**NOTIFICATION** 歐盟 通知-智慧型手機、平板電腦、非智慧型手機（傳統型手機）、無線電話

The following notification is being circulated in accordance with Article 10.6

1.	<b>Notifying Member:</b> <u>EUROPEAN UNION</u> <b>If applicable, name of local government involved (Article 3.2 and 7.2):</b>
2.	<b>Agency responsible:</b> European Commission  <b>Name and address (including telephone and fax numbers, email and website addresses, if available) of agency or authority designated to handle comments regarding the notification shall be indicated if different from above:</b>  European Commission, EU-TBT Enquiry Point, Fax: +(32) 2 299 80 43, E-mail: <a href="mailto:grow-eu-tbt@ec.europa.eu">grow-eu-tbt@ec.europa.eu</a> Website: Preventing International Trade Barriers   TBT - European Commission
3.	<b>Notified under Article 2.9.2 [X], 2.10.1 [ ], 5.6.2 [ ], 5.7.1 [ ], 3.2 [ ], 7.2 [ ], other:</b>
4.	<b>Products covered (HS or CCCN where applicable, otherwise national tariff heading. ICS numbers may be provided in addition, where applicable):</b> Smartphones  Slate tablets  Mobile phones other than smartphones  Cordless phones  智慧型手機、平板電腦、非智慧型手機（傳統型手機）、無線電話
5.	<b>Title, number of pages and language(s) of the notified document:</b> Draft Commission Regulation correcting Commission Regulation (EU) 2023/1670 laying down ecodesign requirements for smartphones, mobile phones other than smartphones, cordless phones and slate tablets pursuant to Directive 2009/125/EC of the European Parliament and of the Council; (3 page(s), in English), (3 page(s), in English)
6.	<b>Description of content:</b> This draft Commission Regulation amends Commission Regulation (EU) 2023/1670 of 16 June 2023 laying down ecodesign requirements for smartphones, mobile phones other than smartphones, cordless phones and slate tablets. The amendments aim to correct certain aspects that have come to light after the adoption of the original act:  Annex II to Commission Regulation (EU) 2023/1670 requires that a range of spare parts are made available to professional repairers or end users, and it sets a maximum delivery time of those spare parts. There is an error in the determination of the maximum delivery time that needs to be rectified. Given that this mistake affects all products covered by the Regulation, the same correction has to be made in the section on "maximum delivery

time of spare parts" of each product group. Consequently, section 1.1 (3) of Parts A, B, C and D to Annex II must be amended.

Annex II to Commission Regulation (EU) 2023/1670 sets different disassembly requirements for various parts of the product. It has been identified that there is a mistake regarding the requirements for the replacement of the display assembly, which was erroneously included in two separate sections of the requirements. This error needs to be corrected to ensure clarity and consistency. Additionally, it is necessary to align the requirements for the replacement of the battery with those applicable to the back cover and back cover assembly. Given that this mistake affects all products covered by the Regulation, the same correction has to be made in the sections "disassembly requirements" and "availability of spare parts" of each product group.

本文件為歐盟委員會對 2023 年 6 月 16 日第 (EU) 2023/1670 號規則草案的修訂，該規則規定了對智慧型手機、非智慧型手機、無線電話及平板電腦的生態設計要求。此次修訂旨在更正原規則通過後發現的若干問題：

(EU) 2023/1670 號規則附件 II 要求，需向專業維修人員或最終用戶提供一系列備用零件，並對其最長交貨時間設有規定。然因最長交貨時間的規定出現錯誤，需予以更正。鑑於此錯誤影響所有受本規則約束的產品，因此必須對附件 II 第 A、B、C 和 D 部分第 1.1(3) 節中的「備用零件最長交貨時間」進行一致修改。

附件 II 亦對產品不同部分的拆解要求進行了規範。然而，現已發現其中顯示模組更換要求被誤列於兩個不同的段落中，造成內容混淆，需加以修正以確保條文的清晰與一致性。此外，亦有必要將電池更換的要求與背蓋與背蓋組件的要求保持一致。由於此錯誤影響所有受該規則涵蓋的產品，因此必須對各產品類別中「拆解要求」及「備用零件可用性」部分進行統一修正。

7. **Objective and rationale, including the nature of urgent problems where applicable:** After the adoption of Commission Regulation (EU) 2023/1670 certain aspects have been identified that need to be adapted. Firstly, the requirement on the delivery time of spare parts needs to be clarified. The original regulation provided for a different delivery time the first 5 year of the obligation to provide spare parts (5 days) than for the last two years of this obligation (10 days). However, the obligation to provide spare parts can last longer than 7 years as it is related to the time during which the product is placed on the market. Secondly, the disassembly requirements need to be corrected as the display assembly is erroneously included in two separate sections of the requirements. Finally, it is necessary to align the requirements for the replacement of the back cover assembly with those applicable to the battery by amending the availability of spare parts requirements. ; Protection of the environment
