- 2. Models for certificates for the entry into the Union of animals, products of animal origin, composite products, germinal products, animal by-products, sprouts for human consumption and seeds intended for the production of sprouts for human consumption shall contain entries for the information set out in the standard model in Chapter 3 of Annex I.

# Completion of certificates for animals and goods intended for human consumption

- 1. Certificates for movements of animals and goods intended for human consumption within the Union or between Member States shall be duly completed and signed by the official veterinarian or certifying officer in accordance with the explanatory notes provided for in Chapter 2 of Annex I.
- 2. Certificates for the entry into the Union of animals, products of animal origin, composite products, sprouts for human consumption and seeds intended for the production of sprouts for human consumption shall be duly completed and signed by the official veterinarian or certifying officer authorised by the competent authority of a third country to sign relevant certificates in accordance with the explanatory notes provided for in Chapter 4 of Annex I.
- 3. Operators responsible for consignments referred to in paragraphs 1 and 2 shall provide the competent authority the information on the description of such consignments as described in Part I of the model certificates set out in Annexes II, III and IV of this Regulation.
- 4. For the purposes of this Regulation, the competent authority shall ensure that the certificates which include an animal health attestation are signed by the official veterinarian.

#### Article 5

# Requirements for certificates for consignments of animals and goods intended for human consumption

- 1. The official veterinarian or the certifying officer shall complete certificates for consignments of animals and goods intended for human consumption in accordance with the following requirements:
- (a) the certificate must bear the signature of the official veterinarian or the certifying officer and the official stamp; the colour of the signature and the colour of stamp, other than embossed or watermarked stamp, must be different to the colour of the printing;
- (b) where the certificate contains multiple or alternative statements, the statements which are not relevant must be crossed out, initialled and stamped by the official veterinarian or certifying officer, or completely removed from the certificate;
- (c) the certificate must consist of one of the following:
  - (i) a single sheet of paper;

- (ii) several sheets of paper where all sheets are indivisible and constitute an integrated whole;
- (iii) a sequence of pages with each page numbered so as to indicate that it is a particular page in a finite sequence;
- (d) where the certificate consists of a sequence of pages as referred to in point (c)(iii), of this paragraph, each page must bear the unique code referred to in Article 89(1)(a) of Regulation (EU) 2017/625, the signature of the official veterinarian or certifying officer and the official stamp;
- (e) in the case of certificates for movements of consignments within the Union or between Member States, the certificate must accompany the consignment until it reaches the place of destination in the Union;
- (f) in the case of certificates for the entry into the Union of consignments, the certificate must be presented to the competent authority of the border control post of entry into the Union where the consignment is subjected to official controls;
- (g) the certificate must be issued before the consignment to which it relates leaves the control of the competent authority issuing the certificate;
- (h) in the case of certificates for the entry into the Union, the certificate must be drawn up in the official language, or in one of the official languages, of the Member State of the border control post of entry into the Union.
- 2. By way of derogation from paragraph 1(h) a Member State may consent to certificates being drawn up in another official language of the Union and accompanied, if necessary, by an authenticated translation.
- 3. Points (a) to (e) of paragraph 1 do not apply to electronic certificates issued in accordance with the requirements of Article 39 (1) of Implementing Regulation (EU) 2019/1715.

NOTES FOR THE COMPLETION OF MODEL ANIMAL HEALTH CERTIFICATES, OFFICIAL CERTIFICATES AND ANIMAL HEALTH/OFFICIAL CERTIFICATES FOR MOVEMENTS OF ANIMALS AND PRODUCTS BETWEEN MEMBER STATES OR WITHIN THE UNION

#### General

To positively select any option, please tick or mark the relevant box with a cross (x).

Unless otherwise specified or established by Union legislation, all entries or boxes apply to the model animal health certificate, official certificate and animal health/official certificate in Chapter 1.

Paper copies of an electronic certificate shall bear a unique machine-readable optical label which hyperlinks to the electronic version.

Only one of the options may be selected in boxes I.18 and I.20.

Where a box allows one or more options to be selected, only the selected option (s) will be displayed in the electronic version of the certificate.

Where a box is not compulsory, its content shall be strike-through.

PART I _	DESCRIPTION	OF	CONSIGNMENT
IANI I –	DESCRII HON	OI	COMSIGNMENT

Box	Description
I.1	Consignor
	Indicate the name and address, country and ISO country code (1) of the natural or legal person dispatching the consignment.
I.2	IMSOC reference
	This is the unique alphanumeric code assigned by the IMSOC. Repeated in boxes II.a and III.2
I. 2a	Local reference
	Indicate the unique alphanumeric code the competent authority may assign. Repeated in boxes II.b and III.2a
I.3	Central competent authority
	Indicate the name of the central competent authority in the country issuing the certificate.
I.4	Local competent authority
	Indicate the name of the local competent authority in the country issuing the certificate.
I.5	Consignee
	Indicate the name and address, country and ISO country code of the natural or legal person to whom the consignment is intended in the country of destination.

Operator conducting assembly operations independently of an
establishment
Concerns operators conducting assembly operations for kept ungulates and poultry, independently of an establishment, as referred to in Article 90 of Regulation (EU) 2016/429 of the European Parliament and of the Council (2).
Indicate the registration number and name of the registered operator.
Country of origin
Indicate the name and ISO country code of the country from which the animals or products (germinal products, products of animal origin and animal by-products) originate.
Region of origin
Where relevant, for the movement of animals or products that are affected by regionalisation measures in accordance with Union legislation, indicate the code of the approved regions or zones as indicated in the Official Journal of the European Union, or the name of compartments for aquatic animal diseases as listed on http://ec.europa.eu/food/animal/liveanimals/aquaculture/index_en.htm
Country of destination
Indicate the name and ISO country code of the country to which the animals or products are destined.
Region of destination
See box I.8
Place of dispatch
Indicate the name and address, country and ISO country code of the establishment(s), or where relevant other place(s), from where the animals or the products come from. Where applicable, also indicate the registration or approval number of the establishment(s).
For animals: indicate the establishment where animals are regularly kept or where they are assembled.
For semen, oocytes or embryos intended for artificial reproduction: indicate as appropriate semen collection centre, embryo collection or production team, germinal product processing establishment, germinal product storage centre or confined establishment. In the case of semen of ovine and caprine animals, the place of dispatch may be the establishment keeping donor animals.
For other products: any unit of a company in the food or animal by-product sector. Only the establishment shipping the products is to be named.
Place of destination
Indicate the name and address, country and ISO country code of the establishment, or where relevant another place, where animals or products are being delivered for final unloading. Where applicable, also indicate the registration or approval number of the establishment of destination.

