are modifications with safety and/or EMC implications.

LIST OF DOCUMENTS TO BE INCLUDED IN THE TECHNICAL FILE

No	Type of document	Note
1	Certificates or Reports for RPC Scheme	For RPC Scheme only (1) Certificate of RPC (Appendix I-1); The following documents will be maintained depending on the specified module under RPC Scheme. (2) Certificate of ISO 9001 Quality Management System issued by the designated / recognized Certification Body (Local or Foreign); or (3) Report of Factory Inspection for Product Certification (Appendix J) issued by the designated / recognized Inspection Body (Local, Foreign, or MRA).

TAIWAN COMMODITY INSPECTION SCHEMES

11 TECHNICAL FILE

No	Type of document	Note
2	Test Reports (in Chinese or English version)	<p>An EMC test report shall be included and completely reflect the requirements of the inspection standards or technical criteria against which the test is performed. 		resolution, e.g. 1280 x 720 or 1920 x 1080, in user manual); and (3) MPEG decoder IC number and the manufacturer name.
3	User's Instruction Manual	Incl. user manuals and instructions, and specification Chinese version must be included.
4	Color Photographs	For EMC Product catalogue and (4"× 6" and larger) Photographs of product appearance and important internal construction or components For electrical safety Photographs of product appearance and important internal construction or components
5	Block circuit diagram	Incl. circuit diagrams, wiring diagrams or copper track diagrams of the printed circuit board
6	Bill of Material / Part List	For EMC List of emission sources and EMC components For electrical safety List of specifications of critical components or material
7	Specified documents	(1) The certification document or ex-factory report, or specification of critical components; (2) Explanation for bromide of Type Approval label and affixing position; (3) Other documents for the testing needs and the BSMI's request
8	Record of Modification	if any

Note:

Local Suppliers are strongly encouraged to maintain the testing results of every registered regulated commodity. The testing results may be of help to determine whether the fault occurring in an incident or accident is attributed to a single product or a single batch.

TAIWAN COMMODITY INSPECTION SCHEMES

12 CODING FOR CONFORMITY ASSESSMENT BODIES

For the Testing Laboratories

Coding of Designated / Recognized Testing Laboratories commodities will enable consumers, local suppliers and Competent Authority to differentiate between the designated and non-designated one. The Code of the Designated / Recognized Testing Laboratories (Local, Foreign, or MRA) is numbered in ten digits. One example for coding of the coding number is shown below:

SL 2 - IN - E - 1 001

(a) (b) (c) (d) (e) (f)

Code (a): The code represents the testing laboratories, which will be designated / recognized by BSMI,

Code (b): The professional field code:

Symbol	Professional fields of designated / recognized testing laboratory
1	Machinery Engineering
2	Electric and Electronic Engineering
3	Chemical Engineering

Code (c): The code represents designation / recognition of regulated commodities. In principle, the designation / recognition have two digits, which could be utilized numeric (0, 1 to 9) and alphanumeric (from A to Z) letters. The following will show issued commodities:

Symbol	Commodity name
Machinery	
V1	Parts of vehicle (child restraints for automobiles)
V2	Parts of vehicle (Safety seat belts)
V3	Parts of vehicle (wheels)
V4	Parts of vehicle (The parts for LPG automobile fuel system)
F1	Fire doors
GA	Gas appliances and disposable lighters for igniting tobacco products
Electrical and Electronic Products, and Information Technology Equipment	
A1	Household appliances / tools
A2	Equipment for switching the electrical circuits
A3	Wires, cables, plugs and sockets
A4	Electric motors
A5	Fire alarm equipment
A6	Portable electro-mechanical tools
IN	Information technology equipment
IS	Industrial, scientific and medical equipment
L1	Fluorescent lights / luminaries
LB	Fluorescent lights / luminaries (only for electrical safety and / or performance testing)
R1	Broadcast receivers and related equipment (television and video tape recorded / player)
R2	Broadcast receivers and related equipment (radio-broadcast receiver)
VA	Video and audio apparatus

TAIWAN COMMODITY INSPECTION SCHEMES

12 CODING FOR CONFORMITY ASSESSMENT BODIES

Code (d): The code represents designated / recognized inspection scope of regulated commodities. In principle, the designation/ recognition has one digit, which could be utilized alphanumeric (from A to Z) letters. The following will show designated / recognized inspection scope of issued products:

Symbol	Inspection scope
A	Dimensional measurement
C	Chemical analysis
D	Non-destructive testing
E	Electro-Magnetic Compatibility analysis-Electro-Magnetic Interference
F	Functional testing (depending on product type and applicable standards, e.g.)
G	Metallography analysis
M	Mechanical analysis
S	Electro-Magnetic Compatibility analysis-Electro-Magnetic Susceptibility
T	Electrical safety testing (including the electrical performance testing, however, depending on product type and applicable standards)

Code (e): The code represents the located area of designated / recognized testing laboratory. In principle, the designation / recognition has one digit, which could be utilized numeric (from 0 to 9) or alphanumeric (from A to Z) letters. The following will show the located area of designated / recognized testing laboratory:

Symbol	Located area of designated / recognized testing laboratory
0	For domestic laboratory
1	North America
2	Central and South America
3	Europe
4	Africa
5	Australasia
6	Asia, except for domestic laboratories.

