

## Amendments to Legal Inspection Requirements of Thermal Paper

By the Bureau of Standards, Metrology and Inspection (BSMI), Ministry of Economic Affairs

### Background:

The reason for the Bureau of Standards, Metrology and Inspection (BSMI) to introduce this amendment is that the C.C.C Code of some thermal paper subject to mandatory inspection was not identified in the previous version. In the new version of the legal inspection requirements, 14 “Reference C.C.C. Codes” are provided. In addition, the inspection standards are updated while the inspection scope and items remain the same. The amendments are effective starting from the day of announcement. No matter produced domestically or imported, thermal papers must be in compliance with the inspection requirements before they are released from the production premises or the customs.

**Date of implementation:** 11 April 2022

### Products (HS/CCCN codes) covered and their applicable inspection standards:

Proposed Revision			Current Requirements