#### **▼**B

I.13	Place of loading
	For animals only: indicate the name and address of the place where the animals are loaded in the means of transport, and in the case they are assembled beforehand, the name and address of the establishment approved for assembly operations and its approval number.
	For products: indicate the name, address and category (for example, establishment, port or airport) of the final place where the products are to be loaded in the means of transport.
I.14	Date and time of departure
	Indicate the date and, when required, time, when animals or products are scheduled to leave the place of loading.
I.15	Means of transport
	Select one or more of the following means of transport for animals or products leaving the country of dispatch, and indicate its (their) identification(s):
	— aircraft (indicate the flight number);
	<ul> <li>vessel (indicate the vessel name and number. In the case of livestock vessels, indicate the unique number of the certificate of approval);</li> </ul>
	- railway (indicate the train identity and wagon number);
	<ul> <li>road vehicle (indicate the registration number plate with trailer number plate, if applicable. In the case of road vehicle used for long journeys, indicate also the unique number of the certificate of approval).</li> </ul>
	— other (means of transport other than those mentioned in point (n) of Article 2 of Council Regulation (EC) No 1/2005 (3))
	In the case of a ferry, tick 'vessel' and identify the road vehicle(s) with registration number (with trailer number, if applicable), in addition to the name and number of the scheduled ferry.
I.16	Transporter
	This box applies only to animals and products where this is required by Union legislation.
	Indicate the name, address, country and ISO country code of the natural or legal person(s) in charge of the transport.
	Indicate the registration or authorisation number where applicable.
I.17	Accompanying documents
	Indicate the type of document: for example CITES permit in accordance with Article 9 of Council Regulation (EC) No 338/97 (4), permit for invasive alien species (IAS) in accordance with Article 8(1) and (2) of Regulation (EU) No 1143/2014 of the European Parliament and of the Council (5), declarations or other documents including of a commercial nature.
	Indicate the unique code of accompanying documents and country of issue.
	•

Commercial document references: indicate for example the airway bill number, the bill of lading number or the commercial number of the train or road vehicle.

For products (products of animal origin and animal by-products): indicate the commercial document reference where this is required by Union legislation.

For semen, oocytes or embryos intended for artificial reproduction dispatched from germinal product processing establishments and germinal products storage centres: indicate the reference of the initial official document(s) or certificate(s) that accompanied semen, oocytes and/or embryos of this consignment to those germinal product processing establishments and germinal products storage centres from:

- the semen collection centre where the semen was collected and/or
- the embryo collection or production team collecting or producing the oocytes or embryos, and/or
- the germinal product processing establishment where semen, oocytes or embryos were processed and stored, and/or
- the germinal product storage centre where the semen, oocytes or embryos were stored.

For dogs, cats and ferrets, and where applicable for equidae: indicate the passport number.

For animals of protected species: indicate the CITES permit number.

For kept ungulates dispatched from an establishment approved for assembly operations: indicate the serial number(s) of the official document(s) and/or the certificate(s) based on which the certificate for this consignment is issued.

# I.18 Transport conditions

Indicate the category of required temperature during the transport of products (ambient, chilled, frozen).

This box does not apply to animals.

#### I.19 Container number/Seal number

Where applicable, indicate the container number and seal number (more than one possible).

The container number must be provided if the goods are transported in closed containers.

Only the official seal number must be stated. An official seal number applies if a seal is affixed to the container, truck or rail wagon under the supervision of the competent authority issuing the certificate.

#### I.20 Certified as or for

Select the purpose of the movement of animals, the intended use of goods or the category as specified in the relevant Union legislation:

Organic fertilisers and soil improvers: concerns certain animal byproducts or derived products as referred to in Regulation (EC) No 1069/2009 of the European Parliament and of the Council (6).

Technical use: animal by-products or derived products unfit for human or animal consumption, as referred to in Article 36 of Regulation (EC) No 1069/2009.

Exhibition: concerns animals intended for an exhibition and sporting, cultural or similar events in accordance with Union legislation.

Products for human consumption: concerns only products of animal origin intended for human consumption for which a certificate is required by Union legislation.

Further processing: concerns products that have to be further processed before being placed on the market as well as live aquatic animals and products of animal origin from aquatic animals other than live aquatic animals, which are destined for a disease control aquatic food establishment as defined in Article 4(52) of Regulation (EU) 2016/429.

Live aquatic animals for human consumption: aquatic animals intended for direct human consumption i.e. aquatic animals, which are delivered to the final consumer live or consumed live.

Confined establishment: as defined in Article 4(48) of Regulation (EU) 2016/429.

Quarantine or similar establishment: as provided for in Article 14 of Commission Delegated Regulation (EU) 2019/2035 (7) as regards terrestrial animals and in Article 15 or Article 16 of Commission Delegated Regulation (EU) 2020/691 (8) as regards aquaculture animals.

Travelling circus/Animal acts: as defined in respectively Article 2(34) and (35) of Delegated Regulation (EU) 2019/2035.

Release into the wild: concerns only live animals, which are to be released into the wild at the place of destination.

Registered equine animal: as defined in Article 2(30) of Delegated Regulation (EU) 2019/2035.

Further keeping: animals intended for establishments keeping live animals including for research purposes or for pet keepers, unless a more specific purpose or category from I.20 applies to them (e.g. quarantine, confined establishments etc.). It also includes animals, which are intended to restock game supplies or to be released into the wild, if those are intended to pass through an establishment before being released.

Purification centre: as defined in Article 2(2) of Delegated Regulation (EU) 2020/691.