Code (f): Serial Number,

The number will be designated / recognized in order. If administrative process has special requirements, the additional numeric will be designated after the last numeric, such as, letter "T" represents the tentative approval.

TAIWAN COMMODITY INSPECTION SCHEMES

12 CODING FOR CONFORMITY ASSESSMENT BODIES

Letter "R" represents the recognized laboratory by the Mutual Recognition Agreement / Arrangement between the foreign regulatory authority and the BSMI.

For the Foreign Certification / Inspection Bodies

Coding of Recognized Foreign Certification / Inspection Bodies will enable consumers, local suppliers and Competent Authority to differentiate between the recognized and non-recognized one. The Code of the Recognized Foreign Certification / Inspection Bodies (under MRA) is numbered in nine digits. One example for coding of the coding number is shown below:

R - PC - B - SG - 001
(a) (b) (c) (d) (e)

Code (a): The code represents the recognized bodies by BSMI, which will be under MRA,

Code (b): The code represents recognized conformity assessment procedures of regulated commodities under MRA:

Symbol	Recognized conformity assessment procedure
FI	For factory inspection procedure (Module VII under RPC Scheme)
SC	For certification procedure of the quality management system (Module IV, V or VI under RPC Scheme)
PC	For commodities certification procedure

Code (c): The code represents the conformity assessment bodies,

Code (d): The code represents the located country of recognized conformity assessment bodies. In principle, the designation has two digit, which could be utilized alphanumeric (from A to Z) letters. The following will show the located country of recognized conformity assessment bodies:

Symbol	Located country of recognized CAB
SG	Singapore
NZ	New Zealand
JP	Japan

Code (e): Serial Number, The number will be designated in order.

TAIWAN COMMODITY INSPECTION SCHEMES

13 QUESTIONS & ANSWERS

Q1: Under the Singapore–Taiwan EE MRA, when a CAB in Singapore accept an application from applicants for BSMI certification. Should the Certificate of Conformity (COC) be issued to the applicants that applied to the Singapore’s CAB, or to the Taiwan local representative (Taiwan sales agents or importers)?

A1: Pursuant to BSMI’s Mandatory Requirements and the implementation procedures for the MRA, the BSMI requires that the Certificate of Conformity (COC) be issued to the applicants that applied to the Singapore’s CAB. The COC can then be forwarded to the Taiwan local representative (Taiwan sales agents or importers) by the applicants in order to apply to the BSMI for the RPC Certificate.

Q2: Under the Singapore–Taiwan EE MRA, could the local representative in Taiwan use the COC issued by a Singapore’s CAB as long as the COC holder authorise the Taiwan local representative the right to use the COC. In this regard, could the COC holder authorise more than 1 Taiwan local representative to use the COC?

A2: Yes.

Q3: During registration at BSMI, it is required that the Taiwan local representative needs to fill in application form and to submit / keep technical document and COC for the purpose of registration at BSMI. In case of the implementation procedures under the Singapore–Taiwan EE MRA, is it still necessary for the Taiwan local representative to re-submit the technical documents to BSMI since a Singapore’s CAB has already reviewed all these documents and has issued the COC to attest that the product complied to BSMI regulatory requirements?

A3: The Taiwan local representative needs to re-submit the technical documents to BSMI since a Singapore’s CAB has already reviewed all these documents and has issued the COC to attest that the product complied to BSMI regulatory requirements. And the BSMI requires that the Taiwan local representative needs to maintain the technical document for regulated products under the requirements of the Taiwan regulations. They are used to verify the consistence and conformity of the product sampled from the open market within the market surveillance activity.

Q4: In the implementation procedures under the Singapore–Taiwan EE MRA, BSMI has the right not to register the product even though the applicant has a valid COC that is issued by a Singapore’s CAB. What situation will BSMI reject the COC?

A4: Either Party should not decide to reject a valid COC issued by the other Party’s CAB unless concerns are raised under Article 8.2 of the MRA. In general, the BSMI will only review the completeness and the validity of the COC.

Q5: Unlike the RPC scheme, the Taiwan local representative must obtain a registration code before he/she can commence supplying. For products under the DOC scheme, does the Taiwan local representative need to register with BSMI for a registration code?

A5: The regulated commodities subject to DoC Scheme need not to be registered with the BSMI but required to bear the supplier’s identification number given by the BSMI and the Commodity Inspection Mark.

