But they must comply with inspection requirements before they are placed on the market. The DoC announced by the BSMI to be applicable to certain products allows the manufacturer to have the testing done by laboratories on his choice from laboratories designated by the BSMI, to prepare the technical documents on his own, and to draw up the declaration declaring the conformity of his products with relevant standards. Both the technical documents and Declaration of Conformity shall be kept by the manufacturer for an applicable period. The manufacturer or importer shall apply to the BSMI or adequate BSMI branch office, depending on the jurisdiction area the BSMI assigned, for registration and a registration number for the DoC marking will be given to the manufacturer to be affixed to the products.