Dispatch centre: as defined in Article 2(3) of Delegated Regulation (EU) 2020/691.

Relaying area: as defined in Article 2(4) of Delegated Regulation (EU) 2020/691.

Ornamental aquaculture establishment: as provided for in Article 17 or Article 18 of Delegated Regulation (EU) 2020/691.

Slaughter: for animals destined for a slaughterhouse, either directly or via an establishment approved for assembly operations.

Germinal products: as defined in Article 4(28) of Regulation (EU) 2016/429. Event or activity near borders: concerns movements of kept terrestrial animals between Member States in accordance with Article 139 of Regulation (EU) 2016/429 where such movements are for: recreational use near borders; exhibitions, and sporting, cultural and similar events organised near borders; grazing of kept terrestrial animals in grazing areas shared between Member States; - work done by kept terrestrial animals near borders of Member States. Other: intended for purposes not listed elsewhere in this classification, including aquatic animals intended for fishing baits. I.21 For transit through a third country Indicate the name and ISO country code of the transited third country in the case of road transport. Select the border control post of exit or indicate the name of the local authority of the place in which the exit point is situated. Select the border control post of entry into the Union. I.22 For transit through Member States Indicate the name and ISO country code of the transited Member State(s) in the case of road transport. I.23 For export Indicate the name and ISO country code of the third country of destination and select the border control post of exit or indicate the name of the local authority of the place in which the exit point is situated. I.24 Estimated journey time This box only applies to animals falling within the scope of Regulation (EC) No 1/2005 and refers to the expected duration of the intended journey declared by the transporter in the transport documentation in accordance with Article 4(1)(e) thereof. The information entered in this box shall correspond to the total expected duration declared in Section 1 of the planning of the journey log set out in Annex II to that Regulation, in the case of domestic equidae other than registered equidae and domestic animals of bovine, ovine, caprine and porcine species subject to long journeys between Member States and with third countries (as defined in point

(m) of Article 2 of that Regulation).

I.25	Journey log
	This box only applies to domestic equidae other than registered equidae and domestic animals of bovine, ovine, caprine and porcine species subject to long journeys between Member States and with third countries, as defined in point (m) of Article 2 of Regulation (EC) No 1/2005.
	By ticking 'yes', the IMSOC will automatically generate the journey log to be completed and submitted by the organizer of the journey in accordance with Annex II to that Regulation.
I.26	Total number of packages
	Indicate the total number and type of packages in the consignment, where appropriate.
	For animals: the number of boxes, cages, containers, tanks, hives or stalls, in which the animals are being transported.
	For semen, oocytes and embryos intended for artificial reproduction: the number of containers.
	For products: the number of packages.
	In the case of bulk consignments, this box is optional.
I.27	Total quantity
	For terrestrial animals or germinal products: indicate as appropriate the total number of heads, hatching eggs or straws expressed as units.
	For aquatic animals: indicate as appropriate, the total number of animals, eggs or larvae expressed as units.
I.28	Total net weight/gross weight (kg)
	The total net weight is the mass of the animals or goods themselves, without immediate containers or any packaging. It is automatically calculated by the IMSOC on the basis of the information entered in box I.30.
	The declared net weight of glazed food shall be exclusive of the glaze.
	Indicate the total gross weight, i.e. the aggregate mass of the animals or goods, plus immediate containers and all their packaging, but excluding transport containers and other transport equipment.
I.29	Total space foreseen for the consignment (in m <sup>2</sup> )
	This box applies only to animals falling within the scope of Regulation (EC) No 1/2005.
	Space allowances during transport shall at least comply with the figures laid down, in respect of the animals and the means of transport referred to, in Chapter VII of Annex I to Regulation (EC) No 1/2005.
	The information entered in this box shall correspond to the total space foreseen for the consignment declared in Section 1 of the planning of the journey log set out in Annex II to Regulation (EC) No 1/2005, in the case of domestic equidae other than registered equidae and domestic animals of bovine, ovine, caprine and porcine species subject to long journeys between Member States and with third countries (as defined in point (m) of Article 2 of that Regulation).

# I.30 Description of consignment

State any specific requirements relating to the animals or to the nature/processing of the products as defined in the relevant Union legislation.

For animals: indicate the species, category, identification method, identification number, age, sex, quantity or net weight, and test. For honeybees and bumble bees, indicate either of the following: queens with maximum 20 attendants, colonies with brood or other. For aquatic animals, indicate the number, volume or net weight, as appropriate to their life stage.

For semen, oocytes or embryos intended for artificial reproduction: indicate

- the type (semen, in vivo derived embryos, in vivo derived oocytes, in vitro produced embryos or micro manipulated embryos);
- the collection or production date;
- the approval number of the establishment of collection or production (semen collection centre, embryo collection or production team, germinal product processing establishment, germinal product storage centre or confined establishment). In the case of semen of ovine and caprine animals collected at their establishment of origin, indicate the registration number of that establishment;
- identification mark on the straw or other package;
- the quantity;
- the species, the subspecies (for animals from confined establishments, if needed) and identification number of the donor animal (s).

For products: indicate the species, types of products, type of treatment, approval or registration number of establishments together with ISO country code (slaughterhouse, processing plant, cold store, collection centre), number of packages, type of packaging, batch number, net weight.

Species: indicate the scientific name or as defined in accordance with Union legislation.

Type of packaging: identify the type of packaging according to the definition given in Recommendation No 21 (9) of UN/CEFACT (United Nations Centre for Trade Facilitation and Electronic Business).

# PART II – CERTIFICATION

Box	Description
	European Union
	This box refers to the issuing countries.
	Certificate model
	This box refers to the specific title of each model of certificate.

# <u>▼</u>B

II.	Health information
	This box refers to the specific Union health requirements applicable to the animal species or to the nature of the products moved between Member States or within the Union.
II.a	IMSOC reference
	This is the unique alphanumeric code indicated in box I.2.
II.b	Local reference
	This is the unique alphanumeric code indicated in box I.2a.
	Certifying officer
	This box refers to the signature of the certifying officer as defined in point (26) of Article 3 of Regulation (EU) 2017/625 of the European Parliament and of the Council (10).
	Indicate the name in capital letters, qualification and title, where applicable, of the signatory, and name and code of the control unit, original stamp of the competent authority the signatory is attached to and date of signature.