APPENDICES

DEFINITIONS

- 1 **APLAC** means Asia Pacific Laboratory Accreditation Co-operation.
- 2 **CAB** means Conformity Assessment Body that conducts conformity assessment procedures for Regulated commodities. The conformity assessment procedures include testing, inspection and certification.
- 3 **Conformity assessment** means any activity concerned with determining directly or indirectly that relevant requirements are fulfilled.
- 4 **Commodity Inspection Mark** means the appropriate Mark specified in the “Regulations Governing the Use of Commodity Inspection Mark.”
- 5 **Competent Authority** means the Bureau of Standards, Metrology and Inspection (BSMI) (formerly known as the Bureau of Commodity Inspection and Quarantine, BCIQ) established under Article 2 of the “Commodity Inspection Act.” The BSMI has established 6 branch offices around Taiwan.
- 6 **Country** includes a customs territory.
- 7 **Designating Authority** means the Bureau of Standards, Metrology and Inspection (BSMI).
- 8 **Designated Commodity Certification Body** means the product certification body that is located in Taiwan or the other countries, and is designated by BSMI. The body may issue certificates for regulated commodities supplied in Taiwan according to “Regulations Governing Commission of Commodity Inspection Operations”, or the specific regulations under the “Commodity Inspection Act”.
- 9 **Designated Factory Inspection Body** means the factory inspection body that is located in Taiwan or the other countries, and is designated by BSMI. The body may issue factory inspection reports for regulated commodities supplied in Taiwan according to “Directions Governing Recognition of Factory Inspection Bodies”, or the specific regulations under the “Commodity Inspection Act”.
- 10 **Designated Testing Laboratory** means the testing laboratory that is located in Taiwan or the other countries, and is designated by BSMI. The laboratory may issue test reports for regulated commodities supplied in Taiwan according to “Regulations Governing Recognition of Designated Testing Laboratory for Commodity Inspection”, or the specific regulations under the “Commodity Inspection Act”.
- 11 **DoC** means the Declaration of Conformity scheme for the regulated commodities in Taiwan.
- 12 **ILAC** means International Laboratory Accreditation Co-operation.
- 13 **IAF** means International Accreditation Forum.
- 14 **IEC** means the International Electrotechnical Commission.
- 15 **IECEE** means the International Electrotechnical Commission system for conformity testing and certification of Electrical Equipment.

TAIWAN COMMODITY INSPECTION SCHEMES

DEFINITIONS

- 16 **ISO** means the International Organisation for Standardisation.
- 17 **CNS** means Chinese National Standard (CNS). The CNS information is available on-line and can be purchased from the website www.cnsonline.com.tw.
- 18 **MRA** means a Mutual Recognition Agreement or Arrangement between Singapore and any other country/customs territory.
- 19 **Regulated commodities** means any commodities of a type, class or description specified or announced to be subject to legal inspection by the Ministry of Economic Affairs in Taiwan.
- 20 **Recognized Commodity Certification Body (MRA)** means product certification body that is located in the MRA partner country, and is designated by the Designating Authority of the MRA partner, and is recognized by BSMI to issue certificates for regulated commodities supplied in Taiwan according to “Regulations Governing Commission of Commodity Inspection Operations”, or the specific regulations under the “Commodity Inspection Act”.
- 21 **Recognized Factory Inspection Body (MRA)** means the factory inspection body that is located in the MRA partner country, and is designated by the Designating Authority of the MRA partner, and is recognized by BSMI to issue factory inspection reports for regulated commodities supplied in Taiwan according to “Directions Governing Recognition of Factory Inspection Bodies”, or the specific regulations under the “Commodity Inspection Act”.
- 22 **Recognized Testing Laboratory (MRA)** means testing laboratory that is located in the MRA partner country, and is designated by the Designating Authority of the MRA partner, and is recognized by BSMI to issue test reports for regulated commodities supplied in Taiwan according to “Regulations Governing Recognition of Designated Testing Laboratory for Commodity Inspection”, or the specific regulations under the “Commodity Inspection Act”.
- 23 **RPC** means the Registration of Product Certification scheme for the regulated commodities in Taiwan.
- 24 **TAF** means Taiwan Accreditation Foundation, which is the accreditation body in Taiwan. The TAF information can be found from the website www.taftw.org.tw.

BRIEF DESCRIPTION OF THE SEVEN MODULES UNDER RPC SCHEME

Module I (internal-control)

This module applies to products of simple design with less safety concerns. The manufacturer or the authorized local representative (if the manufacturer is located abroad) shall file an application for registration together with a declaration of conformity indicating compliance of the product concerned with specified standards or technical specifications.

Module II (type-test)

This module generally applies to products of fixed construction and mass production. The manufacturer or the authorized local representative shall apply to the designated / recognized body together with a specimen of the product concerned for the conduction of necessary tests against specified standards or technical specifications. Where the specimen meets relevant requirements, the designated / recognized body shall issue a type-test report to the applicant. This module has to be used in combination with other modules.

Module III (conformity-to-type declaration)

A declaration of conformity to type shall be drawn up by the manufacturer or the authorized local representative, declaring that the products concerned comply with the type as described in the type-test report.

Module IV (full quality assurance)

The production premise is required to establish a quality management system that encompasses design, development, production, installation and servicing, and to obtain a registration certificate from the BSMI or certification bodies recognized by the BSMI, in accordance with the CNS 12680 (ISO 9000) series of standards. A declaration of conformity-to-type is also required to ensure the manufactured commodities are in conformity with those in the type-test report.

