#### Draft Amendments to the Labelling Criteria for Apparel and Garments

SUMMARY: In recent surveys of hosiery on the market, it was found that most of the labelling of such products was missing or incorrect. Having recognized the difficulties of sewing the required information on the body of hosiery, the Department of Commerce intends to amend the form of labelling for hosiery by requiring that the labelling be made in the form of hanging-on tags, stick on cards or cartons that could not be easily replaced and that the labelling not be attached directly to the body of the products.