# PART III – CONTROLS

Box	Description
III.1	Date of official controls
	Indicate the date when the official veterinarian as defined in point (32) of Article 3 of Regulation (EU) 2017/625 has performed the official controls on the consignment.
III.2	IMSOC reference
	This is the unique alphanumeric code indicated in box I.2.
III.2a	Local reference
	This is the unique alphanumeric code indicated in box I.2.a.
III.3	Documentary check
	This is the examination of the certificates, official attestations and other documents including documents of commercial nature, which are required to accompany the consignment, in order to verify compliance with Union legislation, including the additional animal health guarantees for Category C diseases as defined in point (3) of Article 1 of Commission Implementing Regulation (EU) 2018/1882 (11). This also includes verification of compliance with national measures as relevant in accordance with Article 226 of Regulation (EU) 2016/429.
	Non-compliance with national measures means that the consignment is not satisfactory.
	Tick 'yes' or 'no' as appropriate.

III.4	Identity check
	This is a visual inspection to verify that the content and the labelling of the consignment, including the marks on animals, seals and means of transport, corresponds to the information provided in the certificate and other documents accompanying it.  Tick 'yes' or 'no' as appropriate.
III.5	Physical check
	This refers to a check on animals or products and as appropriate, a check on packaging, the means of transport, labelling and temperature, the sampling for analysis, testing or diagnosis and any other check necessary to verify compliance with applicable rules.  Tick 'yes' or 'no' as appropriate.  State the number of animals checked.
III.6	Laboratory test
	Tick 'yes' if a test has been performed.  Tested for: select the category of substance or pathogen for which a laboratory test has been carried out.  — tick 'random' where the consignment is not detained pending a test result.  — tick 'suspicion' where animals or products are suspected of not complying with Union legislation (including cases where animals are suspected of having a disease or show signs of disease), and are detained pending a result.  — tick 'emergency measures' where animals or products are tested under applicable Union or national emergency measures and are detained pending a result.  Test results:  — tick 'pending' where a test result is awaiting;  — tick 'satisfactory' or 'not satisfactory' where the test result is available.
III.7	Welfare check
	This box only applies to animals falling within the scope of Regulation (EC) No 1/2005.  Tick 'no' where the animals have not undergone a welfare check.  Tick 'satisfactory' or 'not satisfactory' where the results of the check on the animals and on the transport conditions on arrival are available.

III.8 Non-compliance with welfare legislation					
	Tick the appropriate box(es) depending on the nature of the lished non-compliance(s) regarding the protection of animals transport pursuant to the relevant provisions of Regulation (EC) 2005:				
	— fitness for transport (Annex I, Chapter I and Chapter paragraph 1.9);				
	— means of transport (Annex I, Chapters II and IV);				
	— transport practices (Annex I, Chapter III);				
	— journey time limits (Annex I, Chapter V);

111.10	Other (where none of the aforementioned non-compliance applicable, complete as necessary).				

Number of unfit animals: indicate how many animals were unfit to travel.

Number of births or abortions: indicate how many females gave birth or miscarried during transport.

In the case of animals consigned in large numbers (day-old chicks, fish, molluscs, etc.), give an estimate of the number of dead or unfit animals.

### III.11 | Corrective action

Indicate any decision taken to remedy one or more of the established non-compliances indicated in boxes III. 8 and III. 9, in line with Article 138(2) of Regulation (EU) 2017/625:

- Unloading: unloading the animals and holding them in suitable accommodation with appropriate care until the problem is resolved;
- Transfer to another means of transport: transfer the consignment of animals or part of it from a means of transport that does not meet the legal requirements to one that does;
- Quarantine/isolation;
- Humane killing/euthanasia of animals (provided that it is the most appropriate measure to safeguard human health as well as animal health and welfare);
- Destruction of carcases/products;
- Return of consignment to the Member State of dispatch;
- Treatment of animals or products;
- Use of products for purposes other than those for which they were originally intended;
- Other (where none of the aforementioned actions are applicable, complete as necessary).

### III.12 | Follow-up of quarantine or isolation

For terrestrial animals: select 'humane killing/euthanasia' or 'release' of animals depending on the results of examinations during quarantine.

For aquaculture animals: select 'humane killing/euthanasia' or 'release' of animals depending on the results of examinations during isolation in an establishment approved in accordance with Article 16 of Delegated Regulation (EU) 2020/691.

### III.13 Place of official controls

Select a place of inspection:

- Registered establishment;
- Approved establishment;
- Establishment approved for assembly operations;
- Operator conducting assembly operations independently of an establishment;
- Confined establishment;

	— Germinal product establishment;

NOTES FOR THE COMPLETION OF MODEL ANIMAL HEALTH CERTIFICATES, OFFICIAL CERTIFICATES AND ANIMAL HEALTH/OFFICIAL CERTIFICATES FOR THE ENTRY INTO THE UNION OF ANIMALS, PRODUCTS OF ANIMAL ORIGIN, COMPOSITE PRODUCTS, GERMINAL PRODUCTS, ANIMAL BY-PRODUCTS, SPROUTS INTENDED FOR HUMAN CONSUMPTION AND SEEDS INTENDED FOR THE PRODUCTION OF SPROUTS FOR HUMAN CONSUMPTION

### General

To positively select any option, please tick or mark the relevant box with a cross (x).

Unless otherwise specified or established by Union legislation, all entries or boxes apply to the model animal health certificates, official certificates and animal health/official certificates in Chapter 3.

Where a box is not compulsory, its content shall appear in strike-through.

Only one of the options may be selected in boxes I.18 and I.20.

Only one box from boxes I.21 to I.23 may be selected.

Where a box allows one or more options to be selected, only the selected option (s) will be displayed in the electronic version of the certificate.