Module V (production quality assurance)

The production premise is required to establish a quality management system that encompasses production, installation and servicing, and to obtain a registration certificate from the BSMI, or certification bodies recognized by the BSMI, in accordance with the CNS 12680 (ISO 9000) series of standards. A declaration of conformity-to-type is also required to ensure the manufactured commodities are in conformity with those in the type-test report.

TAIWAN COMMODITY INSPECTION SCHEMES

BRIEF DESCRIPTION OF THE SEVEN MODULES UNDER RPC SCHEME

Module VI (product quality assurance)

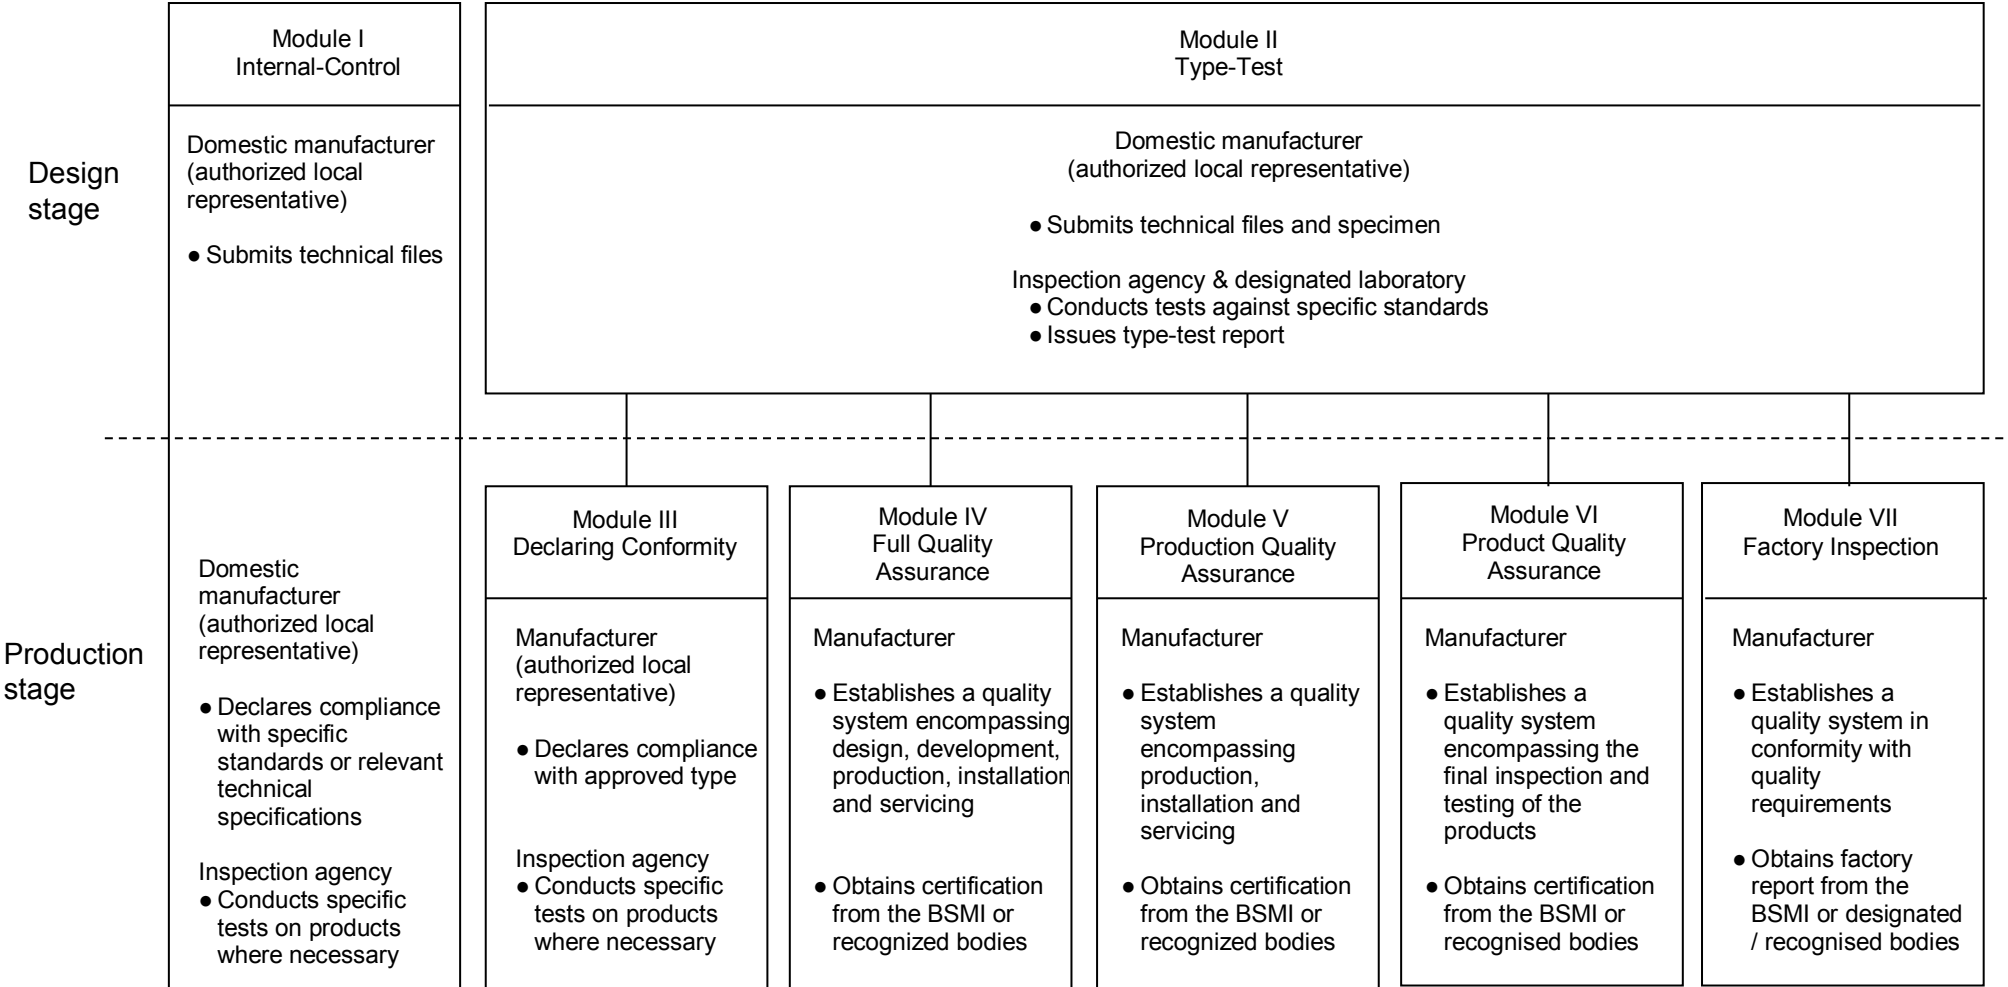

The product premise is required to establish a quality management system that encompasses the final inspection and testing of the products, and to obtain a registration certificate from the BSMI, or certification bodies recognized by the BSMI, in accordance with the CNS 12680 (ISO 9000) series of standards. A declaration of conformity-to-type is also required to ensure the manufactured commodities are in conformity with those in the type-test report.

Module VII (factory inspection)

The production premise is required to establish a quality management system that complies with the requirements stipulated by the BSMI, and to obtain a factory inspection report issued by the BSMI, or organizations recognized by the BSMI. A declaration of conformity-to-type is also required to ensure that the manufactured commodities are in conformity with those in the type-test report.

Among the above modules, Module I can be applied alone while Modules III, IV, V, VI, VII must be applied in combination with Module II respectively.

申請商品驗證登錄應檢附文件

List of Attachments to the Application for Registration of Product Certification

一、基本文件

Basic documents

 商品驗證登錄申請書

Application form

 申請人： 公司登記證明文件或 商業登記證明文件或 工廠登記證明文件

Applicant Registration document of the Company Registration document of the Business Registration document of the Factory

二、符合性評鑑文件

Conformity assessment documents

 (一) 模式一：
Module I 1. 自行管制聲明書

Declaration of internal-control

 2. 指定之技術文件

Designated technical documents

 (二) 模式二加三：
Module II + III 1. 型式試驗報告

Type-test report

 2. 符合型式聲明書

Declaration of conformity-to-type

 3. 經指定之相關資料及技術文件

Designated related information and technical documents

 (三) 模式二加四：
Module II + IV 1. 型式試驗報告

Type-test report

 2. 完全品質管理系統登錄證書影本 (CNS12681/ISO9001 系列, 具設計、開發、生產及製造功能者)

A copy of the certificate demonstrating the compliance of the quality system with CNS12681/ISO9001 series of standards covering the scopes of design, development, production, installation and servicing

 3. 符合型式聲明書

Declaration of conformity-to-type

 4. 經指定之相關資料及技術文件

Designated related information and technical documents

 (四) 模式二加五：
Module II + V 1. 型式試驗報告

Type-test report

 2. 製程品質管理系統登錄證書影本 (CNS12681/ISO9001 系列, 具生產及製造功能者)

A copy of the certificate demonstrating the compliance of the quality system with CNS12681/ISO9001 series of standards covering the scopes of production, installation and servicing

 3. 符合型式聲明書

Declaration of conformity-to-type

 4. 經指定之相關資料及技術文件

Designated related information and technical documents

 (五) 模式二加六：
Module II + VI 1. 型式試驗報告

Type-test report

 2. 產品品質管理系統登錄證書影本 (CNS12681/ISO9001 系列, 具最終檢驗及測試功能者)

A copy of the certificate demonstrating the compliance of the quality system with CNS12681/ISO9001 series of standards covering the scopes of final inspection and test of the products

 3. 符合型式聲明書

Declaration of conformity-to-type

 4. 經指定之相關資料及技術文件

Designated related information and technical documents

 (六) 模式二加七：
Module II + VII 1. 型式試驗報告

Type-test report

 2. 工廠檢查報告影本

A copy of the factory inspection report

 3. 符合型式聲明書

Declaration of conformity-to-type

 4. 經指定之相關資料及技術文件

Designated related information and technical documents

三、其他文件

Other documents

(一) 經標準檢驗局指定之 驗證登錄商品進口通關授權書、 原登錄證書或 其他相關資料。

Designated by the BSMI

Letter of Authorization

Original Certificate or other information

(二) 產品驗證國際相互承認協議： 對方國簽發之驗證證明

Mutual Recognition Arrangements (MRAs) Certificate of Conformity issued by MRA partners on Conformity Assessment

四、備註

Remarks

1. 應繳證件必須齊備，否則恕難受理。

All necessary documents shall be presented; otherwise the application will not be accepted.