PART I	- DESCRIPTION	OF	CONSIGNMENT
IAKII	- DESCRIPTION	OI	COMBIGNATION

Box	Description Country			
	Indicate the name of the third country issuing the certificate.			
I.1	Consignor/Exporter			
	Indicate the name and address, country and ISO country code (1), of the natural or legal person dispatching the consignment. This person shall be established in a third country, except for the re-entry of consignments originating in the Union.			
1.2	Certificate reference			
	Indicate the unique alphanumeric code assigned by the competent authority of the third country. This box is not compulsory for certificates submitted in IMSOC. Repeated in box II.a.			
I.2a	IMSOC reference			
	This is the unique alphanumeric code assigned by the IMSOC. Repeated in box II.b.  This box shall not be completed if the certificate is not submitted in IMSOC.			
I.3	Central competent authority			
	Indicate the name of the central authority in the third country issuing the certificate.			

I.4	Local competent authority					
	Indicate, if applicable, the name of the local authority in the third country issuing the certificate.					
I.5	Consignee/Importer					
	Indicate the name and address of the natural or legal person to whom the consignment is destined in the Member State or third country of destination in the case of transit.					
	This box is optional for consignments in transit through the Union.					
I.6	Operator responsible for the consignment					
	Indicate the name and address, country and ISO country code, of the natural or legal person in the Member State in charge of the consignment when presented at the Border Control Post (BCP) who makes the necessary declarations to the competent authorities as the importer or on behalf of the importer. This operator may be the same as indicated in box I.5.					
	For products in transit through the Union: this box is compulsory.					
	For certain animals: this box is compulsory if required by the relevant Union legislation.					
	For animals and products for the placing on the market: this box is optional.					
I.7	Country of origin					
	For products: indicate the name and ISO country code of the country where the goods were produced, manufactured or packaged (labelled with the identification mark).					
	For animals: indicate the country of residence during the required period as set out in the relevant Union legislation. For registered horses re-entering the Union after temporary export for competition, races, or invited for specific cultural events in certain third countries, indicate the country from which they were last consigned.					
	In the case of trade involving more than one third country (triangular trade), a separate certificate must be completed for each country of origin.					
I.8	Region of origin					
	Where relevant for the movement of animals or products that are affected by regionalisation measures in accordance with Union legislation, indicate the code of the approved regions, zones or compartments as indicated in the Official Journal of the European Union.					
1.9	Country of destination					
	Indicate the name and ISO country code of Member State of destination of the animals or products.					
	If the products are in transit, indicate the name and ISO country code of the third country of destination.					

# ▼<u>M11</u> \_

I.10	Region of destination					
	See box I.8					
I.11	Place of dispatch					
	Indicate the name and address, country and ISO country code of the establishment(s) from where the animals or the products come from. Where required by Union legislation, indicate its registration or approval number.					
	For animals: indicate the establishment where animals are regularly kept.					
	For semen, oocytes or embryos intended for artificial reproduction: indicate as appropriate semen collection centre, embryo collection or production team, germinal product processing establishment, germinal product storage centre or confined establishment. In the case of semen of ovine and caprine animals, the place of dispatch may be the establishment keeping donor animals.					
	For certain fishery products referred to in Article 18 of Commission Delegated Regulation (EU) 2022/2292 (²): the place of dispatch may be a vessel.					
	For other products: any unit of a company in the food or animal by-product sector. Only the establishment shipping the products is to be named. In the case of trade involving more than one third country (triangular trade), the place of dispatch is the last third-country establishment of the export chain from which the final consignment is transported to the Union.					
I.12	Place of destination					
	Indicate the name and address, country and ISO country code, of the place where the consignment is being delivered for final unloading. Where applicable, also indicate the registration or approval number of the establishment of destination.					
	For storage of products in transit: indicate the name, address and approval number of the warehouse as defined in Article 2 (3) of Commission Delegated Regulation (EU) 2019/2124 (3). This box is optional in the case of transit without storage of products.					
I.13	Place of loading					
	For animals: indicate the name and address of the place where the animals are loaded in the means of transport, and in the case they are assembled beforehand, the name and address of the establishment approved for assembly operations.					
	For products: indicate the name, address and category (for example, establishment, port or airport) of the final place where the products are to be loaded in the means of transport for the journey to the Union. In the case of a container, state where it is to be placed aboard the final means of transport to the Union. In the case of a ferry, indicate the place where the truck is to be embarked.					

For animals: the date and time at which the animals are scheduled to leave in their means of transport (aircraft, vessel, railway or road vehicle).  For products: the date when the means of transport departs (aircraft, vessel, railway or road vehicle).
Means of transport
Select one or more of the following means of transport for animals or goods leaving the country of dispatch, and indicate its identification:
— aircraft (indicate the flight number);
<ul> <li>vessel (indicate the vessel name and number);</li> </ul>
— railway (indicate the train identity and wagon number);
<ul> <li>road vehicle (indicate the registration number with trailer number, if applicable).</li> </ul>
In the case of a ferry, tick 'vessel' and identify the road vehicle (s) with registration number (with trailer number, if applicable), in addition to the name and number of the scheduled ferry.
Entry Border Control Post
Indicate the name of the BCP of entry into the Union for certificates not submitted in IMSOC or select the name of the BCP of entry into the Union and its unique alphanumeric code assigned by the IMSOC.
Accompanying documents
Indicate the type of required document: for example CITES permit, permit for invasive alien species (IAS), declarations or other documents including of a commercial nature.
Indicate the unique code of required accompanying documents and country of issue.
Commercial document references: indicate for example the airway bill number, the bill of lading number or the commercial number of the train or road vehicle.
Transport conditions
Indicate the category of required temperature during the transport of products (ambient, chilled, frozen).
This box does not apply to animals.
Container number/Seal number
Where applicable, indicate the container number and seal number (more than one possible).
The container number must be provided if the goods are transported in closed containers.

Only the official seal number must be stated. An official seal applies if a seal is affixed to the container, truck or rail wagon under the supervision of the competent authority issuing the certificate.

### I.20 Certified as or for

Select the purpose of the movement of animals, the intended use of goods or the category as specified in the relevant Union legislation:

Feedstuffs: concerns only animal by-products intended for feeding farmed animals as referred to in Article 31 of Regulation (EC) No 1069/2009 of the European Parliament and of the Council (4).