2. 無論通過與否，繳驗之文件概不退還。

METHOD OF DRAWING CERTIFICATION MARK AND REGISTRATION NUMBER

This drawing is regulated according to the 'Regulations Governing Commodity Inspection Mark.' Drawing Method of the Product Safety Mark:

- (a) There is no size restriction on the Mark, but the Mark shall be affixed to the body of the product in appropriate proportion (please see mark in grid).
- (b) The obligatory inspection applicant shall use non-degenerate materials to print/ produce the certification mark (the Product Safety Mark and the identification number), which shall be affixed to each product in a visible, legible, indelible and immovable manner.
- (c) The affixing of other markings on the product, which are likely to mislead or confuse the consumers or the third parties, shall be prohibited.
- (d) The Certification Mark must be affixed to the body of the product. However, if the product is too small to accommodate the Mark, the Certification Mark shall be affixed in accordance with the following ways.
 - If the product has its packaging, it shall be affixed to its smallest package.
 - If the product has no packaging or it is not appropriate to affix the Mark on the packaging, it may be attached to the product by hang tags.
 - If the ways of affixing to the packaging and hang tags are not appropriate, it shall be put inside the packaging.
 - Other ways approved by the BSMI.

The Certification Mark should be affixed at a conspicuous location on the product in order for the consumers to identify it when they buy and/or use the product.

Examples of Certification Mark are shown as follows.

REGULATIONS GOVERNING THE USE OF COMMODITY INSPECTION MARK

- 1 These Regulations have been established in accordance with Paragraph Two Article 12 of the Commodity Inspection Act (the Act).
- 2 An obligatory inspection applicant (applicant) shall employ the Commodity Inspection Mark (the Mark) in accordance with these Regulations, except for those approved by the Bureau of Standards, Metrology, and Inspection (the BSMI) to be exempt from this requirement.
- 3 The Mark is comprised of a graphic symbol with an identification number. The identification number shall be placed to the right of or below the graphic symbol.

The graphic symbol for the Mark, named Product Safety Mark, is illustrated in Appendix 1. The Mark, depending on the following different inspection methods, is comprised of a Roman letter, a sequence of numbers or a designated code:

- (1) For batch-by-batch inspection and monitoring inspection: the Roman letter 'C' followed by a number sequence, except the following situations:
 - a) Type-approved products designated by the BSMI permitting the applicant to print the Mark: the Roman letter 'T' followed by a designated code;
 - b) Commodities manufactured by organizations with management systems certified by the BSMI permitting the applicant to print the Mark: the Roman letter 'Q' with a designated code; and;
 - c) Commodities designated by the BSMI permitting the applicant to print the Mark: a Roman letter 'M' with a designated code.
- (2) Registration of product certification: the Roman letter 'R' followed by a designated code. For products designated by the BSMI: the Roman letter "R", a number sequence and a designated code.
- (3) Declaration of conformity: the Roman letter 'D' followed by a designated code.

The BSMI shall assign the designated codes upon the issuance of certificates, except for those mentioned in subparagraph 3 of the preceding paragraph, as these shall be assigned by the BSMI based on applications made by manufacturers.

- 4 The Mark shall be printed in accordance with the following rules:
 - (1) Under batch-by-batch inspection and monitoring inspection: The BSMI shall print the Mark labels. For situations mentioned in items (1)-(3), subparagraph 1, paragraph 3, Article 3, an applicant is permitted to print the inspection mark in accordance with the applicable requirements.
 - (2) Under registration of product certification: An applicant is permitted to print the inspection mark in accordance with the applicable requirements. For products designated by BSMI: the graphic symbol for the Mark, Roman letter and the number sequence shall be printed by the BSMI, and the designated code shall be printed by the applicant.
 - (3) Under declaration of conformity: An applicant is permitted to print the inspection mark in accordance with the applicable requirements.

TAIWAN COMMODITY INSPECTION SCHEMES

REGULATIONS GOVERNING THE USE OF COMMODITY INSPECTION MARK

5 The inspection mark printed by manufacturers shall use materials that are not easily altered, and the content shall be in a clearly identifiable and indelible form affixed permanently to the commodity.

6 The Roman letter "C" Mark labels printed by the BSMI shall be issued upon approval of an application for inspection. An applicant shall apply the Mark labels onto commodities before they are sampled for inspection. Commodities that have been granted prior release by the BSMI may be labelled after sampling.

If the Mark labels have not been applied in accordance with requirements, the BSMI or its subsidiary branches (hereinafter referred to as the inspection authority) may send its personnel to supervise the method by which the Mark labels are applied.