Petfood: concerns only animal by-products intended for use as petfood or manufacturing of petfood as referred to in Article 35 of Regulation (EC) No 1069/2009.

Organic fertilisers and soil improvers: concerns certain animal by-products or derived products as referred to in Article 32 of Regulation (EC) No 1069/2009.

Technical use: animal by-products or derived products unfit for human or animal consumption, as referred to in Article 36 of Regulation (EC) No 1069/2009.

Pharmaceutical use: animal by-products unfit for human or animal consumption, as referred to in Article 33 of Regulation (EC) No 1069/2009.

Trade samples: as defined in point 39 of Annex I to Commission Regulation (EU) No 142/2011 (5).

Exhibition: concerns animals intended for an exhibition and sporting, cultural or similar events or display items as defined in point 34 of Annex I to Regulation (EU) No 142/2011.

Canning industry: concerns products for human consumption, (for example tuna) specifically intended only for the canning industry.

Products for human consumption: concerns only products of animal origin intended for human consumption for which an animal health certificate, official certificate or animal health/ official certificate is required by Union legislation.

Further processing: concerns products that shall be further processed before being placed on the market as well as live aquatic animals and products of animal origin from aquatic animals other than live aquatic animals, which are destined for a disease control aquatic food establishment as defined in Article 4, point (52), of Regulation (EU) 2016/429 of the European Parliament and of the Council (6).

Live aquatic animals for human consumption: aquatic animals intended for direct human consumption i.e. aquatic animals, which are delivered to the final consumer live or consumed live.

Confined establishment: as defined in Article 4, point (48), of Regulation (EU) 2016/429.

Quarantine establishment: as provided for in Article 14 of Commission Delegated Regulation (EU) 2019/2035 (7) as regards terrestrial animals and Article 15 of Commission Delegated Regulation (EU) 2020/691 (8) as regards aquaculture animals.

Travelling circus/Animal acts: as defined in respectively Article 2, points (34) and (35), of Delegated Regulation (EU) 2019/2035.

Release into the wild: concerns only live animals, which are to be released into the wild at the place of destination. Registered equine animal: as defined in Article 2, point (30), of Delegated Regulation (EU) 2019/2035. Further keeping: animals intended for establishments keeping live animals or for pet keepers, unless a more specific purpose or category from box I.20 applies to them (e.g. quarantine, confined establishments etc.). It also includes animals, which are intended to restock game supplies or to be released into the wild, if those are intended to pass through an establishment before being released. Purification centre: as defined in Article 2, point (2), of Delegated Regulation (EU) 2020/691. Dispatch centre: as defined in Article 2, point (3), of Delegated Regulation (EU) 2020/691. 	1.24	Total number of packages				
		Indicate the total number of packages in the consignment, where appropriate:  For animals: indicate the number of boxes, cages, containers, hives or stalls, in which the animals are being transported.  For semen, oocytes and embryos intended for artificial reproduction: indicate the number of containers.  In the case of bulk consignments, this box is optional.				
	1.25	Total quantity				
		For terrestrial animals or germinal products: indicate as appropriate the total number of heads, hatching eggs or straws expressed as units.  For aquatic animals: indicate as appropriate, the total number of animals, eggs or larvae expressed as units.				
	1.26	Total net weight/gross weight (kg)				
		The total net weight is the mass of the animals or goods themselves, without immediate containers or any packaging. It is automatically calculated by the IMSOC on the basis of the information entered in box I.27. The declared net weight of glazed food shall be exclusive of the glaze.  Indicate the total gross weight, i.e. the aggregate mass of the animals or goods, plus immediate containers and all their packaging, but excluding transport containers and other transport equipment.				
	I.27	Description of consignment				
		Indicate the relevant Harmonised System (HS) code and the title defined by the World Customs Organisation as referred to in Council Regulation (EEC) No 2658/87 (°). This customs description shall be supplemented, if necessary, by additional information required to classify the animals or the products in veterinary terms. In addition, state any specific requirements relating to the animals or to the nature/processing of the products as defined in the relevant Union legislation.  For animals: indicate the species, category, identification method, identification number, age, sex, quantity or net				
		weight, and test. For honeybees and bumble bees, indicate either of the following: queens with maximum 20 attendants, colonies with brood or other.				
		For semen, oocytes or embryos intended for artificial reproduction: indicate:  — the type (semen, <i>in vivo</i> derived embryos, <i>in vivo</i> derived oocytes, <i>in vitro</i> produced embryos or micromanipulated embryos);				
		<ul> <li>the collection or production date;</li> <li>the approval number of the establishment of collection or production (semen collection centre, embryo collection or production team, germinal product processing establishment, germinal product storage centre or confined establishment);</li> </ul>				

- the identification mark on the straw or other package;
- the quantity;
- the species, the subspecies (for animals from confined establishments, if needed) and identification number of the donor animal(s).

For products: indicate the species, type of products, type of treatment, approval number of establishments, when applicable, together with ISO country code (such as slaughterhouse, manufacturing plant, cold store), number of packages, type of packaging, batch number, net weight and the (oldest) date of collection/production. Tick 'final consumer' where products are packaged for final consumers.

For animal by-products or derived products: indicate the species, type of products, type of treatment, approval or registration number of the manufacturing or production establishment together with ISO country code, number of packages, type of packaging, batch number, net weight.

Species: indicate the scientific name or as defined in accordance with Union legislation.

Type of packaging: identify the type of packaging according to the definition given in Recommendation No 21 (10) of UN/CEFACT (United Nations Centre for Trade Facilitation and Electronic Business).

#### Notes

In accordance with the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, and in particular Article 5(4) of the Protocol on Ireland/Northern Ireland in conjunction with Annex 2 to that Protocol, references to the Union in this animal health/official certificate include the United Kingdom in respect of Northern Ireland.

This animal health/official certificate is intended for the entry into the Union of fresh meat and minced meat (as defined in Annex I to Regulation (EC) No 853/2004) of domestic bovine animals (as defined in Article 2, point (5), of Delegated Regulation (EU) 2020/692), including when the Union is not the final destination of such fresh meat.

The exclusion of mechanically separated meat is expressly mentioned in the title to avoid any confusion as this product shall not enter into the Union using this fresh meat certificate.

This animal health/official certificate shall be completed in accordance with the notes for the completion of certificates provided for in Chapter 4 of Annex I to Commission Implementing Regulation (EU) 2020/2235.

### II.2.6. Transport requirements

Arrangements have been made to transport the aquatic animals described in Part I in accordance with the requirements set out in Articles 167 and 168 of Delegated Regulation (EU) 2020/692 and specifically that:

II.2.6.1. when the aquatic animals are transported in water, the water in which they are transported is not changed in a third country or territory, or zone or compartment thereof which is not listed for entry into the Union of the particular species and category of aquatic animals;

(1) II.2.6.2. the aquatic animals are not transported under conditions that jeopardise their health status, in particular:

- (i) when the aquatic animals are transported in water, it does not alter their health
- (ii) the means of transport and the containers are constructed in such a way that the health status of the aquatic animals is not jeopardised during transportation;

(iii) the [container] (\*) [well-boat] (\*) is [previously unused] (\*) [cleaned and disinfected in accordance with a protocol and with products approved by the competent authority of the third country or territory of origin] (\*), prior to the time of loading for dispatch to the Union;' ◀

- II.2.6.3. from the time of loading at the place of origin until the time of arrival in the Union, the animals in the consignment are not transported in the same water or [container] (4) [well-boat] (4) together with aquatic animals which are of a lower health status or which are not intended for the entry into the Union;
- II.2.6.4. where a water exchange is necessary in a [country] (4) [territory] (4) [zone] (4) [compartment] (4) which is listed for entry into the Union of the particular species and category of aquatic animals, it only occurs [in the case of transport on land, at water exchange points approved by the competent authority of the third country or territory where the water exchange takes place] (4) [in the case of transport by well-boat, at a distance which is at least 10 km from any aquaculture establishments which are located *en-route* from the place of origin to the place of destination in the Union] (4).

## II.2.7. Labelling requirements

II.2.7.1. Arrangements have been made to identify and label the [means of transport] (4) [containers] (4) in accordance with Article 169 of Delegated Regulation (EU) 2020/692 and specifically that the consignment is identified by [a legible and visible label on the exterior of the container] (4) [an entry in the ships manifest when transported by well boat,] (4) which clearly links the consignment to this animal health/official certificate;

- (4) [II.2.7.2. In the case of aquatic animals, the legible and visible label referred to in point II.2.7.1. contains at least the following information:
  - (a) the number of containers in the consignment;
  - (b) the name of the species present in each container;
  - (c) the number of aquatic animals in each container for each of the species present;
  - (d) a statement saying: ["live fish intended for human consumption in the Union"]
     (4) ["live crustaceans intended for human consumption in the Union"]
     (4).]
- (4) [II.2.7.3. In the case of products of animal origin from aquatic animals other than live aquatic animals, the legible and visible label referred to in point II.2.7.1. contains one of the following statements:
  - (a) "products of animal origin from fish, other than live fish, intended for further processing in the Union";
  - (b) "products of animal origin from crustaceans, other than live crustaceans, intended for further processing in the Union".]

## (4) (10) II.2.8. Validity of animal health/official certificate

This animal health/official certificate is valid for 10 days from the date of issue. In the case of transport by waterway/sea of aquatic animals, this period of 10 days may be extended by the duration of the journey by waterway/sea.]

#### Notes

In accordance with the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, and in particular Article 5(4) of the Protocol on Ireland/Northern Ireland in conjunction with Annex 2 to that Protocol, references to the Union in this animal health/official certificate include the United Kingdom in respect of Northern Ireland.

This animal health/official certificate is intended for the entry into the Union of live fish, live crustaceans and products of animal origin from those animals, including when the Union is not the final destination of such live aquatic animals and their products.

"Aquatic animals" are animals as defined in Article 4, point (3), of Regulation (EU) 2016/429 of the European Parliament and of the Council. "Aquaculture animals" are aquatic animals which are subject to aquaculture as defined in Article 4, point (7), of Regulation (EU) 2016/429.

"Further processing" means any type of measures and techniques, carried out before the placing on the market for human consumption, affecting anatomical wholeness, such as bleeding, evisceration, heading, slicing and filleting which produce waste or by-products which could cause a risk of disease spread.

All aquatic animals and products of animal origin from aquatic animals other than live aquatic animals, to which Part II.2.4. of this animal health/official certificate applies, must originate from a third country or territory, or zone or compartment thereof which appears in column 2 of the table in Part 1 of Annex XXI to Implementing Regulation (EU) 2021/404.

Part II.2.4. of the animal health/official certificate **does not apply** to the following crustaceans and fish, and they may therefore originate from a country or regions, which is listed in Annex IX to Implementing Regulation (EU) 2021/405:

- (a) crustaceans which are packaged and labelled for human consumption in accordance with the specific requirements for those animals as set out in Regulation (EC) No 853/2004 and which are no longer able to survive as living animals if returned to the aquatic environment,
- (b) crustaceans which are intended for human consumption without further processing, provided they are packaged for retail sale in compliance with the requirements for such packages as set out in Regulation (EC) No 853/2004,
- (c) crustaceans which are packaged and labelled for human consumption in accordance with the specific requirements for those animals as set out in Regulation (EC) No 853/2004 and which are intended for further processing without temporary storage at the place of processing.
- (d) fish which are slaughtered and eviscerated before dispatch.

This animal health/official certificate applies to products of animal origin as well as to live aquatic animals including those destined for a disease control aquatic food establishment as defined in Article 4, point (52), of Regulation (EU) 2016/429 which are intended for human consumption in accordance with Section VII of Annex III to Regulation (EC) No 853/2004.

This animal health/official certificate shall be completed in accordance with the notes for the completion of certificates provided for in Chapter 4 of Annex I to Commission Implementing Regulation (EU) 2020/2235.