The inspection authority, where necessary, may designate commodities according to their nature to have the sampling personnel to seal the Mark labels hanging along the commodities.

The Roman letter "R" Mark labels printed by the BSMI shall be issued upon approval of an application by the applicant before the delivery of the commodities.

7 The applicant shall record on the inspection application form the identification numbers of products undergone batch-by-batch inspection and monitoring inspection.

8 The Mark should be applied in a prominent place on a commodity. Other marks applied to a commodity that are likely to be confused with the Mark shall be prohibited.

The prominent place mentioned in the previous paragraph shall mean a position next to the plate, brand or trademark of a commodity and easily to be identified.

9 An applicant shall apply the Mark on the body of a commodity; however, if the commodity is too small or for other specific causes to accommodate the Mark, it shall be affixed in accordance with the following methods:

(1) If the commodity is packaged, the Mar shall be applied to its smallest package;

(2) If the commodity is not packaged, or if it is not appropriate to apply the Mark to the packaging, the mark may be attached to the commodity by hang tags;

(3) If applying the Mark to the packaging or by hang tags is not appropriate, the Mark shall be put inside the packaging;

(4) The mark may be applied to a commodity by other methods approved by the BSMI.

10 An applicant with commodities that have complied with inspection requirements for three consecutive applications within one year may apply for purchasing an appropriate amount of Roman letter "C" Mark labels in advance. These Mark labels should be used and reported to the inspection authority within 6 months. An applicant may apply for a single extension of no more than six months if the Mark labels are not used within six months.

Any violation of the preceding paragraph that leads to failing to use the Mark labels and report to the inspection authority within 6 months shall result in a one-year suspension of the right to purchase the Mark labels in advance.

The inspection authority shall record Mark labels purchased in advance. Monitoring the use of Mark labels purchased in advance shall be conducted when inspection applications are processed and the inspection fees are paid.

TAIWAN COMMODITY INSPECTION SCHEMES

REGULATIONS GOVERNING THE USE OF COMMODITY INSPECTION MARK

An applicant shall be responsible for custody of the Mark labels purchased in advance. If the Mark labels are lost or damaged, the applicant shall report the identification numbers of the lost or damaged Mark labels to the inspection authority from which they were purchased. Failure to do so may result in losing the right to purchase Mark labels in advance.

Loss of Mark labels purchased in advance shall result in a warning for the first occasion, and suspension of the right to purchase Mark labels for one month, six months, and one year respectively for the second, third, and fourth occasions.

- 11 If an applicant fails to use the Mark labels purchased in advance in accordance with these Regulations, or the commodities do not comply with requirements after inspection, the right to purchase labels in advance shall be revoked.

The right to purchase Mark labels in advance that has been revoked in accordance with the preceding paragraph may be reinstated if the commodities are able to pass inspection for three consecutive batches and the quantity of commodities passing inspection reaches five times of the quantity of the labels purchased in advance constituting a violation as mentioned in the preceding paragraph.

If an applicant obtains permission from the BSMI to print the Mark on the products in accordance with item 3, subparagraph 1, paragraph 3, Article 3 and have any of the following situations, the BSMI may rescind the permission it granted to the applicant for printing the Mark on products:

- (1) Where its business is closed or unknown or no application for inspection had been made for more than 2 years;
- (2) Where the Mark is found to be printed on products not approved by the BSMI; or
- (3) Where the products have been found to be not bearing the Mark for two times or more.

The applicant of whom the permission for printing the Mark on products is rescinded, as mentioned in the preceding paragraph, shall be able to make a new application for permission 3 months after the date of rescission and after compliance with the inspection requirements for a consecutive 3 batches of products.

- 12 If the Mark labels purchased from the BSMI are not used, an applicant may apply for cancellation, delayed-use, or return of these labels in accordance with the following requirements:

- (1) If the inspection application is withdrawn by an applicant due to an insufficient quantity of commodities or incomplete packaging, the unused Mark labels are allowed to be used for the next batch of commodities to undergo inspection, or must be returned;
- (2) If during on-site sampling or inspection it is found that the quantity of commodities does not reach the quantity specified in the inspection application, the quantity specified in the application should be corrected. The surplus Mark labels are allowed to be used for the next batch of commodities to undergo inspection if there are more than one hundred labels in sequence, or are cancelled if there are less than one hundred labels or there are more than one hundred labels not in sequence.

An applicant who applies for delayed-use of Mark labels shall record the identification numbers and the remaining quantity of Mark labels in the original inspection application form and make note of the same in the inspection application form for the next batch of commodities to undergo inspection.

TAIWAN COMMODITY INSPECTION SCHEMES

REGULATIONS GOVERNING THE USE OF COMMODITY INSPECTION MARK

An applicant who returns Mark labels in accordance with the first paragraph shall be issued a voucher after appropriate review by the inspection authority that accepts the inspection application. The voucher may be cashed or used to deduct the amount from related inspection fees before the end of the fiscal year.

- 13 The quantity of commodities that the sampling personnel checks to verify the use of Mark labels shall be two to three times of the quantity of sampled commodities for inspection or boxes opened for inspection. Commodities sampled to check the Mark labels shall have the Mark label identification numbers recorded in the sampling report. If there are discrepancies between the results of the check and those specified in the application form, the case shall be dealt with in accordance with related regulations.
- 14 If commodities do not comply with the requirements under batch-by-batch inspection or monitoring inspection, the inspection authority shall send its personnel to the storage place of the commodities and cancel the Mark labels with receipt issued to the applicant within three working days starting from the next day of issuing the non-conformity notice. If an application for re-inspection or a new application for inspection is filed and an applicant ensures the integrity of the Mark labels, these labels may not be cancelled after gaining approval from the inspection authority.

An applicant shall file the new application for inspection within six months for commodities of which the inspection mark labels are not cancelled in accordance with the preceding paragraph. The inspection authority shall immediately send its personnel to cancel the Mark labels if the applicant is not able to file the application by the required time.

- 15 A new application for Mark labels shall be submitted if commodities have any of the following problems:
- (1) The packaging has been changed;
 - (2) A new application for inspection has been made in accordance with Article 27 of the Act;
 - (3) The Mark labels have been damaged;
 - (4) The Mark labels have been lost.

- 16 These Regulations shall take effect from the date of promulgation.

TAIWAN COMMODITY INSPECTION SCHEMES

TRACKING RECORD OF THIS INFORMATION BOOKLET

No	Version	Last Published	Changes in this version
0	1	15 October 2006	First Published on 15 October 2006
1	1.1	10 November 2006	1. Addition of Chapter 13 "Questions & Answers." (p.22) 2. Updating of 17 electrical safety standards for all regulatory commodities. (p.29-64)
2	1.2	1 January 2007	Updating of the applicable inspection standards for 102 regulatory commodities (p.29-64)
3	1.3	10 January 2007	Addition of the list (22 regulated commodities) of the recognized commodity certification body in Singapore (TÜV SÜD PSB Corporation Pte Ltd (RPCB-SG-001)). (p.84-85)
4	1.4	26 February 2007	1. Addition of the list of the recognized EMC testing laboratories in Singapore (TÜV SÜD PSB Corporation Pte Ltd, Testing Group (Telecoms & EMC) (SL2-IS/IN/R1/R2/ A1/L1-E-6001R)). (p.86) 2. Change of CCCN for "other hair-dressing apparatus." (p.39)
5	1.5	1 March 2007	Addition of 6 regulated commodities. (p.29-65)
6	1.6	16 April 2007	1. Addition of contents of national differences for 10 adopted IEC standards. (p.7-8) 2. Updating of Chapter 6 (p.9-10) and Chapter 10. (p.16) 3. Updating of appendices H-1 to H-4. (p.71-74) 4. Addition of the Signatory list of TÜV SÜD PSB Corporation Pte Ltd. (p.90)
7	1.7	27 April 2007	Correction of typographic errors in Appendix C. (p.30-66)
8	1.8	10 May 2007	Updating of Chapter 10. (p.16)
9	1.9	30 May 2007	1. Addition of the list of recognized Electrical Safety testing laboratories in Singapore (TÜV SÜD PSB Corporation Pte Ltd, Testing Group (Telecoms & EMC) (SL2-IS/IN/R1/R2/ A1/L1-E-6001R)) (p.90) 2. Change of "TÜV SÜD PSB Corporation Pte Ltd" to "TÜV SÜD PSB Pte Ltd." (p.88-91)
10	1.10	21 June 2007	Addition of the list of recognized EMC testing laboratories in Singapore (Hewlett Packard Singapore (Private) Limited, Test Services Center (SL2-IN-E-6014R)) (p.91)
11	1.11	1 July 2007	1. Updating of the version of 4 EMC standards. (p.30-67) 2. Addition of 4 regulated commodities. (p.30-67)
12	1.12	8 August 2007	Updating of EMC test scope of TÜV SÜD PSB Pte Ltd, Testing Group (Telecoms & EMC) (SL2-IS/IN/R1/R2/ A1/L1-E-6001R) (p.91)
13	1.13	20 August 2007	Updating of Electrical Safety test scope of TÜV SÜD PSB Pte Ltd, Testing Group (SL2-IN/A1/VA/LB-T-6001R) (p.91-92)
14	1.14	20 September 2007	Updating of EMC test scope of Hewlett Packard Singapore (Private) Limited, Test Services Center (SL2-IN-E-6014R) (p.92)
15	1.15	10 October 2007	Addition of the list of recognized EMC testing laboratories in Singapore (LabOne Singapore Pte. Ltd. (SL2-IN-E-6015R)) (p.92)
16	1.16	1 November 2007	Change of Signatory lists of Hewlett Packard Singapore (Private) Limited, Test Services Center (SL2-IN-E-6014R) and LabOne Singapore Pte. Ltd. (SL2-IN-E-6015R) (p.92)
17	1.17	1 January 2008	1. Cancellation of 2 regulated commodities. (p.30-67) 2. Updating of EMC standard for 12 regulated commodities. (p.30-67)
18	1.18	11 January 2008	Change of Director of TÜV SÜD PSB Pte Ltd, Testing Group (SL2-