#### Part I

Box reference I.20.:

Tick "Canning industry" for whole fish initially frozen in brine at -9°C or at a temperature higher than -18°C and intended for canning in accordance with the requirements of Section VIII, Chapter I, Part II, point 7, of Annex III to Regulation (EC) No 853/2004. Tick "Products for human consumption" or "Further processing" for the other cases.

Box reference I.27.: Description of consignment:

"CN code": Insert the appropriate Harmonised System (HS) code(s) of the World Customs Organisation under the following headings: 0301, 0302, 0303, 0304, 0305, 0306, 0307, 0308, 0511, 1504, 1516, 1518, 1603, 1604, 1605 or 2106.

"Nature of commodity": Specify whether aquaculture or wild origin.

"Treatment type": Specify whether live, chilled, frozen or processed.

"Manufacturing plant": includes factory vessel, freezer vessel, reefer vessels, cold store and processing plant.

#### Part II:

(1) Part II.1. of this animal health/official certificate does not apply to countries with special public health certification requirements laid down in equivalence agreements or other Union legislation.

Part II.2. of this animal health/official certificate shall not apply and shall be deleted when the consignment consists of: (a) species other than those listed in the Annex to Commission Implementing Regulation (EU) 2018/1882; or (b) wild aquatic animals and products of animal origin from those aquatic animals which are landed from fishing vessels for direct human consumption; or (c) products of animal origin from aquatic animals, other than live aquatic animals, which are ready for direct human consumption without undergoing further processing in the Union.

(3) Species listed in columns 3 and 4 in the table of the Annex to Implementing Regulation (EU) 2018/1882. Species listed in column 4 shall only be regarded as vectors under the conditions set out in Article 171 of Delegated Regulation (EU) 2020/692.

(4) Keep if appropriate/delete if not applicable. In the case of Part II.2.4.1., deletion is not permitted if the consignment contains listed species for Epizootic haematopoietic necrosis, infection with Taura syndrome virus or infection with yellow head virus, other than in the circumstances referred to in note (6).

Code of the third country or territory, or zone, or compartment thereof as it appears in column 2 of the table in Part 1 of Annex XXI to Implementing Regulation (EU) 2021/404.

Parts II.2.3.1., II.2.3.2. and Part II.2.4. of this animal health/official certificate do not apply and shall be deleted if the consignment contains only the following crustaceans or fish:

(a) crustaceans which are packaged and labelled for human consumption in accordance with the specific requirements for those animals set out Regulation (EC) No 853/2004 and which are no longer able to survive as living animals if returned to the aquatic environment,

(b) crustaceans which are intended for human consumption without further processing, provided that they are packaged for retail sale in compliance with the requirements for such packages set out in Regulation (EC) No 853/2004,

(c) crustaceans which are packaged and labelled for human consumption in compliance with the specific requirements for those animals set out in Regulation (EC) No 853/2004 and which are intended for further processing without temporary storage at the place of processing,

(d) fish which are slaughtered and eviscerated before dispatch to the Union.

(7) Applicable when the Member State of destination in the Union either has disease-free status for a category C disease as defined in Article 1, point (3), of Implementing Regulation (EU) 2018/1882, or is subject to an optional eradication programme established in accordance with Article 31(2) of Regulation (EU) 2016/429, otherwise delete.

## Notes

In accordance with the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, and in particular Article 5(4) of the Protocol on Ireland/Northern Ireland in conjunction with Annex 2 to that Protocol, references to the Union in this animal health/official certificate include the United Kingdom in respect of Northern Ireland.

COUNTRY Certificate model MOL-HC

This animal health/official certificate is intended for the entry into the Union of live bi-valve molluscs and products of animal origin from those animals intended for human consumption, including when the Union is not the final destination of such bivalve molluscs and their products.

"Aquatic animals" are animals as defined in Article 4, point (3), of Regulation (EU) 2016/429 of the European Parliament and of the Council. "Aquaculture animals" are aquatic animals which are subject to aquaculture as defined in Article 4, point (7), of Regulation (EU) 2016/429.

"Further processing" means any type of measures and techniques, carried out before the placing on the market for human consumption, affecting anatomical wholeness, such as bleeding, evisceration, heading, slicing and filleting which produce waste or by-products which could cause a risk of disease spread.

All aquatic animals and products of animal origin from aquatic animals other than live aquatic animals, to which Part II.2.4. of this animal health/official certificate applies, must originate from a third country or territory, or zone or compartment thereof which appears in column 2 of the table in Part 1 of Annex XXI to Implementing Regulation (EU) 2021/404.

Part II.2.4. of the animal health/official certificate **shall not apply to** the following aquatic animals, and they may therefore originate from a third country or region thereof which is listed in Annex VIII to Implementing Regulation (EU) 2021/405:

- (a) molluses which are packaged and labelled for human consumption in accordance with the specific requirements for those animals laid down in Regulation (EC) No 853/2004 and which are no longer able to survive as living animals if returned to the aquatic environment;
- (b) molluses which are intended for human consumption without further processing, provided they are packaged for retail sale in compliance with the requirements for such packages laid down in Regulation (EC) No 853/2004;
- (c) molluses which are packaged and labelled for human consumption in accordance with the specific requirements for those animals laid down in Regulation (EC) No 853/2004 and which are intended for further processing without temporary storage at the place of processing.

This animal health/official certificate shall be completed in accordance with the notes for the completion of certificates provided for in Chapter 4 of Annex I to Commission Implementing Regulation (EU) 2020/2235.

#### Part I:

Box reference I.8.: Region of origin: indicate the production area, except for *Pectinidae*, marine gastropods and echinoderms harvested outside classified production areas.

#### Part II:

- Part II.1 shall not apply to third countries or territories with the special public health certification requirements laid down in equivalence agreements or other Union legislation.
- Part II.2. of this animal health/official certificate shall not apply and must be deleted when the consignment consists of: (a) species other than those listed in the Annex to Commission Implementing Regulation (EU) 2018/1882; or (b) wild aquatic animals and products of animal origin from those aquatic animals which are landed from fishing vessels for direct human consumption; or (c) products of animal origin from aquatic animals other than live aquatic animals which are ready for direct human consumption, without undergoing further processing in the Union.
